C. C. STEVENS,

No. 213A.

GENERAL. - The 1st August 1890. - Babu Nobine Krishna Banerjee, Deputy Magistrate and Deputy Collector, Burdwan, is appointed temporarily to have charge of the Rampur Hat sub-division of the district of Birbhum.

The 2nd August 1890.—Mr. L. Palit, Officiating Joint-Magistrate and Deputy Collector, Tipperah, is allowed furlough for three mouths on medical certificate, under article 340 (a) of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

Mr. J. C. Price, Officiating Magistrate and Collector, Rajshahye, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the 14th August 1890, or such subsequent date as he may avail himself of it.

Mr. F. S. Hamilton, Officiating Joint-Magistrate and Deputy Collector, Hajipur, Mozuf-ferpur, is appointed to act as Magistrate and Collector of Rajshahye, during the absence, on

leave, of Mr. J. C. Price, or until further orders.

Mr. N. D. Beatson Bell, Assistant Magistrate and Collector, Patna, is appointed to have temporary charge of the Hajipur sub-division, in the district of Mozusserpur, during the absence, on deputation, of Mr. F. S. Hamilton, or until further orders.

The 4th August 1890.—Maulavi Fuzlul Karim, Deputy Magistrate and Deputy Collector, Rungpur, is appointed to have charge of the Nilphamari sub-division of that district.

Babu Dinanath Mukerjee, Deputy Magistrate and Deputy Collector, Munshiganj,

Dacca, is transferred to the Sadar station of the district of Rungpur.

Babu Sirish Chunder Ghose, Deputy Magistrate and Deputy Collector, Nilphamari, Rungpur, is transferred to Dacca, and is appointed to have charge of the Munshiganj sub-division of that district.

Babu Prossanna Coomar Karforma, Officiating Deputy Magistrate and Deputy Collector, Bogra, is transferred to the Sadar station of the district of Maldah.

This cancels the order of the 22nd ultimo, transferring Babu Girindra Chandra Banerjee, Deputy Magistrate and Deputy Collector, Lohardugga, to Maldah.

Babu Ram Nath Chatterjee, M.A., is appointed to act, until further orders, as a Deputy Magistrate and Deputy Collector, and is posted to the Sadar station of the Bogra district.

The 5th August 1890.—The order of the 24th February 1890, granting furlough for seven mouths to Mr. A. W. B. Power, Officiating Commissioner, Dacca, is cancelled.

Mr. E. R. Henry. Joint-Magistrate and Deputy Collector, on furlough, is appointed

to be a Magistrate and Collector of the third grade, with effect from the 3rd May 1890, vice Mr. K. G. Gupta.

Mr. W. C. Macpherson, substantive pro tempore Joint-Magistrate and Deputy Collector of the first grade, is confirmed in that grade, with effect from the 3rd May 1890, vice Mr. E. R. Henry, but will continue to act, until further orders, as District and Sessions Judge of Purneah.

Mr. R. T. Greer, Joint-Magistrate and Deputy Collector, is promoted substantively pro tempore to the first grade of Joint-Magistrates and Deputy Collectors, with effect from the 3rd May 1890, vice Mr. W. C. Macpherson, but will continue to act, until further orders, as Magistrate and Collector of Tipperah.

Mr. W. R. Bright, substantive pro tempore Joint-Magistrate and Deputy Collector of the second grade, is confirmed in that grade, with effect from the 3rd May 1890, vice Mr. W. C. Macpherson, but will continue to act, until further orders, as Deputy Commis-

Mr. R. W. Carlyle, Assistant Magistrate and Collector, is appointed substantively pro tempore to be a Joint-Magistrate and Deputy Collector of the second grade, with effect from the 30th June 1890, but will continue to act, until further orders, as Magistrate and Collector of Chittagong.

Mr. C. A. Wilkins, District and Sessions Judge, Bhagulpur, on furlough, is promoted to the first grade of District and Sessions Judges, with effect from the 24th May 1890, vice

Mr. W. F. Meres, retired.

Mr. F. H. Harding, Joint-Magistrate and Deputy Collector, on furlough, is appointed to be a District and Sessions Judge of the second grade, with effect from the 24th May 1890, vice Mr. C. A. Wilkins.

Mr. T. L. L. Jenkins, substantive pro tempore Joint-Magistrate and Deputy Collector of the first grade, on leave, is confirmed in that grade, with effect from the 24th May 1890, vice

Mr. F. H. Harding.

Mr. H. Cox, Joint-Magistrate and Deputy Collector, is promoted substantively pro tempore to the first grade of Joint-Magistrates and Deputy Collectors, with effect from the 24th May 1890, vice Mr. T. L. L. Jenkins, but will continue to act, until further orders, as District and Sessions Judge of Faridpur.

Mr. T. Inglis, substantive pro tempore Joint-Magistrate and Deputy Collector of the second grade, on furlough, is confirmed in that grade, with effect from the 24th May 1890, vice Mr. T. L. L. Jenkins.

Mr. E. F. Growse, Assistant Magistrate and Collector, on furlough, is appointed substantively pro tempore to be a Joint-Magistrate and Deputy Collector of the second grade, with effect from the 24th May 1890, vice Mr. T. Inglis.

Police - The 1st August 1890. - Babu Satya Charan Mookerjee, Temporary Assistant Superintendent of Police, is posted to Murshidabad.

"My telegram yesterday. British Consul, Alexandria, telegraphed quarantine imposed on arrivals from island Galesong, Dutch Indies."

J. M. McNeile, Col., R.E., Secretary to the Government of Bengal.

#### NOTIFICATION No. 203Mne.

The 5th August 1800.—In exercise of the powers conferred upon him by section 45 of Act IV (B.C.) of 1887, the Lieutenant-Governor is pleased to make the following rule for regulating the execution of repairs by the Commissioners of the Port of Chittagong:— Rule under Section 45 of Act IV (B.C.) of 1887.

Rule III.—The Port Commissioners may execute all repairs the estimated cost of which does not exceed Rs. 5,000. Petty repairs estimated to cost less than Rs. 500 may be sanctioned by the Chairman or Vice-Chairman, the sanction being submitted for confirmation at the next meeting of the Commissioners. No repair estimated to cost more than Rs. 500 and less than Rs. 5,000 shall be commenced by the Commissioners, nor shall any contract be entered into by the Commissioners in respect of any such work until a plan and estimate thereof shall have been approved by the Commissioners at a meeting.

In case the estimated cost of the repairs exceeds Rs. 5,000, the work shall not be commenced, nor shall any contract be entered in respect of it, until the plan and estimate

shall have been submitted to the Local Government and sanctioned by it.

J. M. McNeile, Col., R.E., Secretary to the Government of Bengal.

CEYLON-WEST COAST.

Night signals-Colombo harbour.

THE Colonial Government of Ceylon has given notice that on and after 1st August next, the following signals will be made at night from the Pilots' look-out tower at the Flagstaff, in answer to signals for a Pilot made by vessels inward bound:—

1. One blue light, to signify that the Pilot on night duty is disengaged, and will pro-

ceed at once to the vessel making the signal.

2. Two blue lights in succession with a short interval between, to signify that the Pilot is engaged with another vessel, and may be delayed some time in getting out to the

vessel making the signal.

3. Three blue lights in succession with a short interval between, to signify that a Pilot will not go out, the weather being too bad for safely boarding a vessel at night, an event. however, which seldom happens. Under such circumstances the vessel should either anchor well out, or keep underweigh till daylight.

TORRES STRAIT-WESTERN APPROACH.

Shoal eastward of Proudfoot shoal.

THE British Admiralty has given notice (No. 323 of 1890) that telegraphic information has been received from Commander L. S. Dawson, H. M. Surveying Vessel Rambler, of the existence of a shoal with a depth of 24 feet over it, lying in the Western approach to Torres

strait, with Proudfoot shoal bearing W. ½ S., distant about 8 miles.

Approximate position, lat. 10° 31′ S.; long. 141° 37′ E.

This position is 3 miles W.N.W. of the rock, with about 18 feet on it, reported in Notice to Mariners No. 243 of 1890, 15 miles W. by N. of Booby island, and it is not improbable that the two are identical, as Rambler was directed to verify the former report.

KE (K1) ISLAND.

Amended position of Batavier reef.

THE British Admiralty has given notice (No. 336 of 1890) of the following amended position and particulars of the Batavier reef, on the authority of the Commander of H. N. M. S. Flores, dated 3rd May 1890:—

Batavier reef extends about 6½ cables in a north-east and south-west direction, with a width of about 4 cables; the least depth obtained was 4½ fathoms, and its position is indicated by discoloured water; it lies with the following bearings and distance:—

Cape Borang, north extreme of Great Ké island ...

... N. 80° E.

Rumadan islet

... S. 26° E., distant about 8 miles.

Approximate position: lat. 5° 21' S., long. 132° 39' E.

Norg.—About 33 cables northward of Batavier reef is a small shoal with a depth of 9 fathoms. Between the reef and the shoal, the lead gave no bottom at 20 fathoms.

#### KAIPARA HARBOUR.

Additional leading beacons on North head.

THE British Admiralty has given Notice (No. 312 of 1890) that two additional leading beacons have been erected on the low sand hills seaward of the light-house on North head, north side of entrance to Kaipara harbour:—

The rear beacon is 25 feet high, painted white, and bears N.E. 1/2 N., distant 390 yards from the front beacon.

These beacons in line, bearing N.E  $\frac{1}{2}$  N., lead northward of Tory shoal; also over the bar, but on account of its distance from them, these beacons cannot always be seen from the bar, and therefore the beacons erected on the high land north-eastward of the light-house should, as hitherto, be used for crossing the bar.

Vessels entering Kaipara harbour, after passing Tory shoal, should haul more to the eastward to avoid getting too near the northern shore, both flood and ebb streams setting

towards that shore.

A look-out should be kept for any signal shown from the Semaphore station on North head.

(Variation 14° Easterly in 1890)

MORETON BAY.

Amended southern limit of inner white sector of Yellow Patch light.

With reference to Notice to Mariners, No. 78, dated the 10th June 1890, issued by this Office, the British Admiralty has given notice (No. 301 of 1890) that the southern limit of the inner white sector of Yellow Patch light is on an E. 38. bearing, not E. 48., as previously stated. Vessels entering North channel when northward of this southern limit must keep Tangaluma light slightly open westward of Cowan Cowan light, and should not get westward of the leading mark of Tangaluma and Cowan Cowan lights in line while within the distance of one mile southward of the limit. With these lights in line, the depth abreast East bank does not now exceed 17 feet at low water.

Also that Yellow Patch old lighthouse is still standing, and kept in line with cape Moreton lighthouse, gives by day the same position in Howe or North channel, as that of

the southern limit of the inner while sector of Yellow Patch light.

#### No. 1182B.

Notice is hereby given that the Ninth Sale of Opium, the Provision of 1887-88, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 1st September 1890, at 11 A.M., and will copmrise 4,750 chests, viz.—

		Total	•••	4,750
Ditto	at the Ghazeepore Factory	•••	•••	2,500
Opium manufactured	at the Patna Factory	•••	•••	2,250

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 26th November 1889, and published in the Government and Exchange Gazettes, or on personal application at the

Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 6th and 16th September 1890, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-80 p.m. of Saturday, the 6th September 1890, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 p.m. of Tuesday, the 16th September 1890.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazeepore Factories will be brought to sale during the present year about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances

render it expedient to do so :-

By order of the Board of Revenue, L. P.,

K. G. GUPTA, Secretary.

BOARD OF REVENUE, L. P., Calcutta, the 29th July 1890.

#### ELECTION OF MUNICIPAL COMMISSIONERS.

#### NOTICE.

It is hereby notified for general information, under Rule 21 of the Revised Election Rules, that the third general elections of Municipal Commissioners in this division will be held on Wednesday, the 10th December 1890.

A. W. B. Power, Offg. Commissioner.

DACCA COMMR.'s Office, dated the 25th July 1890.

NOTIFICATION.

It is notified for general information that at the election held, under section 27 of Act III (B.C.) of 1884, on Wednesday, the 9th July 1890, Babu Bipin Behari Chowdhury was duly elected as a Commissioner for Ward No. I of the Cutwa Municipality, vice Babu Ramgati Mookerji, deceased.

G. Toynbee, Offg. Commissioner.

BURDWAN COMMR.'s Office, the 25th-29th July 1890.

NOTIFICATION.

It is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 29th September next, in Ward No. V of the Chandrakona Municipality, in the district of Midnapore, to fill up the vacancy caused by the death of Babu Jogendra Nath Bhattacharjee.

This cancels the notification, dated the 21st June 1890, fixing the 30th July for the said

election.

G. TOYNBEE, Offg. Commissioner.

BURDWAN COMMR.'s Office, the 31st July 1890.

#### NOTIFICATION.

It is hereby notified for general information that at the bye-election held on the 16th ultimo in Ward I of the birnagar Municipality, in the district of Nuddea, Babu Raj Kumar Carardi was duly elected to be a Municipal Commissioner for that Ward sice Babu Loti

C. C. Stevens, Offg. Chief Secy. to the Govt. of Bengal,

Simla, the 25th July 1890.

#### FIELD OPERATIONS.

#### CHIN-LUSHAI.

No. 677.—The Most Hon'ble the Viceroy and Governor-General of India in Council is pleased to direct the publication of the subjoined letter from the Adjutant-General in India, submitting, under the orders of the Commander-in-Chief in India, the despatches received from Brigadiers-General W. P. Symons and V. W. Tregear, reporting the operations of the Burma and Chittagong Columns of the Chin-Lushai Expeditionary Force.

The objects of these operations were to inflict chastisement on such tribes as had committed depredations on British territory, to extend British influence over these and other tribes, to explore the country between Chittagong and Burma, to complete, if possible, a mule road between Bengal and Burma, and, by the establishment of communications and military posts, to ensure the recognition of the paramount power and the pacification of the country. The Governor-General in Council heartily concurs with the Commander-in-Chief in believing that these objects have been successfully attained, and he desires to express his great appreciation of the excellent conduct of the British and Native troops, who so well sustained the reputation of Her Majesty's army under circumstances of difficulty and hardship and, especially on the Burma side, in the face of severe sufferings from sickness. His Excellency in Council shares the deep regret with which the Commander-in-Chief regards the death of the officers named and of the soldiers who lost their lives in the service of their Queen and country.

and perseverance the Chin Expedition was conducted to a successful issue, notwithstanding the great difficulties caused by the nature of the country and its unhealthiness. His Excellency in Council also joins with the Commander-in-Chief in his approval of the manner in which Brigadier-General Tregear commanded the Chittagong Column, and of the valuable results achieved; he desires also to signify his concurrence in the commendation bestowed on Colonel G. J. Skinner, 3rd Bengal Infantry, commanding the Northern Column of the Lushai Force, and on Colonel C. McD. Skene, D.s.o., commanding the Northern Column of

the Burma Force.
The Governor-General notices with satisfaction the excellent reports of the good work done by the Commissariat and transport under Captain A. H. Clark-Kennedy and Captain Bond, Captain Westropp and Lieutenant Morris, by the Medical Department under Brigade-Surgeon Markey and Surgeon-Major Murphy, by the Signalling service with the various columns, and by the Survey parties under Lieutenants Bythell and Renny-Tailyour, R. E.

His Excellency in Council is glad to acknowledge the services of Mr. E. O. Walker, Assistant Superintendent of Telegraphs, and his department, and of Mr. G. Barton Groves,

Deputy Inspector of Post Offices, and the Postal Department.

The admirable services of Mr. G. E. Holland, of Her Msjesty's Indian Marine, in connection with the river transport from Kalewa to Kan, the very satisfactory work done by Mr. E. Good, Port Officer and Transport Officer at Chittagong, and the efficient help given by the Marine Department at Calcutta and Rangoon, have been specially brought to notice.

His Excellency in Council cordially recognises the way in which the civil and military officers worked together to the same end, and the acknowledgments of the Government of India are due to Sir Charles Crosthwaite, K.C.S.I., Chief Commissioner of Burma, and to the civil officers acting under him, for the untiring aid which they afforded to the military authorities. In another sphere of action Mr. D. R. Lyall, Commissioner of Chittagong, contributed largely to the success of the expedition; the personal exertions of Mr. Lyall have been especially noticeable. The services of Mr. C. S. Murray, Political Officer with the Lushai Column, and of Messrs. D. Ross and B. S. Carey, Political Officers with the Southern and Northern Columns of the Burma Force, have also been most valuable.

On the Lushai side the Cachar Military Police under Messrs. Daly and Broderick were brought to the front with great rapidity and in admirable order and did most useful service, while the Chittagong Fronticr Police did good work under Mr. S. V. Tayler. His Excellency in Council wishes to express the acknowledgments of the Government of India to Lieutenant-General B. L. Gordon, c.B., lately commanding the Burma District, Brigadier-General Auchinleck, commanding the Presidency District, and their Staff, for their labours in aid of the expedition; and also to Mr. J. W. Quinton, c.s.r, Chief Commissioner of Assam, and to Brigadier-General Collett, c.B., commanding the Eastern Frontier District, for the assistance they gave in the police and military arrangements connected with the movements from Cachar.

From the Adjutant-General in India to the Secretary to the Government of India, Military Department,-(No. 4179-A, dated Simla, the 16th July 1890).

I have the honour, by direction of the Commander-in-Chief in India, to forward, for submission to the Government of India, the enclosed despatches from Brigadier-General W. P. Symons and V. W. Tregear, describing the operations of the Burma and Chittagong Columns of the Chin-Lushai Expeditionary Force.

2. The general objects of the expedition were as follow:

To punitively visit such of the tribes as had committed depredations in British territory, and had declined to make amends or come to terms; to subjugate others that had remained neutral, but were to be brought within the sphere of British dominion; to explore and open out as much as possible the then unknown country lying between Burma and Chittagong; and finally to establish, where desirable and necessary, military posts along the country traversed, so as to ensure complete pacification and recognition of British power.

3. These objects have been attained by the expedition in a most complete manner, and His Excellency cannot too highly bring to the notice of the Government of India the

excellent conduct of all concerned, in having so cheerfully borne the hardships and overcome the difficulties which had to be encountered—difficulties which were considerably enhanced by the physical conditions of the country, and the severe sickness which attacked the force,

and which crippled the Burma Columns to almost a dangerous extent.

4. In such adverse circumstances, the results which have attended the operations of the expedition must be regarded as eminently satisfactory; for not only has communication between Bengal and Burma been established, and the tribes which had previously given annoyance fittingly dealt with, but all the principal tribes inhabiting the country have been brought under subjugation,—a large number of captives who had been in the hands of these tribes restored to their own homes,—and military posts at certain places for the preserva-tion of order, and as evidence of British supremacy, established.

5. Not the least satisfactory feature of the expedition has been the cordial relations which have at all times existed between the civil and military authorities, and which have in a large measure contributed towards the success of the expedition. The services of the civil officers, in connection with the negotiations which were entered into with the saverel

His Excellency fully concurs in the remarks made by the Commander-in-Chief of the Madras Army, regarding the good services rendered by Major-General (now Lieutenant-General) B. L. Gordon, c.s., lately commanding the Burma District, for his careful supervision of the arrangements for the organization and equipment of the Burma Columns: and to Brigade-General W. L. Auchinleck, commanding the Presidency District, His Excellency also desires to convey his acknowledgments for similar services in connection with the Chittagong Column.

7. To Brigadier-General Symons fell the responsible duty of conducting the extended operations of the Southern Burma Column, and of co-operating with the Northern Burma and Chittagong Columns. These duties he has performed with much ability, judgment and tact, and the thoroughness which characterized his dealings with the tribes, as also the indomitable spirit in which he encountered and overcame the numerous difficulties the expedition met with, shows how fully he has justified the confidence which

was placed in him at the time of his selection for this important command.

8. The operations of the Chittagong Column, under Brigadier-General Tregear, have also been conducted with much success, and the column is to be complimented on the section of the mule road which, despite great difficulties, was completed as far as Haka.

Colonel C. McD. Skene, D.S.O., 42nd Gurkha Light Infantry, who commanded the Northern Burma Column, was very successful in dominating the Northern Chin tribes, and in operating against the Tasbons in conjunction with Brigadier-General Symons' column; and the same success also attended the independent operations against Lienpunga and the sons of Vutai undertaken by Colonel G. J. Skinner, 3rd Bengal Infantry, in

command of the Northern Chittagong Column.

10. His Excellency also desires to bring to the notice of the Government of India the excellent arrangements and working of the Commissariat-Transport and Medical Departments, and of the river transport under the charge of Mr. Holland, of Her Majesty's Indian Marine Service, whose invaluable services in organizing the transport, and in conveying stores to the base of the Southern Column under circumstances which are known to have been most discouraging, have very appropriately been brought to special notice by Brigadier-General Symons and the Commander-in-Chief of the Madras

Army. The Telegraph Department also worked extremely well throughout the expedition.

11. Finally His Excellency takes the opportunity of recording here his deep sense of regret at the loss which the army has suffered by the death of such valuable officers as Major Ind, Royal Artillery, Major Gordon-Cumming, 1st Battalion Cheshire Regiment, Major Stoney, 1st Battalion King's Own Scottish Borderers, and Major Barr, 3rd Bengal

Infantry.

12. The list of officers who are considered to be specially deserving of reward will be submitted separately.

From LIEUTENANT-GENERAL SIR C. G. ARBUTHNOT, K.C.B., Commander-in-Chief, Madras, to the Adjutant-General in India,-(No. 1847-W, dated Ootacamund, the 27th June 1890).

In forwarding the despatch, dated 1st May 1890, of Brigadier-General W. P. Symons on the operations of the Chin-Lushai Expedition, together with a letter No. 2293, dated 28th May 1890, from Lieutenant-General B. L. Gordop, c.B., late in command of the Burma District, I beg to endorse the high terms in which the latter officer refers to the services of Brigadier-General Symons.

I desire also to bring to the favourable notice of His Excellency the Commander-in-Chief in India, the services rendered by Lieutenant-General B. L. Gordon, c.B., himself, whose careful supervision in connection with this expedition will, I trust, be considered

deserving of recognition by the Government of India.

I can fully endorse the high opinion expressed by Brigadier-General Symons of the services rendered by Mr. Holland, of Her Majesty's Indian Marine Service. That officer's indefatigable exertions in bringing up supplies by river from Kalewa to Kan—exertions continued without interruption, even when suffering severely from fever-are, in my opinion, deserving of the highest praise, and will, I trust, receive full recognition.

I cannot but allude here to the lamentable death of Major Ind, Royal Artillery, the senior staff officer of Brigadicr-General Symons when commanding the expedition, which occurred on his way home on leave, owing to sickness contracted on field service. This officer's ability, energy and devotion to duty have been highly spoken of, and it was with deep regret that I heard of his death.

From LIEUTENANT-GENERAL B. L. GORDON, C.B., Commanding the Burma District, to the Adjutant-General, Madras,-(No. 2293, dated Rangoon, the 28th May 1890).

I HAVE the honour to submit the despatch of Brigadier-General Symons on the late

Chin-Lushai operations.

General Symons has, I think, displayed marked ability, perseverance and patience in the way in which he has conducted the military duties entrusted to him, and has, by his knowledge of the people, his firmness and tact, carried to a successful termination a difficult and delicate political task. I hope his most valuable services may meet with adequate recognition.

2. General Sympac, has bringly to notice the names of officers serving under his command who have rendered him special assistance, and I hope I may be allowed to add to the last the names of the following officers, to whom I am very greatly indebted for the help they have given in organizing and equipping the expedition:

Deputy Surgeon-General J. M.N. Donnelly, c.s., to whom is due the success of the medical arrangements.

Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy Deputy De

commissariat stores for both the Northern and Southern Columns, and who performed his task with great intelligence and skill.

To Captain Wilson, Her Majesty's Indian Marine, Port Officer at Rangoon, and Mr. Barwick, Marine Transport Officer, Mandalay, I am greatly indebted for the admirable manner in which the whole of the river transport of transport of the river transport of transpor manner in which the whole of the river transport of troops and stores has been punctually

and rapidly carried out by Government steamers alone.

I hope it may not be considered out of place if I here acknowledge how very greatly the success of the expedition and the comfort of all engaged are due to the ungrudging assistance given by the Chief Commissioner, Burma, and the civil officers acting under his orders. The most cordial relations have always been maintained between the civil and military departments, and both have worked for the one end-the success of the Chin-Lushai operatious.

From BRIGADIER-GENERAL W. P. SYMONS, Commanding the Chin-Lushai Expeditionary Force, to the Adjutant-General, Madras, through the General Officer Commanding the Burma District,—(No. 1708, dated Camp Haka, the 1st May 1890).

In compliance with the instructions contained in your No. 1645-W of the 4th November 1889, I have the honour to submit the following report on the operations of the Northern and Southern Burma Columns of the Chin-Lushai Expeditionary Force.

I assumed command at Pakôkku on the 18th of November 1889, field service having

been ruled to commence on the 15th of November.

3. The objects of the expedition, as laid down for my guidance in the Proceedings of Government, Madras, Military Department, No. 6897 of the 9th of October 1889, were-

Firstly.—To punitively visit certain tribes that have raided and committed depredations

in British territory.

Secondly.—To subjugate tribes as yet neutral, but now, by force of circumstances, brought within the sphere of British dominion.

Thirdly.—To explore the unknown country lying between Burma and Chittagong.

Fourthly.—To establish, if necessary, certain posts in the regions visited, so as to ensure

complete pacification and recognition of British power.

4. To carry out these objects, the troops working from the Burma side were divided into three portions:

		Rifles.

Grand total 3,491 men, with 117 officers.

- III. Garrisons to guard the western frontier of Burma, and to hold posts on the lines of communication, were found by the 10th, 33rd and 38th Bengal Infantry, and the 2nd Madras Infantry.
- 5. To the Northern Column were assigned the duties of continuing and completing the subjugation and pacification of the Siyin, Sagyilain and Kanhow tribes of Chins, and of operating against the Tashons in conjunction with the Southern Column. Under Colonel Skene, the troops have been most energetic and successful. In eight expeditions, or sets of expeditions, the Northern Chins were so harassed that they have sued for peace, and the situation has cleared for final settlement.

6. The task that I set myself as commander of the Southern Column was-

First.—To drive a mule road through the heart of the Baungshé Chin country to Yokwa and Haka, subjugating this tribe as we advanced, and obtaining the restoration of captives.

Second.—To advance, in combination with the Northern Column, to the capital of the

Tashon Chins, and compel their submission.

Third.—To advance west from Haka, and, in co-operation with the Chittagong Column, complete the opening of the road between Bengal and Burma, coercing the tribes, and obtaining submission to our authority, on both sides of the line of advance.

Fourth.—To visit villages, force the Chins to cease raiding, and to give up all captives; and to explore the Chin Hills in every direction, as far as the limits of time and the working

season would permit.

Fifth.—To establish the necessary posts to hold the country after the withdrawal of the main body of the troops.

7. By the 18th of November the preparations for the campaign were in the following

advanced state-

The Southern Column, of which the strength has been given above, had concentrated at Pakôkku for its march of 165 miles to Kan. This march was successfully carried out by detachments of 200 fighting men with followers marching in succession doily for fifteen days. Shelters had been erected by the civil authorities at all halting places, and such provisions as

were procurable stored.

On account of the unusally late rains, the start for the expedition had been put off from the 1st to the 23rd of November. To enable the programme to be carried out, it could be postponed no longer. The leading columns, the first of which left Pakôkku on the 23rd of November, were just able to get through the fast falling rivers and drying country, and although the march was somewhat trying, the troops and followers all arrived at Kan in good condition, with 1.1 per cent. only of total strength, including men who were footsore, on the sick report.

8. The Northern Column was ready at Fort White to commence operations, and only

awaited the arrival of its hill coolies.

9. It had been decided to establish ten posts along the northern portion of the Burma Frontier, for its protection against Chin raids. All the garrisons for these posts were sent

up the Chindwin River to Kalewa.

The late rains had flooded the Kale Valley, and up to the end of November the country was impassable to anything but elephants. On the 24th October, 170 fresh mules, with elephants to carry their saddles and gear, took fifteen hours getting through the bogs and awamps, which blocked the last 5½ miles of the road into Kalemyo, the distributing base for all supplies for Fort White and posts in the Kale Valley. The energies of the officers, however, overcame all difficulties, and by the end of December these ten posts were constructed, occupied and rationed.

10. The work of rationing the troops, especially the Southern Column, has been throughout an extremely difficult undertaking. The problem for the Southern Column was how to feed a body of troops advancing into a totally unknown country from a distant base,—

the number of transport animals falling far short of requirements.

This base, Kan, was connected on the north by a shallow and swift running river, the Myittha, difficult of navigation, and full of snags and rocks, with Kalewa on the Chindwin

River, distant by water 136 miles.

To the south, the other main base, Pakôkku on the Irrawaddy, is 165 miles by land from Kan. On the 23rd November carts could only travel as far as Yebyu, a village 60 miles from Pakôkku. Before the season closed they were working into Gangaw, or within 23 miles of Kan. Both the river and road lines of communication from the main bases to Kan passed through a sparsely inhabited country, in which very few supplies could be obtained.

11. On the 10th of September, Mr. Holland of Her Majesty's Indian Marine Service, having explored the Myittha River, and given it as his opinion that stores could be taken up by water from Kalewa to Kan, orders were issued for 600 tons of stores to be sent by this route.

The river transport was placed entirely in Mr. Holland's charge. He devoted himself to the work with most intelligently applied energy, and, in spite of difficulties which on more than one occasion seriously threatened to swamp the enterprise, successfully carried it through. His great troubles were sickness, want of boats and boatmen, and wholesale desertions of the men with their boats. The difficulties caused by the river itself would have been light, if the Burman boatmen could have been depended upon to fulfil their engagements. Unfortunately they took this unnecessary opportunity of exhibiting their national characteristic of dislike to hard work, even for wages of an exorbitant rate.

Rain also fell incessantly up to the middle of November, and this further disheartened

the boatmen and delayed the work.

12. By the end of January 1890, 551 tons of stores had been despatched to Kan, and 638 tons to Kalemyo, by water from Kalewa. In addition, large numbers of details and sick, with their baggage, had been provided with carriage in the boats up and down between these places.

18. From the early days of February, all rations for the Southern Column were brought to Kan, by road from Pakokku, and so on to Haka, in carts, on pack-bullocks, and on

Government transport animals. In this month of February, cattle disease broke out with great virulence in the Kale and Myittha valleys, and the loss of the animals greatly hampered the commissariat and transport officers. In the Kale State alone upwards of 3,000 buffaloes, or more than 90 per cent. of the animals possessed by the people, died; whilst the packbullocks were reduced by two-thirds.

14. The first troops of the Southern Column, consisting of the head-quarters and No. 6 Company of the Madras Sappers and Miners, arrived at Kan on the 7th of December. On the 9th the Sappers, with a covering escort of the 2nd Madras Infantry, left to commence work on the road to Yokwa and Haka.

- 45. Before the expedition started, it was believed that the Southern Column would be enabled to reach Haka in ten, or at latest twelve, days from Kan. On this surmise all calculations were made. Such were the unexpected difficulties of the country, on account of the tumbled net-work of steep hills and deep ravines, that with the whole strength of the force devoted to making the road, 64 miles in length, it took the head of the column 66 days, and the mule road 77 days, to get into Haka. This disappointing delay was not without its compensating advantages in dealing with the Chins. They expected us to make a quick advance, do some damage, and retire. The steady persistent advance, together with the pains that were taken to get into touch with them, and to explain our objects and intentions, paralysed their spirits and efforts for resistance; and thus tribe after tribe submitted and yielded to our terms.
- 16. The same difficulty that met the Burma Column also greatly delayed General He was unable to get the section of the mule road into Haka until the 13th April. The completion of the mule road through from Burma to Bengal was the crowning success of the season's work. The junction of the two columns, however, occurred too late to allow of our undertaking any operations in concert, and General Tregear returned to the west on the 16th of April.

17. The Chins first met with were the Yokwas of the Baungshé tribe.18. From the outset, I resolved to try a lenient policy with the Southern Chins, who,

before these operations, had not come into contact with us.

- 19. After one poor attempt by the Yokwas at opposition to our advance on the 28th of December, near Taungtèk, when they acknowledged to having had 500 men and 300 guns against us, and to having sustained a great defeat, they gave up all hope of keeping us out of their hills.
- 20. On the 8th of January, two Yokwa Chins came into camp, and from this date onwards we were never again out of touch with the tribes. The objects of our coming, and our terms and conditions, were carefully explained to these two men, and they were dismissed to repeat them to their chiefs.
- 21. Much delay and difficulty was experienced in dealing with the Chins on account of the numbers of chiefs with each tribe. There is no central controlling authority. Each chief has a following, and all are bitterly jealous one of the other. Negotiations therefore had to be carried on with extreme patience.
- 22. In my opinion the course we pursued in abstaining from harsh measures, such as burning of villages, has advanced the settlement of the Chin Hill tracts to a point that we could not have reached by any other means in one season's work.
- 23 Having dealt with the Yokwas, as soon as the mule path was sufficiently forward, the column moved on Haka, arriving there on the 13th of February. The same procedure as observed with the Yokwas obtained the full submission of the important Haka commnnity, and the surrender of these two clans was virtually equivalent to the submission of the whole Baungshè tribe.
- 24. Whilst waiting for the mule path to reach Haka, reconnaissances were made to the west to explore the country, obtain the submission of the Tlanga, get touch with the Chittagong Column, and assist them in their advance eastward. These objects were most satisfactorily obtained. On the 26th of February, the advance parties of the Burma and
- Chittagong Columns met at Tao village, 52 miles west of flaka.

  25. Meanwhile preparations were being pushed forward for a combined march on the Tashon Ywama. It was a matter of the first importance to ensure the success of the movement against, and the submission of, this the by far the most populous and influential of the Chin tribes.
- 26. At this time, the end of February, sickness amongst the troops and carrier coolies had so weakened the strength of the Southern Column that a very small force only, one quite inadequate in case of serious resistance, could be taken into the Tashon country from the south. To minimise this risk, it was necessary to arrange for the simultaneous arrival of the two small columns from Fort White and Haka at the Tashon Ywama. A successful and rapidly executed reconnaissance from Haka to within eight miles of the Ywama, on the 26th February and four following days, enabled this movement to be planned.
- 27. The Fort White Column under Colonel Skene, 350 strong, started on the 8th of March; and the Southern Column consisting of two mountain guns and 290 rifles, which I commanded, left Haka on the 9th of March.
- 28. On the 11th March the two columns arrived from the north and south within one hour of each other on oppposite banks of the Manipur or Nankathe River—without having been apposed.

29. Elaborate preparations for the defence of their capital had been made by the Tashons. Innumerable stockades, breastworks, and obstructions extending over some nine

miles of country, but chiefly intended against an enemy advancing from the north, had been freshly erected at every commanding point. Large numbers of armed men watched both columns as they advanced, but there was no collision. It is difficult to estimate their numbers, but on the south of the Manipur Biver, near the Ywama, there were not less than

5,000 men, of whom two-thirds were armed with guns, and the rest with spears.

30. The Southern Column, notwithstanding the emphatic protests of three of the chiefs who had come out to meet it, continued its advance to within 1,000 yards of the Ywama, and there encamped. An assembly was called and the chiefs were asked if they would agree to our terms. To our great surprise, after permitting the columns to approach their capital unopposed, they firmly declined to acknowledge the supremacy of the Government by paying any tribute; and without absolutely refusing, thought it very unlikely that they would be able to pay any portion of the fine of Rs. 10,000 imposed on them by the Chief Commissioner of Burms.

The situation thus became as strained as it well could be. Having warned the Chiefs to think well over the consequences that their persistent refusal of submission would entail.

I dismissed them.

31. The next two days were spent in prolonged negotiations, which severely taxed our patience, but with the happy result in the end of the attainment of all our desires.

The tribute due for 1889 was paid as well as the fine, the latter reduced at their carnest

solicitation to Rs. 5,000.

32. A small reconnoitring party having been sent down to Sihaung, both columns withdrew from Tashon territory without mishap.

83. The following would appear to have influenced the chiefs of the war and stronger

party to submission:

In the first place they were impressed with our mobility and power of concentration. Then they were greatly upset with the information that we should have no alternative but to put garrisons in their country until they give in. The people also living along our lines of advance to save their valuable villages, used their utmost persuasion with the Chiefs to urge them to agree to our terms which we had taken care to have well circulated to them in advance.

34. The Chiefs confessed that to within a few days of our arrival they had intended to oppose us; that their pride and position as head of all the Chin tribes would suffer a blow from which they would never recover, if they permitted an armed force to approach their hitherto inviolate capital. Thus they were urged to fight; but doubts of being able to successfully resist us, added to the prayers of the outlying villages to be saved from destruction, overcame their pride and they were obliged to acknowledge themselves defeated.

From the above it will be obvious how correct was the policy of accepting the submission

of the tribe only at the Ywama.

- 35. On the return of the Northern Column to Fort White, operations were actively resumed against the Siyins; whilst the Southern Column was employed to the end of the season in numerous reconnaissances and explorations which have taught us much regarding these unknown regions.
- 36. The following is a list of the principal reconnaissances carried out by the Burma columns embracing a total of 628 miles of country, of which good road reports and sketches have been made and submitted :-

Yokwa to Gangaw.

Haka to the Tashon Ywama. 11.

- 111. Fort White to the Tashon Ywama.
- Tashon Ywama to Sihaung.
- V. Sihaung to Hanta.

VI. Haka, west, to Hmûn-li-pi.

VII. llaka, west, to Tao Klang, two routes.

Haka, south, to Naring and Hripi. VIII.

Haka, east, to Myintha, vid Wunhia. IX.

Χ. Yokwa, south, to Thetta and Kapi.

Numbers I, IV, V, and IX, together with the Kan-Haka route, comprise all the main roads that lead from the Burma frontier into the Tashon and Baungshé circles.

38. Number VIII, Haka to Naring and round by Hripi, was an extremely interesting exploration. It lasted teu days, during which 132 miles over a very hilly and broken country were covered, and much added to our knowledge of the Southern Banngshé country. Naring lies 56 miles south of Haka on the Boinu River. It contains 300 houses, and the inhabitants. possess large herds of cattle. They did not know the value of money, and refused to take any for supplies which they liberally presented. A large number of villages were brought under British control; and the Boinu River was traced in its eccentric windings through a wild country and its identity with the Tipi, now known to be the upper waters of the great Kolodyne River, established.

39. As the result of the operations, I would claim for the forces engaged that they have carried to a successful termination each and every object of the expedition, and this in spite of sickness from which all ranks have suffered in a great and abnormal degree and which caused me extreme and unceasing anxiety from the commencement to the end of the

operations.

That success under the circumstances was possible is due no less to the very liberal and complete manner in which the columns were found and equipped in men and materies, than to the care and forethought with which the expedition was planned, placed, and kept going in

The suppression of Chin raids in Burma territory has also been an important **4**0. object kept ever in view. From the commencement of field service on the 15th November 1889 to date, there has been only one Chin raid within the field of operations. In this case, 18 Burmans were taken captive. All were recovered within five weeks of the

outrage, and the Chin villages implicated were punished.

Again the Northern and Southern Columns of the Burma Field Force have recovered and restored to their homes 187 captives. There is not a single Burmese captive or salve left with the Tashon or Tlan-Tlang tribes; the Haka and Yokwa Chins have given up all theirs. A very few are still in the southern, and as yet unvisited Baungshe villages; whilst the Sivins and the Kanhows, though surrendering daily, have yet some Manipur and Burmese slaves in their possession. There is no reason to doubt that the few left with the tribes will all be got hold of in a short time.

As the result of this season's operations, raiding both for slaves and heads has been put stop to for ever down the western frontier of Upper Burma; and the inhabitants of the Kale and Myittha Valleys have been released from the reign of terror under which they

have lived and suffered for years past.

41. The Chin Bok operations, though in no way under my direction or command, but ably, even brilliantly, conducted by Lieutenant Rainey, Commandant of the Chin Levy Military Police Battalion, have squared well with our work and settled an adjoining belt of country beyond our capability to touch.

42. The Chin situation, as I leave it, is most satisfactory and quiet. Where not settled it is settling quickly. These wild tribes have accepted the inevitable, and will become

peaceable and good neighbours.

43. The discipline and behaviour of the troops and followers throughout have been

- exemplary.

  44. The 1st Battalion King's Own Scottish Borderers joined the Southern Column with a strength of 14 officers and 502 men. They did a lot of hard marching and road making. The regiment lost one officer (Lieutenant Foster), killed, 6 officers invalided, including two commanding officers in succession, whilst 21 men died from sickness and 273 were invalided.
- 45. The detachment of the 1st Battalion Cheshire Regiment with the Northern Column saw more service, and were also unfortunate in losing two commanding officers,—one invalided, and the other, Major Gordon-Cumming, to my great regret, and that of the whole Field Force, shot in ambush.

46. The 42nd Gurkha Light Infantry have performed service for the past eighteen

months in the Chin Hills that cannot be over estimated.

47. The 2nd Battalion 4th Gurkhas, a young regiment, on their first experience of active service, has pleased me greatly. They give every promise of sustaining the reputation and traditions gained in our service by their older battalions.

48. No. 6 Company of the Madras Sappers and Miners did continuous and arduous work both on the roads and in building the post at Haka. Their services have been very valuable. Between the 15th of November 1889 and the 30th of April 1890, the Company lost through sickness 3 officers and 72 men.

The Burma Company of the Queen's Own Madras Sappers and Miners also did

good work in the Kale Valley and at Haka. It has established its raison d'etre.

50. The post at Haka has been constructed to hold a garrison of -

300 Native Infantry,

25 Madras Sappers.

75 Followers,

with quarters for-

A commanding officer. 6 British officers.

A civil officer and establishment. 5 officers' chargers, and 25 mules.

- 51. The post at Fort White has been reduced to hold a garrison of 330 rifles. It and the posts on the line of communications to Kalemyo have been put in thorough repair, and all will be rationed by the 15th of May. Arrangements have also been made for keeping open communication during the rains between Hakt and Kan and Fort White and Kalemyo.
- **52**. It is outside the limits of a despatch to give in detail the working of, and results accomplished by, the various departments; but it is most fair and necessary that their services should be alluded to.
- 53. The Survey Department under Lieutenant T. F. B. Renny-Tailyour, R.E., his accomplished much. Upwards of 3,000 square miles have been surveyed and added to
- 54. The Intelligence Department, in the person of Lieutenant E. W. M. Norie, Middlesex Regiment, has been indefatigable in collecting information and making road sketches.

#### THE MEDICAL DEPARTMENT.

Owing to the very serious amount of sickness, the medical duties, especially with the Southern Column, were most arduous. The skill and energies of the departmental officers and subordinates were severely taxed to grapple with the mass of sick men, not only in the hospitals, but in their carriage and conveyance to the field and base hospitals. Malarial fever and dysentery, in a lesser degree, were almost the only diseases from which the troops and followers suffered.

Sanitation was invariably carefully attended to, with the happy result that no sickness

that could be attributed to its neglect ever broken out.

Malaria, or jungle fever, is always, more or less, prevalent in the valleys and in the Terai lying under the Chin Hills and down the Burma frontier. Owing to the very late and inclement rainy season, the last months of 1889, during which the troops were marching through this part of the country, proved extremely unhealthy. I attribute the sickness from which the officers and men of the Southern Column so greviously suffered to malarial poison alone, imbibed in passing through a tainted belt of country under circumstances which could not be avoided or improved. All that skilful medical treatment and attention could suggest was done to alleviate the disease and minimise its after-effects.

Of the 69 British officers who served with the Southern Column, only 7 escaped an attack or attacks of malarial fever, whilst one died and 26 were invalided from this ailment

alone.

On the 26th March, excluding all sick who were previously sent down, there were remaining in the hospital 11 British officers, 86 British, and 281 Native troops, and 994 followers. The medical arrangements for both colums worked well and smoothly throughout, and the supply of medicines and medical comforts was ample and good.

56. The statistics of the Northern and Southern Columns, taken together, show that, of all ranks, 9 were killed in action, 207 died of disease, of whom 72 were fighting men, and

2,122 were invalided (including 1,413 public followers and coolies).

Amongst these the following officers are included :- Major F. E. C. H. Gordon-Cumming, Cheshire Regiment, who was mortally wounded near Old Saglain on the 23rd March, and died the same day; Second-Lieutenant F. A. K. Foster, King's Own Scottish Borderers, killed in action near Taungtek on the 12th January; and Captain L. H. Gramshaw, 5th (Militia) Battalion, Royal Fusiliers, Orderly Officer, who died of disease at Kan on the 11th January.

#### THE COMMISSARIAT DEPARTMENT.

57. On account of the long lines of communication which connected the main columns of the force with the bases of supply, the variety of the transport employed, and the roughness and difficulties of the road and waterways, I find it impossible to condense the work of the department, and the interesting reports rendered by the Commissariat officers in charge, into the space of a paragraph. All the reports, with my remarks, will be forwarded separately.

From the commencement to the end of the campaign, the troops and followers were fed

well and liberally.

It having been necessary to send to Kan and Kalemyo, the two main forwarding depôts, large quantities of rations before the end of the rains, it was inevitable but that a proportion would be spoiled. Occasionally the damaged stores escaped detection before issue, but there was never any lack of good food ready to replace them, nor of readiness on the part of the officials of the department to do their very best for the troops, and make the expedition, as far as they were concerned, successful.

The Transport Department of the Southern Burma Column has been in charge of Lieutenant A. H. Morris, Royal Irish Regiment. The total number of animals employed with this column has been 69 elephants, 994 mules, 537 ponies, with 975 attendants, and the general health and condition of the animals, thanks to the incessant care and attention of Lieutenant Morris, Veterinary Surgeon Evans, and the transport staff of assistants, has been

very good.

59. The Telegraph Department has worked well, under many difficulties of transport, labour, and sickness. The construction of the line kept pace with the advance of the troops

into Haka. The wire has been invaluable throughout the operations.

60. The Postal Department has also served us well. Our thanks are due to the authorities for their arrangements which have conduced much to the pleasure and comfort of the

troops in the field.

- 61. The Public Works Department must also be mentioned for its assistance and cooperation. The roads from Pauk to Kau, from Kan to Chaung-kwa (now under construction and approaching completion), from Kalemyo to Fort White, and from Kalemyo to Kalewa,all heavy and toilsome works in an unhealthy country, -have been carried out at the instance of the military authorities, and to meet their wants.
- 62. As Chief Political Officer with the expedition my work has been rendered easy, by the hearty support and assistance rendered me by Mr. D. Ross, Political Officer, with the Southern Column, and Mr. B. S. Carey, Political Officer, with the Northern Column. We have worked together throughout in complete concord. The services of Mr. Ross have been of great value. His intimate knowledge of the Burmese language, the medium of all our communications with the Chins, and his patience and tact in dealing with the tribes, have conduced much to our peaceful victories. I commend his good services to the special notice of the Chief Commissioner of Burma.

Mr. Carey, at Fort White, threw himself with intelligence and energy into the breach of the troublesome situation that existed round that post when he took charge in December 1889. He has worked hand in hand with the commanding officers at Fort White and in the Kalé Valley, and has been most successful, under my instructions, in bringing about the surrender and submission of the proud and obstinate Northern Chins.

My special thanks are also due to Mr. A. S. Fleming, Deputy Commissioner of Pakôkku, for his assistance in supplying transport and accommodation for the troops, along the lower

lines of communication.

The campaign has not been one in which regimental officers have had many opportunities of especially distinguishing themselves. Its characteristic has been incessant hard work. In this, and in looking after their men, the efficers as a bedy have entirely satisfied me. The brunt of the work and responsibility has been borne by the staff and departmental officers.

64. I beg to submit the names of the following officers who have rendered specially

valuable services to the Burma Columns of the Expeditionary Porce:

(1) Colonel C. McD. Skene, D.s.o., commanding the 42nd Gurkha Light Infantry, the Chin Hills, and the Northern Column, has well sustained a reputation previously gained for command.

(2) Major G. Henry, Royal Engineers. This officer, as my Commanding Royal Engineer, and for some time second-in-command, has rendered me most valuable assistance. cannot speak too highly of the ability and devotion with which he has thrown himself into his work. I commend his services for special recognition.
(3) Lieutenant E. J. Lugard, 42nd Gúrkha Light Infantry, served with distinction in

the Chin Expedition of 1888-89, and has displayed conspicuous gallantry and intelligence in

leading his men on several occasions during the operations of this season.

(4) First Grade Officer G. E. Holland, Her Majesty's Indian Marine Service, to whose skilfully applied exertions are entirely due the placing of 600 tons of rations in Kan by water—a most arduous undertaking successfully carried out.

(5) Captain A. H. Clark-Kennedy, Madras Staff Corps, has very ably fulfilled the res-

ponsible duties of Chief Commissariat Officer.

- (6) Lieutenant A. H. Morris, Royal Irish Regiment, Transport Officer, with the Southern Column, has done particularly good service in his department. I consider him the best animal transport officer that I have ever met. His services are especially worthy of record and reward.
- (7) Brigade-Surgeon E. C. Markey, Medical Staff, as my Principal Medical Officer, has had responsible duties. I commend him for his administrative abilities.

From amongst the thirty medical officers who have served with the force on the Burma side, it is difficult, where all did well, to single individuals for special mention; but-

(8) Surgeon-Major G. D. Bourke, Medical Staff,

- (9) Surgeon F. A. Rogers, 42nd Gurkha Light Infanty, senior medical officer with the Northern Column, and
  - (10) Surgeon W. H. Bean, Medical Staff,

having displayed skill, zeal, and energy in their duties, have fallen' prominently under my notice.

The following officers have also deservedly earned mention in this despatch for their good service :-

Colonel J. K. Clubley, commanding the 2nd Madras Infantry and lines of communi-

Major G. O. Stoney, 1st Battalion, King's Own Scottish Borderers, who commanded the detachment of his regiment, and was second-in-command of the Southern Column for some time before, invalided;

Captain E. D. Pickard-Cambridge, Bedfordshire, Regiment, Superintendent of Army Signalling;

Captain J. G. Hunter, 10th Bengal Infantry; Lieutenant T. F. B. Renny-Tailyour, B.E., Survey Officer;

Lieutenant E. W. M. Norie, Middlerex Regiment, Field Intelligence Officer;

Lieutenant D. B. Thomas, 1st Battalion, Cheshire Regiment, for distinguished leading;

Lieutenant W. H. Hildebrand, 27th Bengal Infantry, Hill-Cooly Transport Officer; Lieutenant F. H. S. Thomas, Madras Staff Corps, Assistant Commissariat Officer, Northern Column; and

Veterinary Surgeon G. H. Eyans, Army Veterinary Department.

The name of Major Gordon-Cumming, 1st Battalion, Cheshire Regiment, would have been added to those mentioned for good services had he not been killed in action.

It remains only for me to brings to prominent notice the names and services of my

personal staff:

1

Major H. W. Ind, Royal Artillery, has been my senior Staff Officer. The ability with which he has supported me has won my warm regard. His advancement would be a distinct gain to the service.

Captain C. W. W. Burton, Madras Staff Corps, Junior Staff Officer, has ably assisted

Major Ind, and worked hard for the success of the expedition.

Lieutenant J. M. Stewart, 5th Gurkha Regiment, acted as my orderly officer, and gave me loyal assistance. I consider him a young officer of great promise, one whose military career is well worthy of watching and encouragement.

65. The campaign was officially closed on the 30th April 1890.

From BRIGADIER-GENERAL V. W. TREGEAR, Commanding the Chittagong Column, Chin-Luchai Expedition, to the Adjutant-General in India,-(No. 476, dated Calcutta, the 31st May 1890).

THE operations of the Chittagong Column, Chin-Lushai Expedition, having been brought to a conclusion, I have the honour to submit the following report for the information of His Excellency the Commander in Chief.

2.	Composition	of	Force The	force	under	my	command	WAS	composed	of	the
following	troops:-				•				-		

, <b>*</b>	Corps.				Total strength in officers and men.
No. 2 Company, Bengal	Sappers and Miners			•••	177
rd Bengal Infantry	•••	•••	•••	•••	821
Detachment 9th Bengal		•••	•••	•••	301
-2nd (P. W. O.) Gurkh			•••	•••	779
Ialf Battalion, 2-4th Gu		•••	•••	•••	869

Detachment, Chittagong	Frontier Police	•••	•••	•••	202
			TOTAL	•••	3,380

Cachar Column.—Four hundred men of the Cachar Military Police. The transport consisted of—

2,511 Punjabi coolies.
782 local

2,196 mules.
71 elephants.

- 3. The commissariat arrangements not being quite complete at Demagiri, the forward movement of the force had to be delayed for a short time, and the troops not required for immediate use in the front were halted at Chittagong and Rangamatti, where quarters were available and the men easily fed.
  - 4. Objects of the Espedition.—The object of the expedition was—

Firstly, to punitively visit certain tribes that have raided and committed depredations in British territory, and have declined to make amends, or come to terms.

Secondly, to subjugate tribes as yet neutral, but now, by force of circumstances, brought within the sphere of British dominion.

Thirdly, to explore and open out, as much as can be done in the time, the as yet only partly known country lying between Chittagong and Burma.

Lastly, to establish posts in the regions visited, so as to ensure complete pacification and recognition of British power.

5. Distribution of the Force.—To enable me to carry out the above, I determined on the following distribution of the force under my command:—

Rangamatti and Demagiri garrisons and line of communications up to Fort Lungleh ...

Northern Column (with which the Cachar Column under Mr. W. W. Daly would co-operate).

Haka Column, and line of communications beyond Fort Lungleh.

8rd Bengal Infantry.
2 Company, Bengal Sappers and Miners.

250 men, 3rd Bengal Infantry. 800 men, 2-2nd Gürkha Regiment.

100 men, 28th Bombay Pioneers.

50 men, Frontier Police.

Company, Bengal Sappers and Miners.

Detachment, 9th Bengal Infantry.

Half battalion, 2-2nd Gúrkha Regiment.

2-4th Gúrkha Regiment.

28th Bombay Pioneers. 100 men, Frontier Police.

The Northern Column I placed under the command of Colonel G. J. Skinner, 3rd Bengal Infantry, with Lieutenant H. W. G. Cole, 2-2nd Gurkha Regiment, as Staff Officer.

6. When a sufficient quantity of rations had been sent forward to Lower Lungleh, the troops were gradually moved up to hold the line of communication and commence the construction of the road towards Haka.

7. Despatch of the Northern Column.—While the six weeks' rations for the use of the Northern Column were being collected, the route to be followed to Lienpunga's village had been reconnoitred for a considerable distance, and the neighbouring chiefs, all of whom proved friendly, were called upon to clear the path of jungle, which they did. The route followed the Klong river, and as rafts could be used on portions of it, the difficulty of carrying the stores forward was much decreased. By the 28th January 1890, all troops, transport and provisions of the Northern Column had left Fort Lungleh. Considering the work to be undertaken by the Northern Column as most important, and being aware that its success depended entirely upon its being able to move about freely in the hills when once Liespunga had been reached, I made over the whole of my available Punjabi coolies, 1,611 in number, for its use, keeping but 50 men for the Haka Column and 80 to work the tramline at Burkal.

8. The following troops were employed with the column:-

250 men, 3rd Bengal Infantry.

300 men, 2-2nd (P. W. O.) Gurkha Regiment.

- diners.

  Company (80 men), Bengal Sappers and Miners.

  Chittagong Frontier Police
- 50 men, Chittsgong Frontier Police.
  400 men of the Surma Valley Military Police.

100 men, 28th Bombay Pioneers.

9. The work of the column was-

(1) To punish Lienpunga for the raid on the Chengri Valley.

(2) To punish the sons of Vutai for their raid on the Pakuna Rani's village.

- (3) To establish a permanent post in the vicinity of Lienpunga's village, to be garrisoned during the summer.
- 10. These objects were satisfactorily attained by the column; captives were also as far as possible recovered, and two stockades, named Fort Aijol from the name of the locality, were constructed on an excellent and healthy site, which is also politically advantageous. The post was provisioned for about six months, and an excellent road had been nearly completed connecting it with Changsil. This work was done by Mr. Daly's police detachment.
- 11. Road construction.—Major Leach, R.B., Commanding Royal Engineer, in company with Captain Mullaly, R.B., Field Engineer, arrived at Fort Lungleh on the 29th November, and after consultation with Mr. Murray and Captain Shakespear, who had during the past season been making all necessary inquiries as to the direction the new road should take, and having themselves reconnoitred the country, started the trace on the southern slope of Teriot on the 6th December 1889. From this date the construction of the road was steadily carried on, and the 44 miles to Fort Tregear completed on the 28th February. I would here point out the difficulties which attend road-making in the Lushai country. In the first place, there is the dense jungle, which prevents one seeing a dozen yards ahead; rocks extending over large portions of the hill-sides are constantly met with, and when it was found impossible to avoid them, much time was taken up in blasting operations. Range upon range of precipitous hills, running at right angles to the line of advance, had to be crossed, and the question of a sufficient supply of water at the different camps had also to be considered in determining the trace of the road. Two large rivers, the Matt and the Kolodyne, had to be bridged. These bridges, the former 206 feet and the latter 304 feet long, had to be very substantially built, and were of the crate and trestle type.

12. Establishment of advanced post.—It had been my intention to fix upon a site on the Molum Pui for the advanced post, but, on crossing the Kolodyne, the ascent to it was found so precipitous that the road had to be taken up the Darjow Klang instead. Within a short distance of the top of this hill, and at an elevation of 5,100 feet, an old village site was reached, and as the position was good and well suited for a post in every way, with a plentiful supply of good water close at hand, I determined to build the stockade on it. The work of construction was commenced on the 1st March, and all the barracks, godowns, &c., built, and defensive works completed, by the end of April. At the request of the members of the expedition, I named the post "Fort Tregear." There is accommodation

for four officers, 200 troops, and 100 coolies.

18. Garrison for Fort Tregear.—Instructions having been received that the Bengal Government was anxious that the advanced post should be held by troops, the following garrison was detailed for the purpose:—two British officers, one British medical officer and 200 men of the 2-2nd Gùrkhas. Captain F. P. Hutchinson of the above regiment was specially selected to command the post.

In addition to the telegraph, heliographic communication is maintained between Forts Tregear and Lungleh, and signalling parties with all necessary apparatus attached to each

post.

14. Stocking of Forts Lungleh and Tregear.—The stocking of Forts Lungleh and Tregear was commenced on the 29th March, and completed, the former on the 2nd May and the latter on the 3rd May. Upwards of 6,500 maunds of provisions have been put into the two forts to last for a period of eight months. Continuous and heavy rain for six days in the middle of March interfered greatly with the pushing up of stores; the roads became so slippery that it was impossible to take laden mules along portions of it, especially between Demagiri and Fort Lungleh, where the gradient in parts is steep.

between Demagiri and Fort Lungleh, where the gradient in parts is steep.

15. Road construction towards Haka from Fort Tregear.—Time being short for constructing a permanent road to Haka, it was determined that nothing more than a good mule track should be made beyond Fort Tregear, and the working parties were soon engaged in this work, which was pushed on with all speed and energy. The route to Haka had been thoroughly reconnoited by Captains Hall and Shakespear, and it was estimated

that the road would be 75 miles in length.

The nature of the country lying between the Darjow and Haka is very different from that already passed through, being much more open, free of bamboo, and with but little undergrowth. The last 40 miles into Haka is quite open, and the path used by the natives was found quite good enough in many places for the mules. The mule road was commenced on the 28th February from Fort Tregear, and with the exception of six days, during which all work had to be knocked off on account of heavy rain, completed to Haka on the 18th April—the distance, as measured by the survey party, being 81 miles—making a total of 125 miles of road constructed during this expedition.

16. Commissariat.—The Commissariat Department had as usual a most arduous and difficult task to perform; and when it is taken into consideration that the expedition passed through a country where literally not a grain of food-supply is procurable, I feel bound to say that the manuer in which the work was carried out reflects the greatest credit on all concerned.

17. Field Hospital.—The equipment of the field hospitals was most satisfactory and

complete.

18. Survey.—A very considerable amount of survey work has been accomplished during this expedition, and reflects the greatest credit on Lieutenant W. J. Bythell, R.E., and the officers under him. Work was commenced from Lungleh early in December, the fixed points on the hill above Fort Lungleh and on Saipuva's old village site, as determined by the late Lieutenant Pollen, R.E., having been identified and observed from, and thus connection secured for an extension of the triangulation eastwards from the bases Saipuya-Rinjam-Chapa Tong, and Lungleh-Rinjam-Chapa Tong, and Kansa Tong. The work from Lungleh, Moisum and Bolpui was completed by the end of January; and the reconnaissances towards Lalthuama's village and Darbilli's village in the months of January and February respectively, which Lieutenant Bythell accompanied, enabled a large amount of detail to be secured.

I was also able to send Lieutenant Bythell to Haka when the 2-4tk Gurkhas marched through to join the Burma Column, and both topography and triangulation have been carried into Haka.

A reconnaissance southwards along the Boinu river by Brigadier-General Symons, which Lieutenant Bythell was allowed to accompany, enabled a large tract of country to the south to be surveyed, and the identity of the Boinu and Kolodyne rivers to be established.

The triangulation has been entirely in the hands of Mr. Stotesbury, Surveyor, 3rd grade, who has worked hard throughout. He is a very willing, energetic and zealous assistant, and has ably maintained his reputation of being a skilled observer and first class draftsmen.

19. Telegraph.—During the last expedition the field telegraph line had been completed to Demagiri, and on the 22nd April 1889 the work of laying the wire to Lungsin, 21 miles, was commenced, and completed (with great difficulty, owing to sickness among the coolies) on the 17th May 1889. The whole of the party, Enropeans and Natives, suffered from the unh-althiness of the season. The field telegraph office at Lungsin was opened on the 12th September 1889.

Mr. E. O. Walker, Assistant Superintendent of Telegraphs, was appointed to continue the field line from Lungsin to Fort Lungleh, and forwards with the Chittagong Column.

The laying of the field line from Lungsin to Fort Lungleh was started on the 26th October, and finished on the 25th November, a distance of 20 miles. The line between Demagiri and Lungsin had also to be thoroughly repaired, as much damage had been done to it from failing trees and growing vegetation during the rains.

The construction of the line from Fort Lungleh towards Haka was commenced simultaneously with the road, and by the 23rd March-had been completed to the Upper Kolodyne, a distance of 65 miles, when orders were received to discontinue the laying of the line towards Haka. Perhaps it is as well that this work has been put off till next winter, when it can be carried out in a permanent manner. The supervision of a temporary line between Fort Tregear and Haka would, during the coming wet season, have been

impossible.

The whole of the field work has proved laborious and exhausting to all concerned, owing to steep ascents and declivities, and the dense forest and undergrowth or bamboo jungle everywhere met with. The whole of the work has, notwithstanding these difficulties, been carried out in a most excellent manuer, and reflects the greatest credit on Mr. Walker and all his subordinates. Owing to ill-health Mr. Walker had to return to India on the 7th March from Fort Tregear, after which date the laying of the line was carried on by Messrs. Rector and Davies, both of whom have worked very hard and well throughout the expedition; the services of the latter officer I had the pleasure of bringing to notice in my final report on last year's expedition.

20. Signatting.—The signalling party, which consisted of two British officers, six British non-commissioned officers, and 37 Native non-commissioned officers and men, proved of the greatest assistance to me, especially when the Northern Column was detached, and during my march from Fort Tregear to Haka; also when parties went out on recon-

noitring duty.

The work of the signalling party was very heavy at times, and was carried out in a

most efficient manner.

21. Postal.—The postal arrangements, under the able direction of Mr. G. B. Groves, Deputy Inspector of Post Offices, who accompanied the expedition as far as Fort Lungleh, worked in a most satisfactory manner throughout.

22. The Government of Iudia having decided that the country cast of the Upper Kolodyne should be controlled from Haka, no political action was taken by me during my advance to Haka, but a reconnoitring party under Captains Hall and Shakespear, which met a party from General Symons' force at Tao village on the 26th February and proceeded to Haka, was enabled to recover, without resorting to violence, the skulls of the

three Europeans, and three rifles, a pair of field-glasses and an aneroid taken at the time of Lieutenant Stewart's murder.

Ten captives have been released and sent back to their homes.

There were six other captives who had been carried off from Lalsewa, and ready to be given up, but they refused to return to his village, being evidently quite contented and happy in their new homes.

There is no doubt that the tribes inhabiting this wild country, and with whom we

have come in contact, have fully realized the fact that our advent among them is to their advantage in many ways, that our stay will be permanent, and that as long as they behave themselves, desist from raids, and are friendly to us, we have no wish or intention of interfering with them or their property.

Raids on our frontiers may, I consider, be looked upon as troubles of the past, and it

now only remains for the political officers to consolidate the work of the expedition.

23. Return of the Force. - The work of the Northern Column was accomplished first, and that force was withdrawn during March via Cachar, under arrangements made by the General Officer Commanding the Assam District.

In the column working towards Haka under my personal command, I was able to begin sending back the troops in the early part of March, and a detachment of the 3rd Bengal

- Infantry was the first to leave.
  24. The troops escaped the worst influences of the country and climate, as they were at Chittagong and Rangamatti comfortably housed until January, and they were almost all out of the country by early in April, with the exception of the 3rd Bengal Infantry, who held the hot and unhealthy posts on the Demagiri-Lungleh line of communications until the middle of May.
- 25. Death of Major Barr, 3rd Bengal Infantry.—It is with sincere regret that I have to record the death of Major J. E. Barr, 3rd Bengal Infantry, which took place at Rangamatti on the 22nd May 1890, from dysentery contracted at Demagiri. This officer did excellent work on the Demagiri-Lungleh line of communications, and in his death the service has lost a hard-working and reliable officer. I had fully intended bringing his name to the special notice of His Excellency the Commander-in-Chief for good work performed during the expedition.
  - 26. Corps and detachments were employed as follows:-

#### No 2 Company, Bengal Sappers and Miners.

This company, under the command of Captain R. D. Petrie, 'R.E., was, on arrival at Fort Lungleh, set to work on the road towards Haka. On the 3rd January half the company under Captain Petrie was detached with the Northern Column; the remaining half under Lieutenant H. J. Sherwood, R.E., continued to work on the road, and also took part in building the post at Fort Tregear. I cannot speak too highly of the heavy and excellent work performed by the Sappers and Miners.

#### 3rd Bengal Infantry.

Two hundred and fifty men of this corps proceeded with the Northern Column, and the remainder were employed in garrisoning Rangamatti and Demagiri, and the different small posts on the Rangamatti-Lungleah lice of communications. These duties, which at all times prove uninteresting to troops, were nevertheless chrefully and carefully carried out, under the orders of the late Major J. E. Barr, who commanded the regiment during Colonel Skinner's absence with the Northern Column.

#### 9th Bengal Infantry.

The detachment of this regiment, which had been employed on the line of communications during the last Lushai expedition, and had since the close of those operations garrisoned Rangamatti, was moved up early, as it was my intention that Captain A. T. Weller and his men should have a chance of seeing some service this time. This, however, as matters turned out, was not to be, and it was found unnecessary to take, them beyond Fort Lungleh. The men of this corps have during both expeditions shown great keenness for service, and although much harassed with fever, have at all times carried out their duties in a spirited manner.

#### 2-2nd (Prince of Wales's Own) Gurkha Regiment.

I was exceedingly glad to have the services of this excellent regiment, under the command of Lieutenant-Colonel F. W. Nicolay, placed again under my orders. One wing proceeded under Major F. R. Begbie with the Northern Column, while the other was employed with the Haka Column, 100 men of which, under Captain L. M. M. Hall, led the advance with the tracing party. At a later period 60 men formed the escort of the reconnoitring party under the above officer towards General Symons' force, and was the first of my column to reach Haka. It is needless for me to point out the hard work which Gurkhas are ever ready to go through, and the checrfulness with which it is invariably performed. The men of the 2-2nd simply worked splendidly.

#### 2-4th Gurkha Regiment.

Owing to the absence of all opposition, the want of transport, and the difficulty of rationing more than a certain number of troops, the half-battalion of this regiment, under the command of Major Sir C. H. Leslie, was not moved up to the front until the 13th February

from which time the men were employed in road construction, earthwork at Fort Tregear, and in clearing jungle with the advance party towards Haka. On the 27th March the whole detachment started from the Upper Kolodyne to join the Burma Column, as was originally intended, and arrived at Haka on the 1st April, having marched along the native paths vid the Tao (or Sangal Klang). My remarks regarding the manner in which Gurkhas work apply equally to the men of this corps, which is as smart a body of men as one could ever wish to serve with.

#### 28th Bombay Infantry (Pioneers).

With the exception of one company, which proceeded with the Northern Column, the whole regiment, under the command of Colonel R. Westmacott, has been employed on road construction towards Haka, and earthwork at Fort Tregear. This is the first occasion on which the men of this corps have ocen on field service as a pioneer regiment. They have proved most useful to the expedition, and worked cheerfully and well. When the regiment was ordered to commence its return march to India, I kept 100 men under Captain W. St. L. Chase, v.c., for work on the mule-road to Haka, and the zealous and admirable manner in which they carried out their duties, under the above officer, was of the greatest assistance in completing the road.

#### Chittagong Frontier Police.

During the last expedition I was able to make very favourable mention of the men composing the Chittagong Frontier Police Battalion, under the command of Mr. C. S. Murray, District Superintendent of Police. During this expedition 50 men accompanied the Northern Column, and 100 under Mr. S. V. Tayler, Assistant Superintendent of Police, were employed with the advanced party, and did excellent work. They are the most useful and willing men I should ever care to serve with. Besides being keen soldiers, they can build huts, thatch roof, construct rafts, and, in fact, put their hands to anything, and are accustomed to carry all their own kits.

#### Cachar Military Police.

In the middle of Dec mber 1889, orders were issued by Government for a column of 400 men under the command of Mr. W. W. Daly, to be sent from Cachar to co-operate with my Northern Column, in the expedition against Lienpunga and Vutai's sons. The rapid manner in which the men of this battalion were concentrated at Jhalnacherra, and moved up by boat and route march to Changsil Bazar, reflects the greatest credit on the corps. One hundred men were left to garrison Changsil Bazar, which was selected as the base depot for supplies, and the remaining 300 men marched to Lienpunga and took part in the operations carried out in the vicinity of that village, and were afterwards employed in building Fort Aijol, which is now garrisoned by 200 men. A detachment of 100 men hold Changeil Buzar.

27. Officers.—It now only remains for me to bring the names of the following officers, civil and military, to the special notice of His Excellency the Commander-in-Chief, and in doing so, I would take the opportunity of acknowledging most gratefully the cordial assistance I have at all times received from all ranks, British and Native, and to bear testimony to the privations and hardships borne by all during this exceptionally prolonged and arduous campaign, with a cheerfulness and devotion to duty which is most praiseworthy.

The discipline of the troops has been excellent throughout the expedition; and the

absence of all crime reflects the greatest credit on the force.

1.—Mr. C. S. Murray. Political Officer, who accompanied the Northern Column, rendered me valuable assistance. He has a perfect knowledge of the people of this country and his hold over them was amply proved by the submissive and rapid manner in which his instructions to the different chiefs to make paths and clear jungle on the route to Lien-punga's village were attended to. Mr. Murray has done much to consolidate our power in the Lushai country since the last expedition, and deserves the greatest credit for the quiet and judicious manner in which he has carried out his political duties.

II.—Mr. E. O. Walker, Assistant Superintendent of Telegraphs. The heavy work done by this very energetic and zealous officer is highly creditable to him. The rapid manner in which the wire was laid and offices opened at the head of the road, as each new camp was.

fixed upon, proved of the greatest convenience to the expedition, and I cannot speak too highly of the work done by Mr. Walker.

III.—Mr. E. Good, Port Officer, has performed the arduous duties of Transport Officer at Chittagong during the whole time the expedition has lasted, and has carried out his duties in a most energetie, intelligent and satisfactory manner.

IV.—Colonel G. J. Skinner, commanding the Northern Column, has carried out the responsible duties entrusted to him in a sound, able and most successful manner, and is deserving of the greatest credit in bringing the operations in the north to so satisfactory a conclusion.

V.—Captain F. S. Gwatkin, 13th Bengal Lancers, who was my Staff Officer during the last Lushai Expedition, has again been of invaluable assistance to me, and has carried out his duties in a sound, energetic manner and with the greatest tact. He is a most reliable and excellent officer, and I cannot speak too highly of him.

VI.—Captain J. Shakespear, Leiuster Regiment, Intelligence and Assistant Political Officer, has performed his double duties in a most painstaking manner, and no officer could have worked harder or with greater success. As a political officer his service a have been invaluable to me, and the knowledge he now possesses of the tribes we have to deal with

will, I feel sure, be of the greatest assistance to Government.

VII.—Major H. P. Leach, R. z., Commanding Royal Engineer, has had very arduous duties to perform in the construction of the road from Fort Lungleh to Haka, the bridging of the Matt and Kolodyne rivers and the building of the post at Fort Tregear, and, as was the case last expedition, a very heavy share of the work of this year's operations has fallen upon him, but it has been carried out with the same intelligence, energy and forethought, and he has proved himself an excellent and most reliable officer.

III .- Captain H. Mu'laly, R. E., Field Engineer. The difficult task of tracing the road from Fort Lungleh to Haka, passing as it does for the first 80 miles through a most difficult country covered with dense jungle, devolved upon this officer; but the work was performed with an energy and intelligence which reflects the greatest credit on him. I would also mention Lieutenant R. A. F. Kingscote, R. E., Assistant Field Engineer, as Laving again performed

excellent and hard work during this expedition.

IX.—Captain W. J. H. Bond, Chief Commissariat Officer. This officer has for the second time under my command in the Lushai country carried out his arduous and most difficult duties in an excellent manner. I look upon him as a most energetic, hard-working and reliable officer. His arrangements, both as regards rations and transport, considering the difficulties to be contended with, have been most successfully carried out.

In the Transport Department I would specially mention-

Captain G. R. C. Westropp, Bombay Staff Corps, Assistant Commissary General,

Captain B. W. R. Ussher, 7th Dragoon Guards, Captain L. E. du Moulin, Royal Sussex Regiment, Lieutenant J. O'B. Minogue, Royal Munster Fusiliers,

for hard work done and duties zealously performed.

X.—Captain A. G. F. Browne, 2-3rd Gurkha Regiment, Superintendent of Signalling, has carried out his duties in an energetic and successful manner, and rendered valuable assistance, when communication had to be kept up with the Northern Column and with parties sent out on reconnaissance duty. During the advance from the Upper Kolodyne to Haka, communication was kept open by the heliograph alone.

XI.—Lieutenant W. J. Bythell, R. E., Assistant Superintendent, Survey of India, has worked very heard and successfully during the expedition, and to his energy is due the large amount of survey operations which have been carried out. He is, I consider, a most excellent and intelligent officer, and afforded great assistance to the engineer officers employed in

XII.—Among regimental officers, I would specially mention the following for the zealous, energetic and successful manner in which they carried out their duties :-

Colonel R. Westmacott, commanding the 28th Bombay Pioneers.
 Lieutenant-Colonel F. W. Nicolay, commanding the 2-2nd Gúrkha Regiment.
 Captain A. T. Weller, 9th Bengal Infantry.

(4) Captain L. M. M. Hall, 2-2nd Gurkha Regiment.

(5) Lieutenant H. J. Sherwood, R. E., 1 engal Sappers and Miners.

XIII.—Surgeon-Major W. R. Murphy, Principal Medical Officer, carried out his duties in an able and intelligent manner and his arrangements, both in the distribution of the field hospitals along the line of communication, and for the return of the sick convoys, were most satisfactory, and worked without a hitch. I have a very high opinion of this officer. The medical officers attached to the expedition have been worked very hard, and have one and all carried out their duties in a most zealous, careful and praiseworthy manner. Troops and followers have been equally well looked after, and every assistance rendered to them. I would, however, specially mention the following officers:
Surgeon-Major S. F. Bigger, at Demagiri, had the heavest work of the campaign in

dealing with the sickness of the followers, and ensuring their satisfactory transit when invalided to the base. His duties were discharged in a most able and admirable manner, and

reflect the highest credit on his judgment and ability.

Surgeon E. Hudson dealt with the very critical and severe outbreak of cholera at Burkal

with a conspicuous ability of which I cannot speak too highly.

XIV .- Veter nary-Surgeon J. A. Nunn has carried out his duties in a most able and satisfactory manner, and his services during the expedition, in the care and treatment of the baggage animals, have been in valuable. He is, I consider, a very reliable and sound officer.

I would also bring to notice the names of the following officers who were employed with the Northern Column under Colonel Skinner, and on whom much labour and responsibility were thrawn.

XV.—Major F R. Begbie, commanding the detachment of the 2-2nd Gurkhas, who accompanied, with 100 of his men, the flying column to Lieupunga's vill ge, and commanded the column detached to punish the sons of Vutai,

XVI .- Captain R. D. Petrie, B. E., as Field Engineer, was unremitting in his exertions in improving the road and river way and planned and built the stockades at

XVII.—Lieutenant G. A. Brownrigg, 28th Bombay Infantry, who was severely wounded in a skirmish near Lienpunga's village on the 23rd February, gave, with his detachment, most valuable assistance in road and river work.

XVIII.-Lieutenant H. W. G. Cole, 2-2nd Gurkhas, gave me every assistance and proved himself a thoroughly efficient staff officer.

XIX.—Captain O. A. Chambers, Assistant Intelligence Officer, commanded two recon-

noitring parties, and collected much information regarding the country and people.

XX.—I was much indebted to Lieutenant (now Captain) W. H. Birkbeck, 1st Dragoon Guards, Assistant Superintendent of Army Signalling, whose duties necessitated a great deal of very hard hill climbing, and through whose arrangements the column was in almost constant

communication with Lungleh as long as heliographic signalling was possible.

XXI.—On Captain W. H. Allen, Brigade Transport Officer, ably seconded by the transport officers under him, the very important duty of pushing on supplies to Lienpunga's village devolved. The work was accomplished in, I believe, the shortest possible time, andt

supplies were always available when required.

28. I would also bring the names of the following warrant and non-commissioned officers to His Excellency's special notice as having performed good work with the expedition, and who hold out promise of proving themselves worthy of advancement in their respective departments:-

Conductor P. McBrien, Bengal Commissariat Department.

Sub-Conductor P. Lyons " Serg-ant w. G. Hoare 37

H. Fergusson, ,, ,, F. J. Skinner, Bombay Commissariat Department. ,, ,,

,, W. Elliott, Highland Light Infantry, Signalling Department.

Lance Corporal T. Elkin, Derbyshire Regiment, Signalling Department.

Assistant Apothecary W. J. A. Hogan, Subordinate Medical Department, Bengal.

No. 266, Hospital Assistant Sheopurshun Singh.

No. 285 Bukrid Ali. ,,

29. In conclusion. I would beg to tender my sincere thanks-

To Mr. D. R. Lyall, Commissioner of Chittagong, for the very valuable help he has at all times given me in carrying out the objects of the expedition.

To Brigadier-General W. L. Auchinleck, commanding the Presidency District, and the staff officers serving under him, for all the heavy work which has been entailed upon them in connection with the expedition, both in its despatch from, and return to, Calcutta.

To the Marine anthorities at Calcutta, for their service in connection with the despatch and transport of all troops, baggage animals, materials, &c., to and

from Chittagong.

E. H. H. Collen, Secretary to the Government of India.

The following orders, issued by the Government of India in the Home Department, are republished for general information.

C. C. STEVENS, Offg. Chief Secy. to the Govt. of Bengal.

#### NOTIFICATION.

#### The 2nd August 1890.

No. 1079.—Under the provisions of section 21, sub-section (2), of the Petroleum Act XII of 1886, the Governor-General in Council is pleased to prescribe the following form of certificate of verification of Petroleum testing apparatus:-

#### Certificate under section 21 of the Petroleum Act XII of 1886.

This is to certify that the apparatus stamped by me with the No. and with the date and provided with two slides, marked A and B, and three thermometers numbered 1, 2 and 3 respectively, having been submitted to me for the purpose of being compared with the Model Test apparatus and verified under section 21 of the Petroleum Act, XII of 1886, has been compared and verified by me on the date aforesaid, with the following results:--

I .- When the slide marked A is used with the thermometer number 1, the apparatus

records\*......the flashing point of an oilt.

11.—When the slide marked A is used with the thermometer number 2, the apparatus records\*.....the flashing point of an oil+.

III .- When the slide marked A is used with the thermometer number 3 the apparatus records\*......the flashing point of an oil+.

IV .- When the slide marked B is used with the thermometer number 1, the apparatus records\* ......the flashing point of an oilt.

V. - When the slide marked B is used with the thermometer number 2, the apparatus

records\*......the flashing point of au oil+.

VI.—When the slide marked B is used with the thermometer number 3, the apparatus records\*.....the flashing point of an oirt.

No. 1081.—Under the provisions of section 21, sub-section (4) of the Petroleum Act. > H. J. S. Cotton, Secretary to the Govt. of Bengal.

#### NOTIFICATION.

The 31st July 1890.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following Rules under clauses (i) and (t), section 138 of the Bengal Local Self-Government Act III (B.C.) of 1885, in supersession of all rules now in force under the aforesaid provisions of the law. These Rules do not affect the validity of Part IXA of the Rules made under clause (i) of the aforesaid section:—

#### PART VIII.—ACCOUNT AND AUDIT.

#### PRELIMINARY.

- 1. In the following Rules, unless there be something repugnant in the context,—
  - (a) The term "District Board" includes a duly empowered Joint Committee constituted under section 30, and a Local Board duly empowered under section 101; and

(b) The term "Chairman" includes a Vice-Chairman in respect of the powers assigned to him by rules framed by the District Board under section 32,

When a Secretary has been appointed by the District Board, the Chairman shall not, delegate to the Scoretary any authority in regard to-

(a) sanctioning expenditure;

(b) signing cheques and orders for payments or adjustments;

- (c) making alterations or corrections in accounts which have been passed by the Finance Committee, signed by the Chairman, or laid before the Board.
- 3. In all matters not expressly provided for by these rules, the rules, forms, registers and returns prescribed in the Civil Account Code, or in force for the time being, under the orders of Government or other competent authority, shall, in so far as they are consistent with these rules and with the Act, apply to the accounts of the District Board, and shall be observed, used, kept and submitted by the officer appointed under section 54 of the Act.

  4. The following forms and registers as given in Appendix A of these rules shall be maintained by the Observed.

tained by the District Board:-

I.-Budget estimate.

II.—Chalan.

III.-Cash-book.

IV.—Abstract Register of receipts.V.—Abstract Register of expenditure.

VI.—Register of adjustments.

VII.—Register of monthly receipts.
VIII.—Register of monthly expenditure.

IX.—Monthly account and audit certificate.

X.—Quarterly account. XI.—Annual account.

# SUBSIDIARY BOOKS AND FORMS.

XII.—Register of pounds, ferries, &c. XIII.—Chairman's permanent advance account. XIV.—Recoupment voucher.

XV.—Advance ledger.

XVI.—Monthly list of outstanding advances.
XVII.—Deposit ledger.
XVIII.—Monthly list of outstanding deposits.

XIX.—Register of establishment. XX.—Service books.

And whenever necessary the following registers and forms shall also be kept—XXI.—Register of educational bills paid net.

XXII.—Register of undelivered money-orders.

XXIII.—A. B. Annual detailed statement of permanent establishment XXIV.—Application for pension or gratuity.

XXV.—Quarterly return of pensions and gratuities granted.

XXVI.—Permanent pay order of pensioners.

XXVII.—Register of permanent pay orders.

Any modifications of these forms shall only be made under orders of Government, which will be separately notified to District Boards by the Accountant-General, Bongal.

#### GENERAL.

6. All the accounts and registers of the District Board shall be kept in English. All books of accounts and registers shall be substantially bound and paged before being brought into use, and no accounts shall be prepared on loose sheets of paper or in loosely bound volumes.

7. All corrections and alterations in accounts shall be neatly made in red ink and attested by the initials of the Chairman. All corrections and alterations in a voucher shall be attested by the payee. Erasures shall on no account be permitted in registers, statements, vouchers or

accounts of any description.

8. After the budget estimates for the year, or supplementary estimates have been sanctioned, the District Board, acting in the exercise of the powers conferred on them by section 32 (e) of the Act, or the Rules made under the said section of the Act, may, from time to time, by a general or special resolution, authorise the Chairman or other executive officer of the Board, to expend any sum, or a part of any sum provided in such estimates, for the purpose to which it has been therein assigned.

9. No expenditure shall be incurred for which provision has not been made in the budget estimate for the year, or in a supplementary budget estimate, and which has not been duly sanctioned by the District Board, or by the Chairman or other executive officer of the Board acting in the exercise of the powers conferred on him by the Rules made under the Act.

10. The Chairman shall cause to be kept a register of establishment in Form No. XIX, showing, in respect of all establishments whatsoever employed by the District Board, the particulars specified in the form. A separate page or section shall be allotted to each class of establishment. All changes made by competent authority from time to time in the numbers, nomenclature, or salaries of the establishment shall be immediately entered in the register with the number and date of the orders authorizing the change. A space should be left under each name for the entry of alterations, and a fresh corrected list should be written up annually, or as often as required.

No entries regarding officiating incumbents, or grant of leave, should be made in this

register.

#### EMBEZZLERENTS.

11. The Chairman shall promptly report to the Accountant-General, Bengal, and the Commissioner of the Division, through the Magistrate of the district, if he is not the Chairman, the occurrence of any embezzlement or irregularity in the accounts of the District Board which may come to his notice, and shall observe the rules and procedure prescribed for reporting embezzlements and irregularities occurring in Government offices. [See Civil Account Code, page 222, rule 7.]

#### BUDGET ESTIMATES.

12. The Collector of the district shall, on or before the 1st October in each year, prepare and transmit to the District Board an estimate of the balance of the District Board Fund to be transferred to the credit of the District Fund during the financial year next ensuing under

- section 52, clause (1) of the Act.

  13. A budget estimate in Form No. I, showing the probable receipts and expenditure of the District Fund under all heads during the ensuing financial year shall be prepared by the Finance Committee constituted under section 55 of the Act, and shall be laid before the District Board at a meeting to be held not later than the 15th October in each year. The budget shall be submitted to the Commissioner of the division not later than the 1st of November, and by the Commissioner to the Accountant-General on the 1st of . December.
- The budget estimate shall set forth estimated receipts and expenditure under major, minor, and detailed heads of account, and the opening and closing balances, and shall be accompanied by explanatory notes showing, wherever necessary, how the figures have been arrived at, and especially explaining any new and important item of receipt or expenditure; and when any new charge requires the sanction of superior authority, a copy of the order of sanction shall invariably be attached.

15. The District Board shall never, except with the previous sanction of the Lieutenant-Governor, exhaust or exceed its balance in the treasury; and the budget estimates shall be framed so as to provide for an adequate working balance throughout the year, and for an adequate closing balance. The Commissioner shall decide what constitutes an adequate working and closing balance, and his decision, which shall be final, shall be communicated to the

Accountant-General, Bongal. .

- 16. No change shall be made in the prescribed major and minor heads of account, unless authority for an alteration is communicated to the District Board by the Accountant-General, Bengal. If, therefore, any additions or alterations are thought to be required, the question should at once be referred to the Accountant-General, who will, if necessary, submit the question for the orders of Government. If, for administrative purposes, it is found convenient to sub-divide the detailed heads in the abstract registers, there is no obejction to this being done; but all statements and returns shall be compiled according to the headings here prescribed.
- 17. In preparing the budget, what is expected to be paid (under proper sanction) during the year shall be provided for, not the liability likely to be incurred or falling due within the

18. For fixed charges, the explanatory notes should show the full sanctioned scale, the number of employés, rate of pay, &c.

19. The District Board may at any time, with the previous sanction of the Commissioner, and not otherwise, transfer grants from one major head of account to another, and from

one minor head to another minor head subordinate to the same major head.

20. If at any time during the year the District Board has reason to believe that the budget under any head is likely to be exceeded, and that the excess cannot be met by a reduction under some other head, a supplementary budget estimate shall be prepared with the least possible delay and submitted through the Magistrate for the orders of the Commissioner in the manner prescribed in sections 47 to 49 of the Act.

21. If the Board has reason to suppose the receipts under any head are likely to fall materially short of the budget estimate, a revised budget estimate shall be prepared with the

least possible delay, and submitted as above for the orders of the Commissioner.

#### TRANSACTIONS WITH THE TREASURY.

22. The District Fund shall be lodged with the Collector of the district, who shall keep

a separate account thereof.

23. The District Board shall not appropriate towards expenditure any moneys received by its servants; but all such moneys shall be remitted or paid by the Board's servants direct to the treasury at once, and shall not be paid in through the District Board's office. See, however, rule 101 regarding educational bills paid net.

24. All money paid into the treasury to the credit of the District Fund, whether by

servants of the District Board or others, shall be accompanied by a chalan in Form No. II.

This chalan shall be in triplicate, having the words "Original," "Duplicate" and "Triplicate" printed or written in red on the first, second and third parts respectively. The first part shall be retained by the treasury office, the second part shall be sent to the office of the District Board whenever the pass-book is returned, and the third part shall be delivered to the person paying in the money.

25. All moneys remitted to the treasury to credit of the District Board, and all payments made by the treasury on cheques or otherwise on account of the District Board, shall be entered in a pass-book; the pass-book shall remain in the custody of the Chairman, and it shall be sent to the treasury with every remittance, and also on the last working day of every month. On receipt of the pass-book by the treasury officials, the entry of the remittance made (if any) shall be initialled by the treasury officer, and then the charge side shall be written up to date, and the book returned at once to the office of the District Board.

26. The pass-book will be supplied by the treasury. It is not a District Fund account book, but is simply a copy of the account kept in the treasury of the money paid in to the credit of, and disbursed on account of, the District Board, and must therefore always be written up only by the Government Treasury Department by whom the original account is kept.

27. No entries or marks shall, under any circumstances, be made in the pass-book by any one connected with the District Board's office.

28. At the close of each month the balance in the pass-book shall be struck, the amount

written in words, and signed by the Treasury Officer.

29. The Chairman shall examine the pass-book from time to time, and shall immediately call the attention of the Treasury Officer to any discrepancy that may appear between the credits and debits shown in the pass-book, and those shown in the accounts of the District Board's office.

30. The form of the pass-book prescribed by Accountant-General, Bengal's Circular No. 116T-M, dated 8th May 1890, is-

31. When a grant is made to the District Fund from Provincial revenues, either as a general grant-in-aid, or for expenditure on any specific object, the Accountant-General shall, in the first case, at the beginning of the year, or, in the second case, on receipt of orders, instruct the Treasury Officer to credit the amount of the grant to the District Fund. The credit shall be made by book transfer; no bill or cheque shall be drawn, and no money shall be paid out of the treasury.

34. This certificate shall be sent by the District Board to the Accountant-General. Bengal, attached to the monthly account and audit certificate.

TOTAL

#### PAYMENT OF CLAIMS.

35. For the payment of petty charges, the Chairman shall hold a permanent advance of such amount as the District Board may fix from time to time; provided that, without the sanction of the Commissioner, the District Board shall not fix the amount of the permanent advance at more than Rs. 100.

36. The permanent advance shall be recouped as often as may be necessary, in the

manner prescribed in rules 65 and 66 below.

TOTAL

37. Payments of not more than Rs. 20 shall be made from the permanent advance; provided that no charge on account of the salary of any employé of the District Board shall be made otherwise than as prescribed in Rules 38 and 42.

38. All payments exceeding Rs. 20 shall be made by cheque, unless there are special circumstances rendering payments in cash desirable; provided that all payments of sums above Rs. 10 on account of salaries of employes of the District Board shall be made by cheque.

39. Cheque-books will be supplied by the Treasury Officer only, and no other form shall The cheque-books and the counterfoils of used cheques shall be kept in the custody be used.

of the Chairman.

Cheques for sums not exceeding Rs. 100 shall be signed by the Vice-Chairman, or by the Chairman, or if both be absent, by a member of the Finance Committee. Cheques for sums exceeding Rs. 100 shall be signed both by the Chairman and the Vice-Chairman, and if either of them be absent, such cheques shall be signed by the Chairman or Vice-Chairman present, and another member of the Finance Committee.

41. No cheque shall be signed unless required for immediate delivery to the person to

whom the money is to be paid.

42. Every cheque shall be drawn in English in favour of the person to whom the money is actually due. Payment shall not be made to any other person except on production of a written authority from the creditor to receive it on his behalf. This rule does not apply to cheques issued for a sum of money distributable as pay or wages among a number of District Fund employes, or for recouping the permanent advance, or for payment to a postmaster for a money-order or money-orders issued for payment of stipends or rewards to gurus. Whenever money is paid to persons who are illiterate and unable to sign their names in acknowledgment, the payee shall make his mark; the fact of the payment shall be certified

to by the officer who pays and by a witness of respectability.

43. The amount of every cheque shall be written in words as well as in figures, both on the cheque itself and on the counterfoil, and the counterfoil shall be initialled by the person or persons who sign the cheque. The word "only" shall always be inserted after

the amount written in words in the body of the cheque.

Every cheque drawn for a sum in excess of Rs. 20 shall bear a receipt stamp of the

value of one anna, and such receipt stamp shall be affixed before the cheque is signed.

45. When a signed cheque is cancelled, it shall be enfaced or stamped "cancelled" by the Chairman, and shall be destroyed as soon as the accounts for the month in which the cheque was drawn have been audited by the Finance Conlinitee.

46. The fact of cancellation shall be noted in red ink under the initials of the drawer

of the cheque, upon the counterfoil, and also across the passing order which has been enfaced

upon the voucher.

47. If the cheque is cancelled in the month of issue, before the eash-book is closed and before the abstract register has been posted all that is necessary is to strike out the entry in red ink under the initials of the Chairman. If, however, the abstract register has been posted, correction shall be made through the adjustment register by deducting the amount from the head of expenditure to which it was originally charged.

48. In rare instances it may happen that a cheque is cancelled after the accounts of the year have been compiled and published. In this case the cheque shall be removed from the list of outstanding cheques, and the amount shall be entered in the adjustment

register as a miscellaneous receipt.

49. Cheques are current for three months only. After the expiration of that period, payment will be refused at the treasury, and the person in whose favour the cheque was drawn will therefore have to bring it back to be re-dated. No fresh cheque should be issued; the lapsed cheque shall simply be re-dated and the alteration initialled by the Chairman or official whose duty it would be to sign the cheque under rule. A note of the fact of re-dating shall be entered in the cash-book against the original transaction. The alteration will in no way affect the accounts, and no further entries shall be made.

50. Every bill or other claim for payment from the District Fund shall be presented in the first instance to the Accountant, who shall check and examine it, and if it be found correct and in order shall submit it for orders to the Chairman. If payment of the bill so presented is to be made, an order for the payment shall be endorsed upon it. The order for payment shall run as follows:—"Pay Rupees only (Rs. )," the

amount being written in words as well as in figures, and shall be signed by the Chairman. 51. If payment is to be made from the permanent advance, the procedure laid down in

rules 62 to 66 shall be adopted.

52. If payment is to be made by cheque, the Charman shall cause the bill to be endorsed with the words "paid by cheque No. ," and shall then sign the endorson: nt and cause the cheque to be drawn out, signed and issued. Whenever necessary and convenient to the treasury, cheques issued from the District Board's office may be enfaced at the district treasury for payment at a sub-treasury. In all such cases the cheque with the contractor's certificate or bill shall be sent from the District Board's office to the Chairman of the Local Board, where there is a Local Board, or to the Sub-divisional Officer in charge of the sub-treasury concerned for delivery to the payce, an advice under registered cover being sent at the same time to the payce. On delivery of the cheque, the contractor will sign the receipt on the certificate or bill form, and the Chairman of the Local Board, or Subdivisional Officer, will return the bill direct to the District Board's Office.

When any payment is made either by cheque, or in cash from the permanent advance, it shall be immediately entered in the accounts of the District Board. In the former case it shall be entered in the cash-book Form No. III. In the latter case, it shall be entered

in the permanent advance account Form No. XIII.

54. Every payment made, either in cash or by cheque, shall be covered by a receipt, stamped if necessary, signed by the person to whom the money is due, and to whom it has actually been paid. A receipt signed by another person for the creditor, or with a stamp, is

55. Bills and vouchers that have been paid by cheque shall be numbered consecutively

for the year in order of payment, and shall be pasted in a guard book.

But sub-vouchers which have been paid in cash out of the permanent advance shall be separately filed, together with the recoupment voncher covering them. A memorandum instead of this voucher shall be pasted into the guard book mentioned above, viz. :-

#### MEMORAN DUM.

, dated , for Rs. in recoupment of the Voucher No. Chairman's permanent advance will be found in the separate file.

#### Саян-воок.

The District Fund cash-book shall be kept in Form No. III. The receipt entries in this book shall be made direct from the pass-book in the case of amounts credited direct to the fund by the Collector of the district, or remitted for credit otherwise than by the District Board itself. In the case of other receipts the cash-book shall be posted as soon as any money is received in the District Board's office by means of money-order irrespective of whether the money is immediately remitted to the treasury or not.

Expenditure shall be entered day by day as cheques are issued (see also Rule 53).

The cash-book shall be closed and balanced once a month and shall be signed by the Chairman. In the event of any cheques issued during a month remaining uncashed by the treasury at close of the month, there will necessarily be a difference between the balance brought out in the cash-book and that of the treasury pass-book, and of the certificate issued by the Treasury Officer under Rule 83. This difference shall be explained by a note in the last page of the cash-book for the month in the following manner:—

		Rs. A. P.	Rs. A. P.

No. 4, dated 10th April 1886	•••	50 0 0	
" 23 " 21st ditto	•••	40 0 0	90 0 0
Balance as per eash-book	•••		5,137 15 6

#### PERMANENT ADVANCE.

58. On first receiving or taking charge of the permanent advance, the Chairman shall sign and file an acknowledgment in these terms:—"I acknowledge to have in my possession a permanant advance of Rupees (Rs. ), which sum is due from me to the District Board, and I am personally accountable for the amount.

59. A similar acknowledgment shall also be given by the Chairman on the first working

day of each year.

60. The permanent advance when first drawn shall be charged in the cash-book to the head "Advances," and shall be debited to the Chairman's account in the advance ledger.

61. There will be no further operations upon the ledger account until the advance is finally repaid. If the amount originally fixed for the permanent advance is subsequently

increased or decreased by the District Board, the original advance shall be repaid and a fresh advance drawn.

62. The Chairman shall make payments from his permanent advance from time to time as may be required, and for each payment he shall obtain and hold a bill receipted by the

payee, or, in the case of petty office expenses, a written detailed statement of the sums spent.

63: These bills or statements shall be numbered consecutively, enfaced or stamped "Paid in cash," and entered in the expenditure columns of the permanent advance account Form No. XIII the classification of the charges being carefully entered in the columns provided for the purpose.

64. The permanent advance may be recouped whenever necessary, and it must always

be recouped on the last working day of the month.

65. The procedure of recoupment is as follows:-

The Chairman shall compare the sub-vouchers with the entries in the permanent advance account; he shall deface them by stamping them "cancelled," so that they cannot be used again. He shall total and initial the column "amount of sub-voucher" in the permanent advance account, and also the amounts in the classification columns, the cross total of which should agree with the total of the column "amount of sub-voucher," and shall rule a red ink line across the page.

66. The voucher for recoupment shall then be drawn out in Form No. XIV, and it shall be enfaced with the usual payment order. The Chairman shall draw out a cheque in his own

favour for the amount, and sign the entries in the recoupment columns.

# Abstract Register of Receipts and Expenditure.

67. All the entries on the receipt side of the cash-book Form No. III shall be posted direct from the cash-book into the abstract register of receipts Form No. IV, and all the entries on the payment side of the cash-book shall be posted into the abstract register of expenditure Form No. V.

68. The abstract registers shall be posted as frequently as may be convenient, but in no

ease later than ten days after the close of the month to which the accounts relate.

69. Each item of receipt or payment appearing in the cash-book shall be posted separately the abstract registers. Thus, if there be two or three payments on the same day on into the abstract registers. account of the same head of expenditure, there will similarly be two or three entries under the same head in the abstract register, i.e. the separate items appearing in the eash-book, and not the totals of the daily receipts or expenditure for each head, shall be posted into the abstract registers.

The columns of the abstract registers shall be totalled every month, and the totals of the cash transactions must necessarily be equal to the totals of receipts and payments in the

cash-book.

#### Adjustments.

For the record of transactions other than cash a register of adjustments shall be opened in Form No. VI, in which a few sample headings have been given in way of illustration. The chief adjustments are-

 Rectification of errors in classification.
 The adjustment of a bill against an advance.
 The charge to a head of expenditure by credit to deposits of a sum due on a contractor's bill, which sum is retained as a security deposit.

These transactions shall be entered item by item in the register of adjustments Form No. VI, whence the totals pass into the abstract registers of receipts and expenditure.

72. The method of entry in the register of adjustments is as follows:—
In case (1), the adjustment shall be made by entering the amount in the space for "Adjustments by addition" in the column for the head to which the amount is to be added, and again in red ink in the space for "Adjustments by deduction" in the column for the head from which the amount is to be deducted. Both entries will be made on the receipt side if the amount is to be transferred from one head of receipt to another, and both will be made on the expenditure side if the amount is to be transferred from one head of expenditure to another.

In case (2), the adjustment shall be made by entering the amount in the space for "Adjustments by addition" in the column of the expenditure side for the head to which charges on account of the particular expenditure incurred are to be taken, and on the receipt side in the space for "Adjustments by addition" under the head "Advances recovered." A corresponding entry must of course be made on the receipt or credit side of the advance ledger Form No. XV of the person by whom the expenditure was incurred, and to whom the amount adjusted was originally advanced.

In case (3), the adjustment shall be made by entering the amount on the expenditure side in the space for "Adjustments by addition" in the column for the heal to which the balance of the charges of the bill from which the deduction has been made has been taken, and on the receipt side in the spaces for "Adjustments by addition" under "Deposits

received."

73. Adjustments made by deduction in the abstract registers shall always be written in rod ink.

#### Monthly, Quarterly and Annual Accounts.

 Registers of monthly receipts and expenditure shall be kept in Forms Nos. VII and VIII, and shall be compiled from the abstract registers. The monthly account in Form No. IX, posted from the monthly registers, shall be despatched to the Accountant-General, Bengal, not later than the 25th day of the month following that for which the accounts are due.

75. The quarterly and annual accounts shall be posted from the monthly account and shall be in Forms Nos. X and XI. The annual account shall be accompanied by a schedule

setting forth the sums expended on each work under-

45-Civil Works-

Original works --

- 1. Civil buildings.
- 2. · Communications.
- 3. Miscellaneous public improvements.

Water-supply and water works -

1. New tanks and wells.

Drainage works.

These details shall be obtained from the register of works which shall be carefully com-

pared every month with the register of monthly expenditure Form No. VIII.

76. The quarterly account shall be published by lodging a copy, signed by the members of the Finance Committee and countersigned by both Chairman and Vice-Chairman, in the office of Magistrate and Collector of the district. The annual account shall be published by lodging a copy, signed and countersigned as above, in the office of the Magistrate and Collector of the district.

77. The quarterly and annual accounts shall be published as provided in the last preceding rule not more than one month after the close of the period to which they respectively

#### ADVANCES AND DEPOSITS.

- 78. All moneys advanced to officers or employés of the District Board, or to contractors or other persons (whether on account of the permanent advance or otherwise), shall, in the first instance, be charged to the head "Advances" in the abstract register of expenditure and entered in the advance ledger Form No. XV. A separate account shall be opened in this ledger for each person to whom an advance has been given, and this account shall be gredited with the amount of payments made, and of adjustments made, in the manner prescribed in case 2 of rule 72.
- 79. All sums of money received by way of security deposit from contractors or others, and all sums received which are not the property of the District Fund, and have been placed with the District Board for a temporary purpose only, shall be credited to the head "Deposits received" in the abstract register of receipts Form No. IV, and shall be entered on the credit or receipt side of the deposit ledger Form No. XVII. A separate account shall be opened in this ledger for each person by whom a deposit is made; and this account shall be debited with amount of repayments made, and of adjustments made, in the manner prescribed in
- 80. Each separate account in the ledgers of advances and deposits shall be specially reviewed by the Chairman not less often than once a quarter. At the close of every month a list in Form No. XVI shall be prepared of outstanding advances, and a list of outstanding deposits in Form No. XVIII.

RENTS OF POUNDS, FERRIES AND LANDS, AND OTHER RECFIFTS THE DEMAND FOR WHICH IS FIXED BEFOREHAND.

81. Printed and substantially bound registers of receipts on account of pounds, ferries, &c., the demand for which is fixed beforehand, shall be opened each year in Form No. XII, in which specimen entries have been made for guidance.

A sufficient number of pages shall be set apart for the index, which shall show-

Serial number.	Name of pound or ferry.	Name of leasee.	Page of register.
	1	<u>'                                    </u>	Contract of the second of the

- 82. On the agreement with the lessee being signed and the security deposit paid, the accountant shall enter the serial number, name of pound, &c., in the index of the register, and shall fill up entries 1 to 9 at the heading of the page assigned to it in the volume, and shall post the amount deposited as security in the deposit ledger.
- 83. He shall then lay the agreement, the register, the deposit ledger, and the pass-book before the Chairman, who shall-

Initial the entry in the index to the register.

Carefully compare entries 1 to 9 in the register with the agreement.

See by reforence to the pass-book that the deposit has actually been paid. Initial the entry in the deposit register, and also the memorandum of security deposit received, at the foot of the register, and sign the certificate below entry No. 9 at the head of the register.

- 84. The accountant shall write up monthly the entries of progressive demands, payments, and outstandings in these registers, and on the 7th, or nearest working day of each month, shall lay before the Chairman or Vice-Chairman, the pound and ferry registers, the abstract register of receipts, and the pass-book, and the Chairman shall then take up the registers and examine the account of each pound or ferry for the previous month as follows:-
  - He shall check the receipt by reference to the entries in the pass-book.
  - (b) Check the entries in the register with the entries in the abstract register of receipts in the column "Itent of pounds or forries farmed out."
  - See that the progressive demand, progressive receipts and outstandings have been correctly written up, and place his initials in column 8.
  - Satisfy himself, by reference to the index, if necessary, that no pound or ferry account is missing from the register.
- 85. The Chairman or Vice-Chairman shall then proceed to deal with arrears and outstandings, and when action is taken by letter of demand or by remission or otherwise, he shall call for the register and record the action taken in column 9 and place his initials in column 10.

86. The security deposit, which usually amounts to one-fourth of the annual rent, will ordinarily be taken in satisfaction of the demand for the last three months of the year and shall be transferred by adjustment from "deposits" to "pounds" and entered in the pound register

on the last day of the year.

87. If any part of the deposit has been taken as a fine for non-fulfilment of contract, the balance may be taken in part satisfaction of the demand during the last three months of the year, and if on the 31st March the deposit or balance of deposit will more than cover the demand, the balance will be refunded in cash to the lossee. But in no case may any sum be removed from deposit and transerred to another head except under the orders of the Chairman who shall at the time initial both the deposit ledger and the memorandum of the security deposit at the foot of the register.

#### Audit.

The Finance Committee appointed under section 55 of the Act shall audit the accounts of the District Fund before they are submitted to the Accountant-General, and shall certify the result and the correctness of the account as audited by them. The certificate shall be that given on the first page of the monthly account, form IX.

89. The accounts of the District Fund shall be examined and audited by the Examiner of Local Accounts in Bengal as far as possible not less often than once in twelve months.

90. In auditing the accounts, the Examiner shall see that they have been kept and are presented in proper form; that the particular items of receipt and expenditure are stated in sufficient detail; and that the payments are supported by adequate vouchers and authority. He shall examine whether all sums received, or which ought to have been received, are brought into account, and also whether the expenditure is in all cases such as might lawfully be made. He shall also reduce such payments and charges as are exorbitant; and shall surcharge moneys not duly accounted for, or lost by negligence, upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss; and shall disallow and strike out such payments as are not authorised by law or competent authority.

91. The reports of such examinations shall be forwarded by the Accountant-General, Bengal, to the Commissioner of the Division who shall forward it to the Chairman of the District Board through the Magistrate of the district, if he is not the Chairman, and the Chairman shall be bound to remedy any defects or irregularities that may be pointed out by

the Accountant-General or the Examiner.

113. On the issue of the authority in Form XXVI for the payment of pension, it should be entered in a register in Form XXVII. On appearance of a pensioner claiming pension, his personal marks should be checked, and his signature to the receipt for pension compared with that given in the register and the payment is claimed.

Form XXVI, which must be presented every time payment is claimed.

114. A pensioner, who is unable to appear in consequence of bodily illness or infirmity may receive his pension upon the production of a life certificate signed by some well-known and trustworthy person approved by the Chairman. In such cases, the disbursing officer, who is personally responsible for any payments wrongly made, must take all possible precautions to prevent imposition, and must, before the first payment of each year, require proof not only of the existence of the pensioner, but also of his inability to attend in person to receive payment.

115. If a pensioner or a person entitled to gratuity dies, payment of any arrears actually due may be made to his heirs, provided that they apply within six months after his death. Even if the pension or gratuity has not been sanctioned before the death of the officer, the payment may be made under special sanction of the members of the District Board in meeting. If an officer dies before actually retiring, or being discharged, his heirs have no claim to any-

thing.

Norg.-Pension can be drawn for the day of the pensioner's death; the hour at which death takes place has no effect on the

116. If a pension remains undrawn for more than six months, it ceases to be payable, and if the pensioner afterwards appears, the Chairman before resuming payment is to satisfy himself that the claimant is the identical pensioner, and that he could not draw his pension owing to circumstances to be fully explained.

#### LOCAL BOARDS.

92. The statement of requirements and estimate of probable expenditure to be submitted by the Local Board to the District Board under section 51 of the Act shall be in Form No. I, and shall be accompanied by full explanatory notes for each head of account in respect of which the Local Board has been empowered under section 101 of the Act.

93. The District Board shall forward to each Local Board subordinate to it an extract

of so much of the budget estimate of the District Fund, as sanctioned, as relates to the

matters under the control and administration of the said Local Board.

94. The District Board shall from time to time make allotments of funds to each Local Board subordinate to it for expenditure on the matters under their control an administration.

95. In making any such allotment, the District Board shall send an intimation to the Sudder Treasury Officer, who will advice the officer in charge of the treasury or subtreasury at or near the head-quarters of the Local Board concerned of the amount allotted to such Local Board.

96. On receipt of such intimation, the officer in charge of the treasury or sub-treasury shall place the amount of the allotment to the credit of the Local Board, and shall enter it on the receipt side of the pass-book of the Local Board. The Local Board shall obtain funds by drawing cheques against the amount of the allotments thus placed at its credit from time to time. These cheques shall be signed by the Chairman or Vice-Chairman of the Local Board if their amounts be below Rs. 100; otherwise they shall be signed by both Chairman and Vice-

97. Moneys paid into a sub-treasury on account of the District Fund shall not be credited in the pass-book of the Local Board; but shall, when incorporated in the Sudder Treasury account, be credited in the pass book of the District Board. The Local Board shall send an account of such payments to the District Board not less often than once a month.

98. The Local Board shall keep a cash-book in Form No III. On the receipt side shall be posted the allotments made by the District Board from time to time; and on the expenditure side shall be posted details of the cheques drawn by the Local Board against the

amount of those allotments.

99. The cash-book shall be closed and balanced on the last day of each month, and signed by the Chairman of the Local Board; and an authenticated copy thereof, supported

by vouchers in original, shall be sent within seven days to the Chairman of the District Board.

100. The transactions of the Local Board, as exhibited in the authenticated copy of their cash-book, shall be scrutinized and passed by the Chairman of the District Board, and shall be at once incorporated in the cash-book and other accounts of the District Board.

#### MISCELLANEOUS.

## Middle Vernacular School-bills.

101. The following procedure is to be adopted in cases where it is found inconvenient to require that the fees and fines realized in middle vernacular schools should be remitted to the treasury, and where consequently they are allowed to be retained in part payment of the expenses of the school. As this practice necessitates the opening of a special register, and entails an appreciable increase of work in the account branch of the office of the District Board, it should not be adopted unless the remittance of school-fees to the treasury is really a matter of considerable difficulty.

Each bill as it is received shall be entered in a register in Form No. XXI.

The cheque for the net amount may be distributed in the cash-book and abstract register among the detailed heads "Masters," "Servants," and "Contingencies," as may be found most convenient, c.g. in full payment of any head or heads which it will cover and in part payment of another.

The register shall be totalled monthly, and will enable the correct distribution of the charges as they finally stand to be verified at a glance. The credit to "Fees and fines" and the equivalent charges made by adjustment will then pass on through the adjustment register to the abstract registers in the line "Add adjustments."

#### Unpaid money-orders.

102. A register in Form No. XXII shall be opened for money-orders which the Postal Department refunds to the District Board owing to the payee not being found.

The register will serve the double purpose of providing a means of watching that these refunds are brought to credit, and, in case of the payee afterwards making application for the money, of ascertaining whether the sum is due from the District Board or from the Postal authorities.

#### Record of service.

103. A service-book in form No. XX, printed in English and the vernacular, shall be supplied at his own cost to every employé holding a substantive appointment on the permanent establishment of a District Board. It shall be kept in oustody of the Chairman, whose signature as every fact the employé on the first page shall be attested every five years.

The service-book is a contemporary record of the employés official life, including leave of

every description, every period of suspension from employment, and every other interruption of service, with full details of its duration. Every entry relating thereto shall be written across the page, and attested by the Chairman, or Vice-Chairman, or the Specialty.

104. The Chairman or Vice-Chairman is primarily responsible that every necessary entry is made, especialty in regard to leave or suspension, but it is also the duty of each

employé to remind the Chairman, Vice-Chairman, or Secretary, when any entry is necessary, and to see that his own service-book is properly written up and attested. It should be carefully explained to each employé that, unless he does so, there may be a difficulty hereafter in verifying his service when his claim to pension shall come to be investigated and considered. Service-books shall be introduced and kept up, whether rules for the grant of pensions and gratuities have been framed or not.

At the time of preparing the pay bill for March in each year, a detailed statement of the permanent establishment existing on the 1st April should be prepared in Form XXIII and transmitted to the Accountant-General direct not later than the 15th April. In prepar-

ing the statement the following instructions should be carefully observed:

(a) The name, designation, and pay of every officer, clerk, or menial servant holding a permanent appointment, whether on duty, or absent on leave, or under suspension, should be distinctly

shown.

(b) The date of birth, of appointment to present post, and of promotion to present pay of each person should be entered in the appropriate columns of the statement; the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated.

(c) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "Name of Incumbent" beneath the name of the absence

for whom he is officiating.

(d) If the acting incumbent holds a permanent appointment upon another establishment, the fact should be stated.

(e) A detailed statement in Form XXIIIA should be given at foot of the original return Form XXIIIB, showing new names of officers which are not found in the return of the Form XXIIIB, showing new names of officers which are not found in the return of the previous year, and when these new names include those of persons who have entered the service of the District Board for the first time, their age and health certificates should be attached to the statement. Columns are also provided in Form XXIIIA for information required in regard to the names of officers which appeared in Form XXIIIB of the previous year, but are now emitted, as also regarding officers who have been on leave, other than privilege leave, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the project of suspension shall count as service qualifying for required. declared that the period of suspension shall count as service qualifying for pension.

(f) If any person on the establishment is a Government pensioner, or is not the sorvant of the District Board solely, the fact should be noted in the statement. If he be an officer transferred from the pensionable service of Government, for whose pension contribution is paid, a note should be entered against his name to the effect "Contribution paid to Government for pension"

ment for pension.

When completed in accordance with the preceding instructions, the statement should be carefully checked with the service-books, as it will be the authority by which hereafter pension claims will be tested by the Accountant-General.

Application for Pension or Gratuity where rules for the grant of the same have been framed and sanctioned.

105. When an officer applies for an invalid pension or gratuity, he should be referred, if his age to less than 60 years, to the Medical Officer in charge of the civil station of the district for medical examination. After he has been declared by the Medical Officer to be unfit for further service, he must not be retained in active service, pending a decision on his application for pension. Survice after the date of the medical certificate does not count for pension.

After the medical certificate of incapacity for further service has been received, an application for pension or gratuity in Form XXIV should be drawn up, and the applicant's service detailed in page 2 of the form verified from office records, and the result of the veri-

fication noted in the column provided for the purpose.

107. In the case of ponsions or gratuities other than invalid, the applicant's services should be verified, and the form of application filled up in the same way as in the case of

invalid pension, whon application for pension or gratuity is made by the applicant.

108. The Chairman should certify on the application, whether the character, conduct, and past services of the applicant are such as to entitle him to the favourable consideration of the District Board. If the application is for pension on the superior scale, he must enter all periods of leave, suspension, &c., which are not reckoned as service. He must also record

his opinion whether the service claimed has been established, and should be admitted or not.

109. The application in Form XXIV, with the applicant's service-book, his last-pay certificate, the medical certificate of incapacity for further service (if the application is for an invalid pension), and the documents relied upon for the verification of the service claimed, will then be forwarded to the Accountant-General, who will return the papers with a certificate as to whether the sorvice claimed has been duly proved, and whether the pension applied for is admissible under the rules.

110. The application with the Accountant-General's certificate and other papers will

next be laid before the members of the District Board in meeting for sanction.

111. After the close of each quarter, the Chairman should submit to Government, through the Accountant-General, a statement in Form XXV of the pensions and gratuities sanctioned during the quarter. Where this statement is blank, a simple intimation to that effect will suffice.

#### Payment of Pensions and Grafuities granted under sanctioned Rules.

When the payment of a pension or gratuity shall have been sanctioned by the District Board, the amount, if it be gratuity, may be paid in a single sum; but if it be pension, it shall ordinarily be paid monthly to the pensioner in person at the office of the District Board on an authority issued in Form XXVI.

#### NOTIFICATION.

The 1st August 1890.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Hajipore Municipality in the district of Mozufferpore, made at a meeting, to extend the provisions of Part VI of the said Act, excepting sections 237 to 244 and 267 and 273, which are already in force in the Municipality to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

H. J. S. Cotton, Secretary to the Govt. of Bengal.

## NOTIFICATION.

The 1st August 1890.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Munshi Mohamed Moanem to be a Commissioner of the Pubna Municipality, vice Syed Ahsan Ali, who has ceased to be a Commissioner under section 20 of the Act.

H. J. S. Cotton, Secretary to the Govt. of Bengal.

#### NOTIFICATION.

The 4th August 1890.—Whereas a notification, dated the 13th March 1890, was published at page 53, Part IB of the Calcutta Gazetta of the 19th idem, declaring the Lieutenant-Governor's intention to sanction, under section 86 of the Bengal Municipal Act III (B.C.) of 1884, the levy by the Commissioners of the Nyehatty Municipality, in the district of the 24-Pergunnahs, of a tax under section 131 of the Act on carriages and on horses and other animals specified in the fifth schedule of the Act, and whereas no valid objections were raised to the proposal, it is notified for general information that the Lieutenant-Governor hereby sanctions the levy by the Commissioners of the Nyehatty Municipality of the said tax on carriages and on horses and other animals at rates not exceeding those specified in the said schedule.

H. J. S. Cotton, Secretary to the Govt. of Bengal.

## DECLARATION.

The 30th July 1890.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Hooghly Municipality for a public purpose, viz., for an extra quantity of land required for the Hooghly Town Hall, in the village of Hooghly, pergunnah Arsha, zillah Hooghly, it is hereby declared that for the above purpose a piece of land measuring, more or less, 15 cottahs and 9 chittacks of standard measurement, is required. The land is bounded on the North by Lal Dighi Tank; on the South by land previously acquired for the Town Hall; on the East by Sharoda Proshad Kundu's house and land and path at Barodwaree road; and on the West by the Pankhatuli Road.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. J. S. COTTON, Secretary to the Govt. of Benyal.

NOTICE is hereby given that the undermentioned plots of Government lands appertaining to the old jail compound, situated in mousah Keranitola, pergunnah Midnapore, in the town of Midnapore, will be separately let out on mourusi mokarari leases at a fixed annual rent of Rs. 2 for each plot by public auction at the Midnapore Collector's Office, on Monday, the 22nd September 1890, corresponding with 8th Assin 1297 Amli. The purchasers will be subject to the following conditions of sale.

#### CONDITIONS OF SALE.

1. Each plot to be leased to the highest hidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of each plot will be considered as a mourus mokararidar of the plot subject to the payment of Rs. 2 as annual rent.

2. The leasee will possess a right of permanent occupation in the land subject to punctual payment of the above rent which will not be liable to enhancement.

- 3. The lessed will be entitled to take and enjoy the fruits of the existing trees or of such trees as may be planted by him in future within his holding. He will also have a right to cut or sell every tree planted and reared by himself or by his predecessors on his holding. The rights declared by the lease to vest in him will devolve on
- his heirs at his death.

  4. The lessee, in case he builds, will be required to submit a plan of the house showing the width of the foundation wall and the level of the lowest floor of the house by reference to the level of the nearest public road. He will also give a general description of the building he intends to erect and of the provisions he intends to make in respect of drainage and latrine accommodation.

5. Until and unless the plan and lovel submitted by the lessee be approved by the Collector, the lessee will not be allowed to build, and, if he builds, the Collector will have power to demolish his buildings without being liable

to any Court for damage or compensation.

6. If the lessee transfer his right in any way or underlet the holding, the transfer shall be made subject to all the conditions of the kabuliyat to be executed by him.

7. All future improvements, additions and alterations in the holding will be also subject to the approval of the

- Collector of the district.

  8. The buildings constructed will not be used for any other purpose than as dwelling-house.

  9. The lessee will uot excavate any tank or burn any bricks within his holding, and will keep the land free from jungle. If he violate this condition, his lesse will be liable to be cancelled, unless he takes due steps to repair
- 9. The lessee will not excavate any tank or burn any bricks within his holding, and will keep the land free from jungle. If he violate this condition, his lease will be liable to be cancelled, unless he takes due steps to repair the breach of the conditions as may be order d by the t ollector.

  10. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

  11. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the holding to be again put up to sale at the risk of the defaulting purchaser atter issue of advertisement as in the case of original sale.

  12. A plan of the different plots is in the Collector's Office and can be inspected by the intending purchasers.

## Notice

IS hereby given that the following byc-laws have been framed by the Patna Municipality under section 26 of Act III (B.C.) of 1883 for the working of the Patna Tramway, and that it is intended at the end of one month from the date of the publication of the bye-laws to move the Local Government to confirm them.

SYUD FUZL IMAM, Vice-Chairman, Patna Municipality.

## Rye-laws under Section 26 of the Tramway Act.

1. No car shall be driven at a greater pace than seven miles an hour; on all sharp curves and down steep

inclines cars shall not be driven at a greater pace than four miles an hour.

2. A clear space of at least 50 feet shall be kept between successive cars, except at stations or turnouts, unless it may be necessary to approach nearer in order to avoid collision or prevent injury.

3. No two cars proceeding in opposite directions shall stop abreast of one another, and so block the street. They shall stop so as to have a clear distance along the line of 50 feet between them.

4. At the intersection of narrow streets cars shall not be driven at a greater speed than five miles an hour, and they shall be stopped so that at most the rear platform only shall remain opposite the intersected street.

5. For the breach of any of the above four rules, the driver and conductor shall each be liable to a fine not

exceeding Rs. 20.

6. The driver shall at all times be responsible for seeing that the line is clear of obstructions, and if there is

6. The driver shall at all times be responsible for seeing that the line is clear of constructions, and it there is any risk of collision, or the line is in any way obstructed, the ear shall be stopped till the line is clear of obstruction. The penalty for infringement of this rule shall be a fine not exceeding Rs. 20.

7. If a procession be passing along the street, the driver shall stop the car till it has passed; for breach of this rule the conductor and driver shall be each liable to a fine not exceeding Rs. 10.

8. During the Moharrum or any other festival, on which a large crowd shall be expected to assemble, it shall be lawful for the District Superintendent of Police by written order to prohibit the running of the cars upon af Rs. 20.

9. The purdahs or other side arrangements on the ears shall be so arranged as not to project beyond the

foot-board, flap about, or otherwise interfere with the passing traffic.

10. No horse, that is not thoroughly broken in shall be used in any tram-ear. For any breach of rules 9 and 10 the Company and conductor shall each be liable to a fine not exceeding Rs. 20.

11. Every conductor and driver shall wear a distinguishing badge in such way as to be fully exposed to view, and shall state his number to any passenger asking for it. Penalty for breach of this rule shall be a fine not

exceeding Rs. 5.

12. The classes of cars enumerated below shall not earry more than the number of passengers stated opposite

to each class :-

1 Horse car, 4 rows of benches 1 Ditto, longitudinal ••• ... ... 2 Horses car ditto 40 ••• •••

In the event of passengers in excess of the above numbers being earried, the conductor shall be liable to a fine not exceeding Rs. 5.

13. Any person may secure for himself as many seats as he wishos by paying double fare for each extra seat.

14. Every passenger has a right to cause the car to be stopped for the purpose of leaving it, and if there is room in the car, every intending passenger has the right to cause the car to be stopped for the purpose of getting

into it. The conductor shall, under the above circumstances, be bound to stop the car as soon as possible after being required to do so by any passenger or intending passenger. For breach of this rule, he shall incur a penalty not

exceeding Rs. 5. exceeding Rs. 5.

15. On the occurrence of any accident causing serious injury to person or property, it shall be the duty of the Company to report the matter at the police-station within the jurisdiction of which the accident may have occurred, or at the nearest police-station, whichever may be most convenient, within one hour of such accident, and to give the police full and prompt assistance in the prosecution of any enquiry which they may institute. For neglect to comply with this regulation, the Company shall be liable to a penalty not exceeding Rs. 20.

16. If in connection with such accident any person receives any serious bodily injury, it shall be the duty of the conductor to make arrangements to send such person to hospital with the least possible delay, unless his friends desire otherwise and agree to take charge of him. If the conductor omits to make such arrangements, he shall incur a penalty not exceeding Rs. 10.

17. No conductor or driver shall use abusive language to any of the passengers or intending passengers.

17. No conductor or driver shall use abusive language to any of the passengers or intending passengers, of behave in an insolent manner or misconduct himself in any other way in the performance of his duty. Penalty for

behave in an insolent mainer or dissoluted masser in any order way in the performance of his duty. Fenalty for breach of this rule shall be a fine not exceeding Rs. 10.

18. Every car running after sunset shall carry two bright lights, one in front of the car and one at the back, and the horses shall also be provided with bells. The penalty for infringement of the rule, either by the driver

or conductor, shall be a fine not exceeding Rs 20.

19. Cars reserved for females shall have a distinguishing mark.

20. A conductor, charging or asking for more than the rate fixed in the table of fares shall be liable to a penalty of Rs. 20.

(374-4)

SYUD FUZL IMAM, Vice-('hairman, Municipal Committe, Patna.

Berhampore, the 4th August 1890.

A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet, in a series of progressive Exercises, by Major T. H. Lewin, F.R.S.S., of the Bengal Staff Corps, late Deputy Commissioner of Darjeeling. Price, Rs. 6; postage, 3 annas.

Copies are to be had at the Office of the Director of Public Instruction.

Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta) and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Naraingunge). Volumes I and II. Price Rs. 20 for 1888-99. Published at the Calcutta Custom House. Previous years volumes can also be obtained at the same price.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutts Storm Signal Service. The report giving 10 A.K. observations of the day is distributed by peon in Calcutts after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 a.m. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

#### NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,
Under-Secy. to the Govt. of Bengal.
The 24th November 1886.

#### The Indian Law Reports,

#### Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras-High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on sppeal from each High Court are reported in the Series for that High Court. Oness heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for extrent issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance. For the complete series, including postage, Bs. 22-8.

#### REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India BY DB. GRO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribors are invited to register their names with the Superintendent of Government Princing, Calcutta,

Printing, Calcutta,
The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphalictically according to scientific nomanclature, but commercial and important Le. The work is arranged alphalectically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the

fact that derived information is in every instance given nuder quotation marks, and with a reference to the original publication. Numerous contributious have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent

inventions and discovories.

Volume 1 contains the letters A and B, and consists of folime I contains the letters A and B, and consists of 559 roys; pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value. The price to subscribers will be in India Rs. 80 and in The price to subscribers will be in India Rs. 30 and in Kngland 2 guiness, payable in advance, for the complete set Au extra charge for packing and pustage will be made for the set—is India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in unif calf or half morocco, its. 6 and 8 shillings respectively will be charged extra for the whole sets.

whole sets.

whole 8018.

\*No copies will be issued to non-subscribers till the work is complete, and no single vulume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postupe.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

#### LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 24th July 1890:

NO. 12 OF 1890.

A Bill to amend the Indian Paper Currency Act, 1882.

WHEREAS it is expedient to authorise an increase of the amount which may be invested

in securities of the Government of India out of the coin and bullion received for currency notes under the law relating to the Government paper currency; It is hereby enacted as follows:

Act, 1882, shall be read XX

Amendment of section 19, Act XX, 1882. as if for the words "sixty

millions"

the

words

"eighty millions" were substituted.

# STATEMENT OF CBJECTS AND REASONS.

THE minimum circulation of currency notes being now more than fifty per cent. in excess of the minimum in 1870, when by Act XV of that year the amount of the currency reserve which might lawfully be invested in Government securities was raised from forty millions to sixty millions of rupees, it is considered that power may now with safety be taken to raise that amount from sixty millions to eighty millions of rupees. The present Bill raises the legal limit from sixty millions to eighty millions of rupees, and if it is passed the increase of investment will be made at such times and in such manner as may appear to the Governor General in Council to be most expedient. An increase of the amount invested by twenty millions of rupees will increase the public revenue by eight lakhs of rupees yearly.

The 23rd July, 1890.

D. BARBOUR.

S. HARVEY JAME ...

Secretary to the Government of India.

Offg. Chief Secy. to the Govt. of Bengal.

#### NOTIFICATION.

The 12th August 1890.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Moulvie Basir Ali, authorising him temporarily to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within thana Comillah in the district of Tipperah.

C. C. Stevens, Offg. Chief Secy. to the Govt. of Bengal.

#### NOTIFICATION.

The 12th August 1890.—Under the provisions of section 7 of the Indian Registration Act, III of 1887, the Lieutenant-Governor sanctions the establishment, as an experimental measure, for one year, of a Joint Sub-Registry Office at Singa Sulpore, in the sub-district of Narail, in the district of Jessore. The Joint Sub-Registrar will exercise concurrent jurisdiction in the sub-district of Narail with the Sub-Registrar of that place.

This notification will take effect on and from the 15th September 1890.

C. C. Stevens, Offg. Chief Secy. to the Gout. of Bengal.

# PUBLIC WORKS DEPARTMENT,—BENGAL.

### The 11th August 1890.

No. 305.—Reversion.—The Lieutenant-Governor is pleased to make the following reversion in the Engineer Establishment, with effect from the date specified:—

Name. From		То 🕶	With effect from	
Mr. C. P. Warde	Executive Engineer, 4th grade (temporary rank).	Assistant Engineer, 1st grade.	4th August 1890.	

#### ESTABLISHMENT.

#### The 12th August 1890.

No. 807.—Mr. J. C. Hewitt, Assistant Engineer, is posted to the Gunduck Division, which he joined on the 19th idem.

J. M. McNeils, Col., B.B., Secretary to the Government of Bengal. 

#### ESTABLISHMENT.

The 11th August 1890.

No. 806.—Mr. W. H. Chase, District Locomotive Superintendent, Eastern Bengal State Ballway, has been granted by Her Majesty's Secretary of State for India one week's furlough in extension of the furlough granted to him in Manager's notification No. 2, dated 7th February 1890.

#### RAILWAY.

The 12th August 1890.

No. 8Q8.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of the Bengal-Nagpur Railway in addition to the land already acquired for the same in the villages of Sirka, Pitki, Nimdih, Sangra, Rangadi and Sapus, pergunnah Barrahhoom; Unchali, Rahardi and Kantadi, pergunnah Kassaipur; Khetka, Palanga, Purulia, Chanardi, Golkundo, Bogodih and Kotra, pergunnah Charra; Agdi and Baradumri, pergunnah Patkum; Shampur and Rampur, pergunnah Para; Dumriakundi, pergunnah Bonchas, district Manbhoom, it is hereby declared that for the above purpose several plots of land, measuring in all, more or less, 98 acres 28.38 poles (corresponding to 296 bighas 19 cottahs 12 chittacks), bounded by a nick on the ground, are required within the aforesaid villages of Sirka, Pitki, Nimdih, Sangra, Rangadi, Sapua, Unchali, Rahardi, Kantadi, Khetka, Palanga, Purulia, Chanardi, Golkundo, Bogodi, Kotra, Agdi, Baradumri, Shampur, Rampur and Dumriakundi.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom

it may concern.

C. H. CROUDACE,
Offg. Joint-Secy. to the Govt. of Bengal.

"No. 236, Sanitary. Your telegram, 2nd. Imposition of quarantine at Aden, Perim and Somáli Cuast against arrivals from Island Galesong, sanctioned."

RESOLUTION.—A notification should be published in the Bombay Government Gazette, bringing the R. Quarantine Rules into operation at Aden, Perim and the Somáli Coast against arrivals from the Island of Galesong, Dutch Indies.

2. Copies of the notification should be forwarded to the Political Resident, Aden, and the other officers and departments concerned, for information, with reference to Government resolution No. 8070, dated 2nd instant. Copies should also be forwarded to the Governments of India, Bengal, Madras and Ceylon, the Chief Commissioner of Burma, and the Commissioner in Sind.

J. DEC. ATKINS,

Acting Under-Secretary to Government.

#### GENERAL DEPARTMENT.

## Bombay Castle, 6th August 1890.

No. 3109.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they have effect from the 31st ultimo in the Ports of Aden, Perim and the Somáli Coast as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from the Island of Galesong, Dutch Ludies, shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crow, passengers, effects, and suspectible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale —

After	eight days	of voyage	•••		six days of	quarantine.
Do.		do.	•••	•••	five	do.
Do.	ten	do.			four	do.
Dο.	eleven	do.	•••	•••	three	do.
Do.	twelve	do.	***		two	ao.
Do.	thirteen	do.	and upwards	•••	twenty-fou	ir hours of quarantine

V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim and the Somáli Coast which may have communicated with vessels coming from the Island of Galesong shall be subjected to the same quarantine as vessels arriving at Aden, Perim and the Somáli Coast from that island.

X —All vessels which have undergone quarantine in the manner above prescribed should - have the fact clearly stated on their Bills of Health.

By order of His Excellency the Right Honourable the Governor in Council,

J. NUGENT,
Chief Secretary to Government

## Lights on Cape Everard.

THE British Admiralty has given notice (No. 342 of 1890) that on 1st July 1890 the

following lights would be exhibited:-

Cape Excuard principal light is a double flashing white light with sectors of red light showing a double flash every thirty seconds, and elevated 185 feet above the sea. The white light is visible seaward through an arc of 188°; the sectors of red light illuminate arcs about 1½ miles seaward from the coast line, both eastward and westward of the light-house.

The illuminating apparatus is by reflectors of the first order. The light-house, of concrete, and white in colour, is 98 feet high. Approximate position, lat. 37° 48′ 5″ S., long. 149° 16′ 30″ E.

Also that an auxiliary fixed red light, to cover outlying dangers, and visible seaward through an arc of 188°, is exhibited from a lower part of the light-house. This light is not seen scaward, by an observer 14 feet above the sea, until within the distance of about 2 miles from the light-house.

CAUTION.—The red lights are to warn Mariners of their too close proximity to the shore, or to outlying dangers off the light-house.

#### Night signals—Colombo harbour.

THE Colonial Government of Ceylon has given notice that on and after 1st August next, the following signals will be made at night from the Pilots' look-out tower at the Flagstaff, in answer to signals for a Pilot made by vessels inward bound:—

1. One blue light, to signify that the Pilot on night duty is disengaged, and will proceed at once to the vessel making the signal.

2. Two blue lights in succession with a short interval between, to signify that the Pilot is engaged with another vessel, and may be delayed some time in getting out to the vessel making the signal.

3. Three blue lights in succession with a short interval between, to signify that a Pilot will not go out, the weather being too bad for safely boarding a vessel at night, an event, however, which seldom happens. Under such circumstances the vessel should either anchor well out, or keep underweigh till daylight.

#### EASTERN ARCHIPELAGO.

Ke (K1) ISLAND.

#### Amended position of Batavier reef.

The British Admiralty has given notice (No. 336 of 1890) of the following amended position and particulars of the Batavier reef, on the authority of the Commander of H. N. M. S. Flores, dated 3rd May 1890:—

Batavier reef extends about 6½ cables in a north-east and south-west direction, with a width of about 4 cables; the least depth obtained was 4½ fathoms, and its position is indicated by discoloured water; it lies with the following hearings and distance:—

Cape Borang, north extreme of Great Ké island ... ... N. 80° E. Rumadan islet ... ... S. 26° E.,

distant about 8 miles.

Approximate position: lat. 5° 21' S., long. 132° 89' E.

Nors.—About 82 cables northward of Bataviar reef is a small shoal with a depth of 9 fathoms. Between the reef and the shoal, the lead gave no bottom at 20 fathoms.

GOVERNMENT OF BENGAL, PUBLIC WORKS DEPARTMENT (MARINE).

NOTICE TO MARINERS-(No. 104).

NEW ZEALAND-NORTH-WEST COAST.

#### KAIPARA HARBOUR.

Additional leading beacons on North head.

THE British Admiralty has given Notice (No. 312 of 1890) that two additional leading beacons have been erected on the low sand hills seaward of the light-house on North head. north side of entrance to Kaipara harbour :-

The front beacon seaward of the light-house on North head is 25 feet high, painted white, and situated S.W. by W. distant 11 miles from North head light-house.

The rear beacon is 25 feet high, painted white, and bears N.E. 1 N., distant 390 yards

from the front beacon.

These beacons in line, bearing N.E. 1 N., lead northward of Tory shoal; also over the bar, but on account of its distance from them, these beacons cannot always be seen from the bar, and therefore the beacons erected on the high land north-eastward of the light-house should, as hitherto, be used for crossing the bar.

Vessels entering Kaipara harbour, after passing Tory shoal, should haul more to the eastward to avoid getting too near the northern shore, both flood and ebb streams setting

towards that shore.

A look-out should be kept for any signal shown from the Semaphore station on North head.

(Variation 14° Easterly in 1890)

By direction of the Government of Bengal.

Calcutta Registry Office, the 2nd August 1890.

P. C. GHOSHA, Registrar.

#### Notice

IS hereby given that the following bye-laws have been framed by the Patna Municipality under section 28 of Act III (B.C.) of 1883 for the working of the Patna Tramway, and that it is intended at the end of one month from the date of the publication of the bye-laws to move the Local Government to confirm them. SYUD FUEL IMAM, Vice-Chairman, Patna Municipality.

Bye-laws under Section 26 of the Trameay Act.

1. No car shall be driven at a greater pace than seven miles an hour; on all sharp curves and down steel inclines cars shall not be driven at a greater pace than four miles an hour.

2. A clear space of at least 50 feet shall be kept between successive cars, except at stations or turnosis, unless it may be necessary to approach nearer in order to avoid collision or prevent injury.

3. No two cars proceeding in opposite directions shall stop abreast of one another, and so block the street. They shall stop so as to have a clear distance along the line of 50 feet between them.

4. At the intersection of narrow streets cars shall not be driven at a greater speed than five miles an hour, and they shall be stopped so that at most the rear platform only shall remain opposite the intersected street.

5. For the breach of any of the above four rules, the driver and conductor shall each be liable to a fine not

5. For the breach of any of the above four rules, the driver and conductor shall each be liable to a fine not exceeding Rs. 20.

6. The driver shall at all times be responsible for seeing that the line is clear of obstructions, and if there is any risk of collision, or the line is in any way obstructed, the ear shall be stopped till the line is clear of obstruction. The penalty for infringement of this rule shall be a fine not exceeding Rs. 20.

7. If a procession be passing along the street, the driver shall stop the car till it has passed; for breach of this rule the conductor and driver shall be each liable to a fine not exceeding Rs. 10.

8. During the Moharrum or any other festival, on which a large crowd shall be expected to assemble, it shall be lawful for the District Superintendent of Police by written order to prohibit the running of the cars upon specific sections of the line during specific hours; for infringing this bye-law, the conductor shall be liable to a fine of Rs. 20. of Rs. 20.

9. The purdahs or other side arrangements on the oars shall be so arranged as not to project beyond the foot-board, flap about, or otherwise interfere with the passing traffic.

10. No horse, that is not thoroughly broken in shall be used in any tram-car.

For any breach of rules 9 and 10 the Company and conductor shall each be liable to a fine not exceeding Rs. 20.

Every conductor and driver shall wear a distinguishing badge in such way as to be fully exposed to view. 11. and shall state his number to any passenger asking for it. Penalty for breach of this rule shall be a fine not exceeding Rs. 5.

The classes of cars enumerated below shall not carry more than the number of passengers stated opposite 12.

to each olass:-

1 Horse oar, 4 rows of benches Ditto. longitudinal ... 24 2 Horses car ditto 40 ••• ...

In the event of passengers in excess of the above numbers being carried, the conductor shall be liable to a fine not exceeding Rs. 5.

13. Any person may secure for himself as many seats as he wishes by paying double fare for each extra seat.

14. Every passenger has a right to cause the car to be stopped for the purpose of leaving it, and if there is room in the car, every intending passenger has the right to cause the car to be stopped for the purpose of getting

The conductor shall, under the above circumstances, be bound to stop the car as soon as possible after being required to do so by any passenger or intending passenger. For breach of this rule, he shall incur a penalty not exceeding Rs. 5.

exceeding Rs. 5.

15. On the occurrence of any accident causing serious injury to person or property, it shall be the duty of the Company to report the matter at the police-station within the jurisdiction of which the accident may have occurred, or at the nearest police-station, whichever may be most convenient, within one hour of such accident, and to give the police full and prompt assistance in the prosecution of any enquiry which they may institute. For neglect to comply with this regulation, the Company shall be liable to a penalty not exceeding Rs. 20.

16. If in connection with such accident any person receives any serious bodily injury, it shall be the duty of the conductor to make arrangements to send such person to hospital with the least possible delay, unless his friends desire otherwise and agree to take charge of him. If the conductor omits to make such arrangements, he shall incur a penalty not exceeding Rs. 10.

17. No conductor or driver shall use abusive language to any of the passengers.

17. No conductor or driver shall use abusive language to any of the passengers or intending passengers, or behave in an insolent manner or misconduct himself in any other way in the performance of his duty. Penalty for breach of this rule shall be a fine not exceeding Rs. 10.

18. Every car running after sunset shall carry two bright lights, one in front of the car and one at the back, and the horses shall also be provided with bells. The penalty for infringement of the rule, either by the driver or conductor, shall be a fine not exceeding Rs 20.

19. Cars reserved for females shall have a distinguishing mark.

20. A conductor, charging or asking for more than the rate fixed in the table of fares shall be liable to a penalty of Rs. 20.

(374-4)

SYUD FUZL IMAM. Vice-Chairman, Municipal Committe, Patna.

#### NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

#### Indian Law Reports.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series by the Calcutta Central Press Company, "Limited" 5-1, Council House Street, at the following rates, payable in advance—

#### The Indian Law Reports,

#### Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance. For the complete series, including postage, Rs. 22-8.

#### REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India. By DR. GRO. WATT, C.I.E,

#### Reporter on Economic Products.

Published uoder the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

Printing, Calentta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mioeral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chamical and industrial; trade statistics; markets, &c. The work is arranged alphabetechy according to scientific nomenclature, but commercial and important scientific nomenclature, but commercial and important vernacular names are also given us cross references so that little difficulty need be experienced in finding the account of a product even when its scientific same is unknown to the reader.

unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous cootributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abrenst of the most recent invantions and discoveries.

inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictiousry; and this as a work of reference, it is hoped, may prove of considerable value. ference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in Kngland 2 guineas, payable in advance, for the com-plete set. An extra charge for packing and postage will plote set An extra charge for packing sud postage win be made for the set—in India, at 8 annae per volume, and for England at 2 supees 6 annus per volume. For copies bound in half calf or half moroeco, Rs. 6 and 8 shillings respectively will be charged extra for the

whole sets.

copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be its. 45 in India, and 3 guiness in England, exclusive of packing and postage.

to non-subscribers well be Rs. 45 in India, and 3 guiness in England, exclusive of packing and postage.

#### PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

#### LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 31st July, 1890, and is hereby promulgated for general information:

Act No. XIV OF 1890.

An Act to amend the Schedule to the Petroleum Act, 1886.

WHEREAS it is expedient to amend parts of the fourth paragraph (Application of the test) of Part III of the schedule to the Petroleum Act, 1886; It is hereby enacted as follows:—

Amendment of schedule to Act XII of 1886. paragraph commencing respectively with the words "If the flash takes place at below 77° Fahrenheit" and "No flash which takes place within eight degrees of the temperature at which the testing is commenced" the following shall be substituted, namely:—

"If the flash takes place at any temperature below 77° Fahrenheit, the temperature at which it occurs is to be recorded. Two fresh portions of the sample are then to be successively tested in a similar manner and the results recorded. If no greater difference than 2° Fahrenheit exists between any two of the three recorded results, and if in no instance the flash has taken place within eight degrees of the

temperature at which the testing is commenced, each result is to be corrected for atmospheric pressure as hereafter described, and the average of the three corrected results is the flashing point of the sample. In the event of there being a greater difference than 2° Fahrenheit between any two of the results, while in no instance has the flash taken place within eight degrees of the temperature at which the testing was commenced, the series of tests is to be rejected, and a fresh series of three similarly obtained, and so on, until a sufficiently concordant series is furnished, when the results are to be corrected and the average taken in the manner already described.

If, however, a flash has occurred at or below 64° when the test is applied in the manner above described, the next testing shall be commenced ten degrees lower than the temperature at which the flash had been previously obtained (that is to say, at 54° or thereunder), and this procedure shall be continued until the results of three consecutive tests do not show a greater difference than 2°, and until a flash has not occurred in any of the three tests within eight degrees of the temperature at which the testing is commenced: Provided always that if at the commencement of the series of tests a flash has occurred on the first application of the test-flame at 56°, and if a flash has also occurred on the first application of the flame in each of three successive tests in which, thereupon, the test-flame is first applied at 46° as above directed, the testing officer shall certify that the petroleum has a flashing point below 47° and the sample shall be reported dangerous."

#### PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

#### LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 31st July, 1890:

No. 14 OF 1890.

A Bill to amend the Indian Emigration Act, 1883.

WHEREAS it is expedient to amend the Indian of 1883. Emigration Act, 1883, in manner hereinafter appearing; It is hereby enacted as follows:—

Addition of proviso to section 56 (1), Act the following proviso shall be added, namely:—

XXI, 1883.

"Provided that, if the vessel is a steam-ship having a certificate of survey granted by the Board of Trade or any British Colonial Government or under the Indian Steam-ships Act, 1884, and in force and applicable to her intended voyage, the survey under this sub-section with a view to ascertain her scaworthiness shall not extend to her hull or machinery unless the Protector of Emigrants has reason to believe that, since the grant of the certificate, her hull or machinery has sustained injury or damage or has otherwise become inefficient."

f 1884.

2. For section 102 of the said Act as amended Substitution of new section for section 102, Act XXI of 1884 the following shall be substituted, namely:—

Provision supplementary to section 6 (1) of this Act.

Governor General in Council may, by notification in the Gazette of India, fix in

this behalf with respect to any protected Native State adjoining the Straits Settlements, or with respect to any British colony or possession for labour in which Natives of India are recruited exclusively through the agency of the Government of the Straits Settlements, a Native of India who departs by sea out of British India under an agreement to labour for hire in any such State, colony or possession shall not, so long as the notification continues to apply to the State, colony or possession, be deemed to emigrate within the meaning of this Act.

(2) The Governor General in Council may, by notification in the Gazette of India, declare that from a date to be specified a notification under sub-section (1) shall no longer apply to a Native State or British colony or possession therein mentioned."

Saving of notification made under section 102

Saving of notifications under section 102, Act XXI, 1883, as amended by Act XXI, 1884 shall be deemed to have been made under sub-section (1) of section 102 of the said

Act as amended by the last foregoing section of this Act.

#### STATEMENT OF OBJECTS AND REASONS.

THE objects of this Bill are two, namely:-

- (1) to save owners of steam-ships the expense and inconvenience of having the hulls and machinery of their vessels surveyed under the Indian Emigration Act, 1883, when valid and proper certificates as to their sufficiency and good condition have already been obtained under other Acts and are still in force, and
- (2) to extend, in the first instance, to British North Borneo, which proposes to procure labour from India through the agency of the Government of the Straits Settlements, the same facilities for procuring such labour as have been conceded to the Straits Settlements and to protected States adjoining those Settlements.

The 28th July, 1890.

PHIL. P. HUTCHINS.

S. HARVEY JAMES,

Secretary to the Government of India.

#### GOVERNMENT OF INDIA.

#### LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 31st July, 1890:

#### NO 15 OF 1890.

A Bill to amend the Indian Salt Act, 1882.

WHEREAS it is expedient to amend the Indian of 1882. Salt Act, 1882, for the purpose of regulating the traffic in Kohat salt in the Punjab; It is hereby enacted as follows:-

l of 1882.

- I. To section 3 of the Indian Salt Act, 1882, Addition to section the following shall be added, namely:—
  - "'Kohat salt' means salt produced in the district of Kohat in the Punjab." "Kohat salt."
- 2. After Chapter III of the said Act the following shall be inserted, of new Insertion namely:-Chapter IIIA after Chapter III, Act XII, 1882. IIIA

#### "CHAPTER IIIA.

#### INDUS PREVENTIVE LINE.

- "8A. (1) The Governor General in Council Power to define may, from time to time, by gones and establish rule,—
  chains of posts.
  - (a) define a zone of country not exceeding fifteen miles in breadth-
    - (i) along any portion of the river Indus and at such distance therefrom as he deems expedient, or
    - (ii) in any tract extending from that river to the western frontier of the Punjab,
  - (b) extend any such zone so as to include any ferry, or any portion of a railway, canal or navigable river entering the zone, or any place where goods are loaded or unloaded into wagons or boats for the purpose of entering or leaving the zone, and

- (c) within such a zone establish a chain of posts extending along the zone.
- "(2) The establishment of a chain of posts under clause (c) of sub-section (1) shall be deemed to be a public purpose within the meaning of the Land Acquisition Act, 1870.

"8B. When a zone has been defined and a Effect of defining a chain of posts established gone and establishing a under section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the Government of the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, the section 8A, th chain of posts. ernor General in Council may from time to time, by rule-

- (a) prohibit any person, except upon such conditions as may be prescribed in the rule, from having in his possession any Kohat salt within the limits of the zone,
- (b) control and regulate the passage of traffic across the chain of posts so far as may be necessary for the prevention of the smuggling of Kohat salt across such chain, and
- (c) provide for the searching of all persons and things crossing or being taken across the chain of posts."
- 3. The following shall be added to section Addition to section 25 of the said Act, name-25, Act XII, 1882. ly:--
- "A Salt-revenue-officer shall not be deemed to search or detain any person, or to seize the moveable property of any person, vexatiously and unnecessarily within the meaning of clause (b) or clause (c) of the first paragraph of this section if the search is authorised by any rule under clause (c) of section 8B, and the detention or seizure is such as is necessary for the purposes of such search."
- 4. To section 27 of the said Act the follow-Addition to section ing shall be added, name-27, Act XII, 1882. ly: ly :-
- "Nothing in this section shall be deemed to affect Chapter IIIA of this Act or any ride under that Chapter."

And whereas the Madras Salt Excise Act, Mad. VI 1871, has been repealed by the Madras Salt 1871.
Act, 1889, and section 31 of the Indian Salt Mad. IV
Act, 1882, has become obsolete; It is hereby 1889.
XII of 1. enacted as follows:-

5. Section 31 of the Indian Salt Act, 1882, is XII of 16 Repeal of section 31, Act XII, 1882. heroby repealed.

#### STATEMENT OF OBJECTS AND REASONS.

THE rate of duty on salt is much higher in Cis-Indus than in Trans-Indus tracts, and it has been found necessary to maintain a chain of posts for the prevention of the smuggling of salt from the latter tracts into the former. This chain of posts is known as the Indus Preventive Line, and legislation in the terms of sections 6 and 7 of the Inland Customs Act, 1875, such as is proposed in the accompanying Bill, is deemed essential to the efficiency of the Line.

The 30th July, 1890.

D. BARBOUR.

S. HARVEY JAMES,
Secretary to the Government of India.

#### APPENDIX TO

## The Calcutta Gazette.

WEDNESDAY, AUGUST 6, 1890.

## RESOLUTION ON THE ANNUAL REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR THE YEAR 1889.

#### RESOLUTION.

MEDICAL.

Dated Calcutta, the 30th July 1890.

READ-

The Report on the Calcutta Medical Institutions for 1889.

Read also-

The Report for 1888 and the Resolution recorded upon it.

1. The year 1889 was not remarkable for any great increase or decrease in the recorded mortality; but it is necessary to bear in mind that changes have been recently made in the boundaries of the Suburbs, and that the figures relating to this area cannot be accurately compared with those for former years. The number of deaths from cholera in Calcutta and Howrah was far less numerous than in 1888, and in the Suburbs the decrease in the figures has been so large as to justify the belief that, even allowing for the change in boundaries, there was a real and substantial decrease in the actual prevalence of the disease. The mortality from small-pox, which in the years 1886, 1887 and 1888, had been triffing in comparison with that of former years, suddenly increased, though not sufficiently to cause serious anxiety. The death-rate from all causes in the

\* Reckoned on cases treated, exclusive of cases treated in the ophthalmic ward of the Modical College Hospital.

The increase in the number of in-door patients, although distributed among all the charitable institutions, except the Mayo Hospital and its dependencies, was very considerable in the Campbell Hospital, which is resorted to by paupers, and is attributed by the Inspector-General of Civil Hospitals to the high price of food-grains which prevailed in Calcutta and the surrounding districts for a great part of the year. The falling off in the number of out-door patients amounts to 37,350 in the Mayo Hospital, and is said to be due to the operation of a new rule under which the institution is closed on Sundays. Dr. Hilson takes exception to this practice, and remarks that it should not have been introduced without the sanction of Government, as it is likely to lead to great confusion in the preparation of annual statistics. This no doubt is true, but the point is not one in which the Government need interfere with the discretion of the Governors of the Mayo Hospital. Howrah there was a decrease of 916 in the attendance of out-patients. reference to the action of the Superintendent of the Howrah Hospital in refusing medicine and medical attendance to well to-do out-patients, the Inspector-General observes that, "although some such restriction on the attendance of people of this class is much to be desired, the change should not be introduced without the sanction of Government, and, if made at all, it should be applicable to other charitable medical, institutions in Calcutta." In this connection the attention of the Inspector-General will be drawn to the orders of Government contained in circular No. 1, dated the 1st January 1880, directing that, in the case of hospitals and dispensaries at the Presidency and in the Suburbs, where there are druggists' shops, and where advice and medicines can be obtained otherwise than at charitable institutions, out-door relief shall be, as far as possible, restricted to those whose circumstances do not admit of their seeking and obtaining it elsewhere on payment. These orders are moreover applicable to other hospitals in Calcutta and its suburbs.

- 3. Only 31,338 women and 51,439 children were treated in the various institutions to which the report refers in 1889 as compared with 36,030 women and 59,404 children in 1888. This falling off is undoubtedly due in no small measure to the very successful management of the Lady Dufferin Hospital by Mrs. Foggo. The death-rate in all Hospitals, excluding the Eye Infirmary, rose from 124 to 126, the rates for the Campbell and Howrah Hospitals, where paupers are treated, and into which many moribund and incurable cases are admitted, being, as usual, very high. Though the general death-rate was slightly higher than in the preceding year, which again showed a slight increase on the years 1887 and 1888, it was still much below the average of the years 1879—85.
- 4. Whatever form of treatment was adopted in cholera cases, about half the patients died, and the Lieutenant-Governor regrets to learn that the experiments made with the new remedy, salol, which has been tried with success by Dr. Nicholson in Patna, were not followed by encouraging results. Cases of enteric fever still continue rare in Calcutta, and remittent fever appears to be on the decrease.
- 5. There were 1,143 admissions for venereal diseases, against 1,064 in the previous year. In commenting on these figures, Dr. Hilson observes:—
- "It should be borne in mind that the figures represent only the in-door

hospitals or in the out-door department of the other hospitals. Hitherto the system of classifying these affections has been extremely faulty, owing to the absence from the printed returns of any heading for venereal diseases other than those in group A, and the consequence has been that a large proportion of cases have been entered under other headings, and have not been taken into account when estimating the prevalence of venereal disease. This circumstance was pointed out during the year to the Government of India, with the result that the insertion of a heading as above mentioned has now received official sanction, and in future it will be possible to draw more correct conclusions regarding the extent to which these affections are prevalent."

6. The number of important surgical operations in the Calcutta institutions

6. The number of important surgical operations in the Calcutta institutions rose from 1,719 in 1888 to 1,926, and the minor operations from 20,264 to 20,933. There were 80 deaths after operation, the rate of mortality being 39 per mille (including the eases left over from the previous year) as compared with 46 per mille in 1888. The Lieutenant-Governor agrees with the Inspector-General in considering that these results are satisfactory evidence of the skill of

the operators and of the eare taken of the patients.

7. On the subject of entrusting a larger number of surgical operations to House Surgeons and senior students, Dr. Hilson observes:—"The Medical College Hospital is designed primarily for the treatment of the sick, but it is also intended for the practical instruction of natives in medicine and surgery, and it seems to me that more opportunities of performing operations might be given to the House Surgeons and advanced students. To the want of such opportunities is to be traced in some measure the small amount of surgical work performed in Bengal by Assistant Surgeons after they leave the College and begin to practise in the districts. I know it has been urged that House Surgeons and senior students in the large English Hospitals are only allowed the privilege of operating on patients to a very limited extent, and that the high reputation which the Medical College Hospital at present enjoys neight suffer if a different course were followed, and many operations were performed by inexperienced and unskilful hands. To this it may be replied that India is not England, that the Indian student requires a more practical training than his English confecre to fit him for the active duties of his profession, and that there is no necessity to entrust him with other than the more simple operations, which might be satisfactorily performed under the immediate supervision of the senior officers of the surgical wards. At the Mayo Hospital, Lahore, the Assistant Surgeons and senior students are allowed to perform a considerable number of the major operations every year, and this system of training the students and enabling them to acquire confidence in their own capabilities does not seem to detract in any way from the usefulness and reputation of that institution." Sir Steuart Bayley would commend these observations to the careful consideration of the Medical College Council.

8. In the Eden Hospital 2,435 women and children were treated against 2,668 in the previous year, showing a decrease of 233 cases. Owing to want of accommodation when the building was under repairs, many applicants had to be refused admission. Of the 2,435 patients treated, 832 were Europeans and 1,603 natives. The deaths among the former amounted to 29, and among the latter to 56. The number of confinement cases fell from 513 in 1888 to 497; the mortality among this class of patients being 18 against 20 in 1888. The very few cases of septicsemia which occurred in the Hospital show that antiseptic precautions were carefully enforced in all cases of labour. The importance of these precautions has been fully impressed on the nurses, and it is hoped that no pains will be spared to eliminate this dangerous and fatal disease. The steam laundry sanctioned for this institution is not yet ready for use, owing to some delay in fitting it with the requisite machinery. Certain alterations made by Dr. Joubert in the classification of obstetric and gynacological operations, are likely to produce some confusion in the annual returns, but appear, at the same time, to be unavoidable, as, in the absence of any recent orders on the subject, difficulty is often experienced in the elassification of these operations. With a view to ensure one uniform system in the different hospitals, the Inspector-General suggests that the classification sanctioned in the Resolution of the Government of India, No. 129, dated the 21st February 1877, should be revised. The Lieutenant-Governor agrees in these remarks, and will consult

the Inspector-General of Civil Hospitals with a view to formulating the alterations which may be recommended to the Government of India.

9. In the Ezra Hospital 1,438 out-patients and 236 in-patients, most of whom were Jews, were treated during the year. Of the in-door patients 153 were cured, 43 relieved, 26 otherwise discharged, and 3 died. These figures show that the benefits conferred by this institution are fully appreciated

by the Jewish community.

10. The Licutenant-Governor is glad to find that the nurses employed in the hospitals continue to discharge their duties thoroughly and well, and has read with great pleasure the high praise accorded by Dr. Hilson to the ladies of the Clewer Sisterhood in speaking of the indefatigable services rendered by them in supervision and in tending the sick. Four permanent nurses were appointed this year to the Eden Hospital, as it was considered dangerous to rely exclusively on temporary nurses, many of whom do not possess sufficient experience in the work. Twelve European and Eurasian

nurses passed their examination, two of them with great credit.

11. The invested capital of the Calcutta institutions shows a decrease of Rs. 8,500; securities to the value of Rs. 12,000 were withdrawn, and applied to the construction of a new moribund ward in the native department of the Howrah Hospital. The total income during the year, including the opening balance, amounted to Rs. 5,21,390; of this sum Rs. 3,46,858 were contributed by Government. The total expenditure, excluding the amount invested, was Rs. 5,01,970, against Rs. 4,27,082 in 1888. The increase was mainly due to a large expenditure on buildings and repairs in the Campbell Hospital, while the increase in the amount contributed by Government is due to the entire cost of the Police Hospital having been met from Provincial Funds. The Inspector-General remarks that the Calcutta Municipality contributed nothing towards the Mayo institutions, and that it is time to consider whether, in view of the fact that Government has undertaken all charges on account of Calcutta Police, the Municipality should not relieve the Government of its contribution towards the medical charities of the city. It has already been pointed out to Dr. Hilson that the entire relief afforded to the Municipality by the reduction of police estimates is hypothecated to the improvements of the Suburbs, and that, so far as this argument is concerned, it affords no ground for asking the Municipality to undertake all charges on account of the medical relief of the town.

12. The thanks of Government are due to Dr. Hilson for his careful and

interesting report.

ORDER-Ordered that a copy of the Resolution, with a copy of the Report,

be submitted to the Government of India for information.

Ordered also that a copy of the Resolution, be forwarded to the Inspector, General of Civil Hospitals for information and guidance; that a copy of the Resolution, and of the Report, be forwarded to the Chairman of the Calcutta Corporation and to the Commissioner of Police, Calcutta, for information, and that a copy of the Resolution be forwarded to the Governors of the Mayo Hospital and to the Commissioner of Burdwan for information.

Ordered also that the Resolution be published in the Calcutta Gasette.

By order of the Lieutenant-Governor of Bengal,

C. C. STEVENS,

Offg. Chief Secretary to the Govt. of Bengal

### RESOLUTION ON THE INLAND EMIGRATION REPORT FOR THE YEAR 1889.

#### GENERAL DEPARTMENT-INLAND EMIGRATION.

Calcutta, the 31st July, 1890. RESOLUTION.

READ-

The Report of the Superintendent of Emigration, Calcutta, No. 937, dated 30th April, 1890, on Inland Emigration for the year 1889.

Emigration to Assam is now conducted on three different systems, which work on lines so distinct that it is convenient to deal Contractors' emigrants. separately with the facts and figures as to each set forth in the report. That first established, of transmission by contractors, contemplates full supervision by Government over the character of recruiters, the execution of labour contracts, and the sanitary arrangements for the journey. Under it 1,835 labourers were engaged during the year 1889, of whom only 1,442 actually started, a number small by comparison with the results obtained on the rival systems, but considerably greater than that returned for the previous year. The increase is attributed by the Superintendent of Inland Emigration to the opening of a new depôt; and it is also to be remembered that there has been a reaction among exporters of labourers in favour of increased control by Government in this department. Eighty-two recruiters were licensed during the year, a number which appears large, as the majority of the emigrants engage in the 24-Pergunnahs and Burdwan, where they are strangers, having in all probability been really recruited in their own districts by men who have not taken out Two licenses were cancelled for very sufficient reasons. The number of desertions is considerable (168), as also that of discharges from depôt (132), and they suggest that the original work of selection was not performed with sufficient care in the interest of employers. The mortality—4 persons in depôt, or 27 per cent., and 3 persons on the journey, or 17 per cent.—is not excessive. It is, indeed, clear that under this system every sanitary precaution is taken, and that in this respect it works satisfactorily, whatever its drawbacks in other directions. The contractors' coolies, whether bound for the Surma Valley or for Assam Proper, follow the Goalundo route only.

2. In the case of labourers engaged by garden sirdars, the employer is primarily responsible for the character of the recruiter, and the arrangements for healthy depôts Sirdari coolies. are less elaborate; but Government supervises the execution of labour contracts and the general arrangements for the journey. The number of labourers engaged by garden sirdars was 10,822, against 12,225 in 1888, a decline which, as the Superintendent observes, is undoubtedly due to the exceptional facilities afforded by the system of Assam contracts. The number of desertions is not known, or the total mortality, as the rule requiring the return of the way-bills which would afford information on these heads, is still very generally neglected. But such way-bills as have been received back from Cachar and Sylhet show that the losses on that route have been very great, 80 deaths having occurred among 2,564 emigrants, being 3.97 per cent. of the whole. This Government is at present in correspondence with the Assam Administration on the subject of effecting improvements on the sanitary supervision over emigrants to the Surma Valley.

3. The great majority of the emigrants proceed under the free system, that is to say, without supervision on the part of the State. Of these, 44,401 arrived during the year in Assam, making, with the members of the classes referred to above, a total of 57,058. The emigrants classed as "free" in the Bengal returns generally execute contracts under Act I of 1882 on entering Assam. Of 28,948 of this class of emigrants who passed through Dhubri, all but 780 made such engagements there. A certain amount of sanitary supervision is now exercised over emigration of this class under Bengal Act I (B.C.) of 1889, and the opinions expressed as to the working of that measure are all favourable.

The present report, though it does not show any outbreak of cholera, such as that which occurred on the railway route to Dhubri in 1886, still bears witness to a heavy mortality on that line, which indicates the necessity of increased

precautions.

4. The Superintendent notices the fact that a rule was introduced during the year to ensure the provision of a cooked meal for emigrants at Parbatipore, a matter to which the Lieutenant-Governor attaches great importance. As has been indicated by the Magistrate of Rungpore, the rules on the subject of the food to be supplied on the railway journey are not enforced with sufficient strictness, the agents do not seem to be always aware of their responsibility in the matter, and the subordinate medical officers who inspect at certain stations do not notice instances of neglect. Since the close of the year a rule has been passed definitely imposing this duty on such officers. The Superintendent notices the following sanitary measures among others adopted during the year:—

"The supervision of the medical establishments provided for coolies at Kurigram and Kaunia was entrusted to the Medical Officer in charge of the Eastern Bengal State Railway. In the early part of the year the Lieutenant-Governor had under consideration the circumstances connected with the outbreaks of cholera among emigrants on their way to Assam and the means best calculated

to check such epidemics.

In addition to the arrangements already sanctioned, viz.—

the remedying of the sanitary defects of the depôts at Raneegunge and in Chota Nagpore;

the construction of a cholera shed at, and the deputing of medical establishment to, Kurigram;

the transference of the medical agency from Magra to Naihati; arrangements for the proper treatment of emigrants travelling by rail; report by telegram of cases of cholera on the railway line, and at Goalundo for cases occurring on steamers,

it was further ordered that the private depôts in Calcutta and Rancegunge be inspected and sanitary defects remedied; that arrangements be made at Rancegunge for the disposal of the dead; that a cholera hospital be built at Rancegunge, and a medical officer be deputed to the Rancegunge and Scaldah Railway stations to examine emigrants and prevent those infected starting, and to ascertain the depôt from which the infected coolies came.

Similar inspection and medical assistance to the sick were afterwards ordered at Parbatipore, and it was arranged that the number of coolies to be despatched from stations on the East Indian Railway should be limited to 320 daily; that the carriage of coolies by goods train be discontinued, and the conveyance of coolies in goods wagons be not allowed until suitable wagons had been approved

of by a Committee.

P - 1

The Resolution of the 3rd September, 1889, sanctioned—

(1) The posting of a Civil Hospital Assistant to the charge of the coolie depôt at Raghunathpore in the Manbhoom district.

(2) The construction at Raghunathpore of a cholera mat hospital and the

sinking of a masonry well.

(3) The adoption of similar measures at the municipal town of Jhaldah in Manbhoom.

(4) The placing of the Assistant Surgeon of the Giridih sub-division in charge of all the coolie depôts there, and the construction at that place of a cholera mat hospital, also to be in charge of that officer; an extra allowance of Rs. 20 being granted him on this account during the recruiting season.

(5) The adoption of similar arrangements at the sub-division of Govindpore, an extra allowance of Rs. 10 being likewise granted to the

Civil Hospital Assistant during the recruiting season.

(6) The appointment of the Assistant Surgeon at Sara on a special allowance of Rs. 20 per mensem, with a compounder on a salary of Rs. 8 per mensem, to supervise the sanitary arrangements of rest-houses there.

A Committee having been formed to consider the question of the use of goods wagons for the conveyance of coolies, certain pattern wagons with improvements in ventilation and as to inlet and exit for passengers were inspected at Kaunia and pronounced suitable for coolies, and the use of such wagons was sanctioned.

A uniform fee of eight annas per head was directed to be charged for the

treatment of sick coolies of all classes in railway hospitals.

In November last the inspection at Goalundo before embarkation of all casual coolies proceeding to Assam by the Assistant Surgeon of Goalundo, and the adoption of the arrangements as regards duration of halt and food, which were

prescribed for coolies proceeding vià Dhubri, was ordered."

5. The general working of Act I of 1882 has to be separately reviewed during the current year, under the orders of the Secretary of State, and it therefore seems unnecessary to comment on this subject at present. Surgeon-Major Comins, the Superintendent of Inland Emigration, has administered the department with much discretion, and the successive Commissioners of Chota Nagpore (Mr. Stevens and Mr. Grimley) have given much attention to the subject, which is of great importance in that division. Mr. Skrine, Magistrate of Rungpore, also deserves mention for his attention to the sanitary requirements of emigrants passing through his district.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Govt. of Bengal.

## ADMINISTRATION REPORT OF THE METEOROLOGICAL DEPARTMENT, 1889-90.

THE following report is published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

The 30th July 1890.

Secretary to the Gort. of Bengal.

In accordance with the orders of Government the reports submitted during the past two years have given information regarding the more important changes and working in the department, the full details being reserved for the triennial report, which it is now my duty to prepare. The information given by Mr. Pedler, in his reports for the two past years, regarding the changes carried out in extending the Storm Signal Service, and also regarding the extensive system of changes effected by Mr. Eliot at the commencement of 1889, has been full and complete, and as it is therefore unnecessary that I should repeat the information, I shall confine my attention to the details concerning the ordinary working of the department.

The department was under Mr. Pedler's charge during the past year, with the exception of the period between 5th August and 29th October, when he was

on leave. During these months I officiated for him.

The system of work commenced in 1889 has been maintained, and as the changes and improvements then carried out were very thorough, the work of the department has gone on smoothly throughout the past year, and no change of any sort has been required.

One observatory, viz., that at Tezpore in Assam, had to be closed during last year. On the 16th March 1889 the observer reported that the lock of the cage containing the thermometers had been broken open and all the thermometers stolen. As this observatory had not been working satisfactorily for some time, it was decided by the Meteorological Reporter to the Government of India not

to issue new thermometers, but to close the observatory.

On the other hand, a new observatory has been started at Mozufferpore in Bengal. In June 1889 it was represented that regular meteorological observations from this station would be of great service to the indigo-planting community, and after due enquiry on this point, Babu C. C. Chatterjee was deputed to select a site and make other arrangements to establish a regular meteorological observatory at Mozufferpore. The best available site was selected, an observer appointed and trained, and with the assistance of the Executive Engineer, Mr. Norman, the shed, &c., were constructed. The Magistrate kindly consented to act as Superintendent of the Observatory. When everything was ready, Mr. Pedler visited Mozufferpore, and, as he found all in a very satisfactory condition, ordered the commencement of the regular work of observation. The first report received was on the 3rd April 1890.

The following table gives the number of stations reporting observations to Observatories. this department during the past three years:—

1887-88.		1888-89.	1889-90.						
1st Class Imperial 2nd ,, ,, 3rd ,, ,, Other stations reporting for the Storm Warning Service only	1 2 49	1st Class Imperial 2nd ,, ,, 3rd ,, ,, Other stations reporting for the Storm Warning Service only	1 15 36	1st Class Imperial 1 2nd ,, ,, 15 3rd ,, , 35 Other stations reporting for the Storm Warning Service only 10					

Returns were also received from four voluntary observatories, viz., Tura, Demagiri, Shortt's Island, and Lungleh. The two last stations commenced

observations from 1st April and 9th July 1889, respectively.

Vizagapatam is an independent observatory under the direction of Mr. A. V. Nursing Row, who has continued to favour this department with his observations which are received with great punctuality. The department is also now indebted to him for special storm telegrams, which he kindly sends us whenever required in response to our telegraphic request. The thanks of this department are therefore again due to Mr. Nursing Row for his continued valuable assistance in connection with the Bay of Bengal Storm Signal Service.

The following table gives a list of the observatories which have been working during the last three years, together with the names of the observers:-

Personnel of Observatories in Bengal and Assam during the years 1887-88, 1888-89, and 1889-90.

Akyab—Was visited by Mr. Eliot in November 1887 to decide on the question of removing the observatory to a better site, made necessary by the crection of the new telegraph office building close to the thermometer shed. No very satisfactory site was available, but as it was very desirable to retain the observatory at the telegraph office, a new position about as far from the new telegraph office as the observatory was from the old office was chosen. The anemometer was continued at the old site, but the staging was raised to a height of about 36 feet above the ground.

Arrah—Was visited by Mr. Pedler on 25th March 1888. The instruments were all in good order except the barometer. A set of comparative readings made with a standard taken from Calcutta showed that the barometer was working sluggishly, though the correction had scarcely changed. Another barometer was supplied, and the old one sent back to Calcutta for verification. The observer was well qualified for his duties, and the general condition of the observatory very satisfactory. A second visit was made on the 13th and 14th March 1889 chiefly for the purpose of having the observatory transferred to the Telegraph office, as the observer was unable to take the observations at 8 A.M. A new site for the thermometer shed was selected, and it had the advantage of being more open than the previous position. The new site for the wind instruments, however, was not quite so good. Observations were first taken in the new positions on 1st April 1889.

Bankoora—Observatory was inspected on 21st to 23rd August 1887 by the head clerk, and again on the 4th April 1889 by Mr. Pedler. At the time of the first visit the observatory was in a very unsatisfactory condition, the instruments being nearly all out of order, and the observer ignorant of the rules laid down for his guidance. The instruments were put right so far as was possible at the time, and the local overseer of road cess kindly undertook to see that the wind vane was properly set, and the Magistrate, that the observer made

himself acquainted with his instructions.

The second visit was made shortly before 8a.m., the hour for taking the observations, and the observer was found to attend punctually. The observatory was in very good order, all the instruments being clean, and properly set, with the exception of the wind vane, which was not quite perpendicular. The observer was slow in reading the barometer. The observatory was every way in a much better condition than at the previous visit.

Burrisaul-Observatory visited on 4th January 1888, was found to be in very good order. The observer read the instruments quickly and correctly, and

kept them clean.

Berhampore-Was visited on the 12th August 1887. The observatory and

instruments were in satisfactory order.

Bhagulpore-Observatory has been inspected four times during the past three years, two of the visits being very recent—in August of last year by Babu C. C. Chatterjee, Inspector of Observatories, and again by Mr. Eliot in December. When inspected on 9th and 10th August 1887 the instruments were

found to be dusty, but otherwise in good condition.

In August 1889 the shed was found to be in want of repair, and an estimate was prepared for sanction. Comparative readings of the barometer were taken during the two days, with fairly satisfactory results. The thermometers were in good order, but the rain-gauge, anemometer, and wind vane were all unsatisfactory. The rain-gauge was not horizontal and only 61 inches above the ground, to remedy which a level masonry platform was ordered to The wheels of the anemometer were worn and the wind vane was not working smoothly. Both instruments were replaced by new ones. When the observatory was started in 1883 there were some low trees in the neighbourhood of the wind instruments, and these were found to have grown so as to interfere with the free circulation of the air. At the instance of the Inspector the landlord kindly consented to have the trees cut down. When inspected by Mr. Eliot in December the trees had been removed and the exposure was quite satisfactory. In other respects the observatory was satisfactory, the orders given in August having been carried out. The observer is intelligent, but not very careful and his readings are hence occasionally doubtful.

Bogra-Observatory, inspected on 16th June 1888, was in very good order, various improvements having been made on the shed and a masoury platform made for the rain-gauge. Comparative readings taken with the Calcutta

standard showed a very slight error in the station barometer.

Burdwan—Observatory was inspected on 13th August 1887, and again on 13th January 1888. On both occasions the instruments were in good order, and repairs, found necessary on the first visit, were carried out before the A new barometer had been supplied shortly before Mr. Pedler's visit on 13th January and comparative readings taken by him shewed that the correction had not varied. Further inspection was not considered necessary

till August 1889 when Babu C. C. Chatterjee went for the purpose of changing the positions of the instruments requiring good exposure, viz., the wind instruments and the rain-gauge. Arrangements were made for altering their positions, and the other instruments were inspected and found in very good order. Comparative readings of the barometer and thermometers were also taken. Objection was afterwards taken by the Civil Surgeon to the position fixed for the wind instruments as being too near the edge of the roof of the registry He suggested that they should be fixed over one of the central office, building. walls, and to ensure that there would be no loss of exposure, Mr. Pedler went on the 19th January 1890 to examine the proposed sites. As he had no objection to the central position, the pillars were erected and the instruments removed there on 31st January. The height of the anemometer has been increased from 16 feet to 24 feet, and it can be easily reached for reading and oiling. The exposure is not altogether satisfactory, but it is the best that can be got in the neighbourhood. The fence made round the thermometer shed also encloses the rain-gauge, which is at least five feet from the fence.

Buxar—Was visited by Mr. Pedler on 23rd October 1888. The wet bulb thermometer had been broken the day before, but otherwise the thermometers were in good order. The barometer was not so satisfactory, the mercury in the cistern having become oxidised, and in the tube above the column the mercury was found to have evaporated and adhered in small drops to the glass. Being a Fortin's principle barometer, the evaporation did not affect its accuracy, but the possibility of condensation of mercury in this way is of the greatest importance in the use of instruments constructed on the Kew principle, as any readings taken from one in such a condition would be altogether worthless, a considerable unknown error being introduced. The anemometer was working well, but the wind vane, one of the Roorkee pattern, was working very heavily, chiefly from want of oil. The rain-gauge was rusty, holes having been eaten

right through the outer tin case.

Chittagong—Has not been inspected since 1887, when Mr. Eliot found all the instruments in good order. The observer continued to give satisfaction until the last year, when Mr. Tocher, the present Telegraph Master, took over charge of the Chittagong Telegraph Office, who, considering his other duties required all his time, gave over charge to Mr. Mackenzie, a telegraph signaller, on the 1st of April 1889. According to the orders of the Director-General of Telegraphs, the signaller ought to have a thorough knowledge of the methods of reading the instruments and of preparing the code telegram, but Mr. Mackenzie has, throughout the period during which he has held the appointment of observer, made numerous mistakes, and, on the occasion of stormy weather in the neighbourhood of Chittagong in October of last year failed to be of the slightest assistance from his ignorance of the method of framing the telegram by means of the storm signal code used in forwarding additional observations. These observations were of the greatest importance, as any action taken in warning the port of Chittagong would have largely depended on them. This is only one of several cases that have lately occurred when the permanent observer has given over charge before his successor has acquired the necessary facility in reading instruments, or a competent knowledge of the working of an observatory. In some cases no fault can be found with the out-going observer, as his relieving officer may have come from a distance, and time not been available to give full instruction, or to see that he had previously acquired the requisite whill. This excuse cannot be applied in the Chittagong case, as Mr. Mackenzie had been a signaller there for some time, and had either from ignorance or carelessness disobeyed the order of the Director-General of Telegraphs.

In connection with this, I may mention that during the monsoon season last year, the Serajgunge observer went on leave, and his successor was so unqualified for the work and so unwilling to do it, that in the absence of any opportunity of instructing him, the observatory had to be closed until the

permanent observer's return.

Later at the very end of the year 1889-90 there was a change of observers at Diamond Island, and the new observer supplied information so out of agreement with the other stations that there was no hesitation in rejecting all his observations. Unfortunately, while he was still on duty, the first storm of

the present season occurred in the near neighbourhood of that station, and knowing the character of his work, I was at a loss to say whether the storm was severe or not.

I have mentioned these three instances which have all occurred within six months to shew the risk of a partial failure of the storm warning system from a man of incompetent knowledge having to take over charge as observer. I understand that quite recently the Meteorological Reporter to the Government of India has been in communication with the Director-General of Telegraphs with a view to have the order revived, viz., that signallers make themselves thoroughly acquainted with the work so as to be able at short notice to

assume the responsibility of supplying correct information.

Chupra—Was visited on the 25th January 1888 by Mr. Eliot. The observatory was in every way satisfactory, except that the observer had taken the readings by Madras time instead of local time. The correction for local time was given him, and the rain-gauge removed from the compound of the Road Cess Office to that of the circuit-house. The next visit made was by Mr. Pedler on the 24th March 1889, when he found the observatory in a disgraceful condition and the observer very careless in the performance of his duties. The instruments were found to be more or less out of order and the records very badly kept. Arrangements were then made to transfer the observatory from the Public Works Department to the Telegraph Department, and in September of the same year the Inspector of Observatories was sent to see the observatory started under the superintendence of the Telegraph Department, the Telegraph Master becoming observer. A new shed had been built on the grounds of the Telegraph Office, and some minor defects in it were pointed out and remedied as far as possible. The barometer was removed from the Collector's room to the signal-room, and the difference of level of the two positions ascertained. It was also arranged that the old observer should continue on duty for one month, so as to allow sufficient time for the telegraph master to become thoroughly acquainted with his duties.

Comillah—Observatory was inspected by Babu C. C. Chatterjee in January 1888. The permanent observer was away without leave, and the acting one did not understand his work. He was thoroughly drilled. The shed was in a shaky condition, but was repaired shortly after. The instruments were all found in good order, any small defects noticed being removed by the Inspector. But the position of the shed having been found faulty, another on a better site was built and comparative observations carried on for a year up to 30th April 1889. The observations from this observatory, more especially those of the

barometer, are, however, frequently found to be erroneous.

Dacca—Was visited twice—by Babu C. C. Chatterjee on 12th January 1888 and by Mr. Pedler on 5th February 1889. The instruments were found in excellent order on both occasions, and the observer has in every way given satisfaction. The rain-gauge has given some trouble. At first it was apt to be flooded by the river, and Babu C. C. Chatterjee had it removed, but in its new position some neighbouring trees and the telegraph buildings sheltered it to such an extent that Mr. Pedler had to fix a new site.

Darjeeling—Observatory was in a satisfactory condition when visited by Mr. Pedler on 28th to 31st March 1888. The new Beckley's anemograph had just been erected, and the first difficulties got over, so that Mr. Pedler expected valuable results from the instrument. Though the wind velocity portion of the apparatus was working very freely at that time, it was very much out of order when the observatory was next inspected by Mr. Gilliland about the middle of October 1889. It worked only with winds of over ten miles an hour, and the adjustment of the direction recorder was also unsatisfactory. The part of the instrument exposed to the weather had suffered to such an extent during the previous eighteen months, that it had to be dismantled and thoroughly cleaned. The anemometer, wind vane, sun thermometers, and the barometer were also found to be somewhat defective, and were put right as far as possible.

Dhubri—Observatory inspected 21st March 1888 and 22nd to 24th October 1889. At the time of the first visit made by Mr. Pedler, the instruments were in good order with the exception of the anemometer, wind vane, and anemograph. The velocity part of the anemograph was working very freely, but that giving the direction record worked very heavily, and was so adjusted that the

direction given was the opposite of what it ought to have been. The defects were remedied, but as the anemograph house was undergoing repairs, it was

impossible at that time to have the instruments thoroughly cleaned.

During the past year nearly all the observers in North Bengal were changed, and the new men being not thoroughly instructed in the reading of the instruments, advantage was taken of the October college vacation to send Mr. Gilliland to find out to what certain small errors, which were daily apparent, more especially in the readings of the barometer, were due. observatories which urgently required this visit were Julpigoree, Rungpore, and Dhubri, and as these observatories are in the same part of the country, the observatious taken at one frequently corroborated those of another though all the readings were unreliable. I may state that the errors usually made are of two kinds, one from careless reading of the scale, whereby the correct graduation is not taken though the instrument be properly adjusted; second, where the instrument is badly adjusted, but the reading otherwise correctly taken. The first is entirely due to carelessness on the part of the observer, and is generally punished by a fine, the second probably to ignorance, and it was to remove errors of the second kind that these observatories had to be visited. It was found that none of these observers knew how to lower the vernier until it was just touching the column, and that they were also not in the habit of keeping the eye in a horizontal line with the top of the mercury. These faults are of the greatest importance because they occur so frequently in the case of new observers, and are only found out after the observer, who has given over charge, has left the station, so that there is no possibility of removing the errors except by sending some one from the head office. These remarks, though given under the head of Dhubri observatory, are equally applicable to Julpigoree, Rungpore, and some others. Though these errors were of daily occurrence during the monsoon, it will be seen in a table given below that very few errors of the other kind, that is the result of carelessness, have been made by the observer at Dhubri.

Dinagepore - Visited on 12th June 1888 The observatory was in good order, and the observer punctual in taking observations, but being at that time lately appointed, he was unable to read the barometer with accuracy. The method of adjustment was fully explained to him, and a series of readings

taken which showed that the error of the barometer had not altered.

Durbhunga—Observatory was inspected on the 17th January 1888, and twice in 1889—on the 22nd March and 23rd August. The observatory remained a voluntary one till the 1st January 1889 when an allowance of Rs. 10 a month was made, though this was not full remuneration for the observations supplied according to the ordinary rate of payment of observers in the department. Just before the first visit the shed had been dismantled and the thermometers removed to a room in the hospital, and they remained there till very recently when a new shed was finally erected. During this interval the thermometer readings were worthless, as they gave the temperature of the room and not that of the open air, and they have therefore been rejected in forming averages. The instruments were generally found to be dusty, but the barometer, though old, was capable of giving accurate readings.

Furreedpore—Observatory, visited on the 16th January 1888, was found to be in fair condition, but the observer was in want of instruction on the adjust-

ment of the barometer.

Gya—Observatory, when inspected from 26th to 29th January 1888 by Mr. Eliot, was in fair condition. The rain-gauge and anemometer wanted repair or renewal, but the thermometers were in good condition. The chief object of the visit was to find out the cause of the discrepancies in the barometer readings, and after a series of comparative readings it was found that the correction was (116 inch instead of '003 inch, as obtained at Alipore. When next visited on the 24th October 1888, it was necessary to make arrangements for moving the instruments nearer the new cutcherry. The wind instruments were fixed on the highest part of the roof of the cutcherry parapet, and the thermometer shed was placed in an open space near the treasury guard. The instruments were all found to be in good order. In September 1889 the observatory was again found to be in good condition, except that the barometer tube had become loose in the case, but the error resulting was inappreciable.

Hasaribagh—Observatory was inspected on 10th April 1889 mainly for the purpose of arranging for the mounting of the new Beckley's anemograph. The instruments, records, and thermometer shed were all in excellent condition. "Arrangements were made in consultation with Dr. Moorhead and the Public Works Department subordinates as to strengthening the anemograph house to receive the new instrument." Though all preliminaries were then seen to, the work was never carried out by the Public Works authorities, and as a Beckley's anemograph was lately urgently required at Allahabad, Mr. Eliot ordered the transfer of the one at Hazaribagh, so that no further anemograms will be received from this station.

Jessore—Observatory was inspected three times, and on each occasion was in fairly good order, but when visited by Mr. Pedler on the 8th February 1889 the observer was twelve minutes late in arriving to take the observations, a matter of considerable importance, as at 8 AM., all the meteorological elements

are rapidly changing.

Julpiyores - Observatory, when inspected by Mr. Pedler in March 1888, was in a most unsatisfactory condition, the observer having taken leave without informing the Calcutta office, and left his duties to be performed by a man very ignorant of the methods of adjusting and reading the instruments. On Mr. Pedler's recommendation the observatory was transferred to the local post office, and with the consent of the Postmaster-General, the Postmaster was appointed observer. Babu C. C. Chatterjee was sent in June of the same year to train the new observer and to select the most suitable positions for the thermometer shed, the barometer and the wind instruments. A change of observers was made in the following year, and from that time very unsatisfactory reports were made for the reason already stated in connection with Dhubri observatory. After Mr. Gilliland's visit the barometer readings were more satisfactory, but those of the maximum thermometer have still been unreliable from the observer's failing to understand the method of setting the instrument after reading.

Krishnaghur-Observatory was inspected twice during 1888, and was found

in satisfactory condition.

Maldah—Was visited in December 1887, the readings reported being unreliable. The instruments were in very bad order, and the observer unable to read them with accuracy. He received full instructions as to the method of procedure, and has continued since then to give more satisfaction, but, as shown by the table given below, he is not one of the most careful observers.

Midrapo e—Had to be visited in May 1857 because of the very low readings of the barometer. The instrument was found to be in bad order, but the observer was also very careless in his adjustment. He benefited by the instruction then given, so that further inspection visits have not been considered necessary, but there is still a certain amount of carelessness shown in his returns.

Motifiarce—Observatory was in a very satisfactory condition when visited by Mr. Pedler in January 1888 and March 1889. The object of the second visit was to arrange for the handing over of the observatory to the Civil Surgeon from the 1st April 1889, his clerk becoming observer. The instruments were in the same excellent order as when previously inspected, and Mr. Pedler has recorded that "Mr. Clarke the Supervisor, Public Works Department, must be thanked for the general care he has shewn in the charge of the observatory." As the new observer was not well qualified for the work of observing, a third visit was made by Babu C. C. Chatterjee, who gave the required instruction as to reading the barometer and wind vane, and saw that the instruments were thoroughly cleaned and oiled.

Mymensingh—Observatory was inspected on 14th January 1888 and 3rd February 1889. The instruments were in fair condition on both occasions, but the observer had, each time, difficulties which could only have been

removed by verbal instruction.

Noakhally—Visited from 5th to 7th January 1888. The observer was found to be reading the barometer too low from wrong adjustment of the vernier. The instruments were in fair order, with the exception of the wind vane and anemometer, which were replaced by new ones.

Nya Doomka-Observatory was inspected in August 1887 by Babu C. C. Chatterjee. The observer read his instruments quickly and correctly. Most of

the instruments had been well kept. The Inspector removed all defects, and the new instruments wanted were supplied immediately after his return to Calcutta.

Patna—Observatory has been inspected three times—in March and October 1888 and September 1889. The instruments were in good order, except where they had become unserviceable from wear, in which cases new ones were supplied. On the occasion of Mr. Pedler's visit in October 1888, the observer was more than half an hour late in arriving to take the observations, and as the records at the telegraph office shewed that the telegrams to Simla were invariably late in being sent for dospatch, the observer was fined.

Purneah—Observatory was inspected in December 1887, August 1889, and March 1890. When first inspected the observer took the readings quickly and and correctly, but the observatory was not in good order in several important

particulars.

Rampore Beauleak—Was visited on the 19th June 1888. The instruments were in very bad order, from want of attention on the part of the observer, the thermometers being unserviceable, and the wind instruments working with a great deal too much friction from want of oil. He read the barometer very slowly and with doubtful accuracy. During the past year the results have been more satisfactory, and very few careless errors have been discovered.

niore satisfactory, and very few careless errors have been discovered.

\*\*Raneegunge\*\*—Observatory was inspected in August 1887 and in January and October 1888. The instruments were mostly in good order, and the observer

was found to read the instruments quickly and correctly.

Rungpore—Inspected in June 1888, October 1889, and March 1890. During the first year the observatory was in a most unsatisfactory condition, the observer shewing great want of punctuality and being very careless in keeping the instruments in order. As the shed was very near the post-office, the Postmaster was appointed observer. But when the observatory was next visited by Mr. Gilliland in October 1889, the observer was found to be reading the barometer very inaccurately, not altogether from carelessness, as he was very willing to learn but because he had failed to understand from the Vade Mecum, the method of correctly setting the instrument. As far as time would permit, he was drilled in setting and reading, and when Mr. Pedler inspected the observatory in March last, he found the observer read only a few thousandths of an inch too low, probably owing to somewhat defective vision.

It will be seen from the preceding remarks that in many cases the defective observations are not due to carelessness so much as to an imperfect knowledge of the duties, for which the observer cannot be said to be blameworthy, unless he has had previous opportunities of direct instruction. The only way of introducing improvement is to have an officer who may be in a position to go to any observatory when required, and to stay there instructing the observer till there can be no further doubt as to his being able to read all the instruments with the

utmost accuracy.

In addition to these errors arising from ignorance on the part of observers, frequent careless errors are made by some. These are generally discovered by comparison at the head office, and from the records, I have arranged in the following table the observatories according to the number of errors made during the past year, partly to show how careless some observers are, and partly to show which observers are making every effort to give satisfaction:—

Under five mistakes.	Between five and ten mistakes.	Between ton and twenty mistakes.	Over twenty mistakes
Akyab. Berhampore. Burdwan. Buxar. Chyhassa. Coconada. Dhubri. Gopalpore. Hazaribagh. Krishnaghur. Madras (Port Office). Nya ijoomka. Paina.	Arrah. Bankoora. Bogra. Cuttack. Dehrce. Dinagepore. Durbhunga. False Point. Gya. Jessore. Motiharee. Mymensingh, Purneah.	Bhagulpore. Chutragong. Chupra. Dacca. Darjeeling. Furreedpore. Maldah. Midnapore. Nellore. Noakholly.	Balasore. Burnesul. Comillah. Julpigoree. Pooree. Rungpore.

Under five mistakes.	Between five and ten mistakes.	Between ten and twenty mistakes.	Over twenty mistakes.
Rampore Beauteah. Banchee. Serajgunj. Sibsagar. Silchar. Tavoy.	Raneegunge. Saugor Island.		

To make the observers more careful, a system of fining has been employed for some time, and the observers who have been most frequently punished during the year ending March 1890, are those at Balasore, Burrisaul, Chittagong, Chupra, Comillah, Gya, Noakholly, Pooree, and Rungpore. The observer at Comillah was fined sixteen times, at Balasore eight times and most of the others five times.

Most of the inland stations have been inspected some time during these three years, but it has been impossible to visit the stations on the coast. The observations, however, have been carefully watched, and any errors made immediately brought to the notice of the observers, so that those who are in the habit of taking careless readings are at once reminded that more care is necessary. A condition of high efficiency is maintained, as shown by the accuracy with which the movements of storms in the Bay can be followed. In connection with Chittagong observatory, I have shown from what cause the greatest risk of failure in supplying accurate information arises, and that it is in a fair way of being removed.

In past years the condition of the lines connecting Diamond Island and False Point with the mainland has been the subject of comment. During the year 1889 90 there was no serious stoppage at either station, but the weather was never very stormy during the monsoon season, so that they were not put to the same test as in other years. The telephone line between Hookeytollah and the False Point Lighthouse has been thoroughly overhauled, and the telephone replaced by Morse instruments which will soon be in use. Though the telegraph authorities think it unlikely that the line will, even now, be able to stand the strain of very stormy weather, there is no doubt but that it will

now be much more reliable.

The number of rainfall recording stations during the past three years is Rain recording stations. as given below:—

YEAR.		_	•		Stations.
1887-88	•••		•••	•••	250
1888-89	• • •		•••	•••	255
1889-90	• • •	•••		•••	258

These stations have generally despatched their returns with great regularity. There were, however, a few exceptions. Piplee submitted no returns throughout the year. Sorah, Balasore, Azimgunge, Patkabari, Bogra, and the more outlying stations in Purneah, Mozufferpore, Lohardugga, and Singbhoom were late on several occasions.

With a view to obtain daily meteorological observations from the pilot-brigs cruising at the Sandheads, Mr. Pedler, with the assistance of Mr. S. R. Elson, devised and issued a special code by means of which the meteorological observations taken in the pilot-brigs can be reported by a single hoist of four flags displayed in passing Saugor Island Lighthouse and thence telegraphed to the Meteorological Office.

These telegrams have been received with fair regularity. The observations seem to have been taken from different instruments and probably by different persons from time to time, so that the pressure reported is not very reliable, especially as there has sometimes been difficulty in ascertaining to what day the observations belong. A list given below shows the number of telegrams received each month since the system was started.

June	1889	•••		1	November	1889	• •••	Nil.

The following tables give a brief summary of the various cyclonic storms in the Bay of Bengal during last year, and the action taken by this office to warn the coasts affected by them:—

Table giving a brief statement of the Storms which affected the Bay of Bengal coasts during the year 1889-90.

No.	Date.		Character of storm.	Coast affected,
1	May, 21st and 22nd		Fceble depression off Pegu coast	It passed into the Central Pro- vinces and merged into the area of permanent low pressure.
2	June, 9th to 11th	•••	Small depression off Ganjam coast	Crossed North Orissa coast on the
3	June, 17th		Feeble depression in north-east of the Bay.	
4	June, 24th to 27th	•••	Feeble cyclonic storm off Orissa coast.	
5	July, 12th to 20th	•••	Small cyclonic storm off Orissa coast.	Crossed the coast between Balasore and Saugor Island on the morning of the 20th.

No.	Date.	Character of storm.	Coast affected.
в	August, 5th and 6th	Small depression over the head of the Bay.	Crossed Orissa coast near Pooree.
7	August, 15th to 17th	Small depression over the head of the Bay.	Passed northwards.
8	August, 25th and 26th	Feeble depression off Orissa coast	Passed inland.
9	September, 16th to 19th	Cyclonic storm formed in the centre of the Bay moved in a westerly direction.	Crossed Ganjam coast on the even- ing of 18th.
10	September, 25th to 27th	Feeble diffused depression in the north-east of the Bay.	Passed northwards.
11	October, 4th to 11th	Shall w depression off Circars coast.	Merged into the area of uniform pressure.
12	October, 13th to 16th	Feeble depression off Orissa coast	Crossed coast on the morning of the
13	October, 21st to 27th	Shallow depression, formed off Orissa coast, and moved slowly in northerly direction	Crossed coast cast of Saugor Island, passing over Sunderbunds on the 27th.
14	November, 2nd and 3rd	Small depression in the Gulf of Martaban.	Moved northward towards the land.
15	November, 13th to 20th	Cyclonic storm formed in the southern half of the Bay.	Approached Madras coast till the 18th then moved rapidly in a northerly direction, the centre passing inland near Gopalpore on the morning of the 20th. Gave heavy gales on the Circars and south Orissa coast.
16	December, 16th to 18th	Small depression in the south-west of the Bay.	Crossed Madras coast to south of Negapatam on the morning of the 18th.
17	December, 23rd to 26th	Small depression formed in the south of the Bay.	

Table showing the action taken by the Calcutta Meteorological Office in warning the coasts affected by the storms enumerated in the above table.

nom.	Ho	ISTING OF STORM SIGNALS		WARNING OF PORTS B	Y CAUSIONARY TELEGRAMS.

Madras, Gopalpore, Bimlipatum, Caconada, Vizagapataio, Masniipataim, Negapataio, Akyab, and Rangoon.  Pooree, False Point, Chandbally, and Balasore.  Chittagoog	vember. 10-20 of 13th; 10-10 of 14th; 10-15 of 15th; 10-40 of 16th; 10-25 of 17th; 10-10 of 18th (except Gonslpore, Akyab, and Kangson); 11-40 and 14-40 of 19th; 10-40 of 20th November.
16 17				Negapatam, Tuticorin, and Madras, Madras, Vizagapatam, Coco- nada, Musulipatam, Paum- hem, Negapatam, and Tuti- corin.	10-20 and 17-30 of 17th; 10-20 of 18th; 11 hours of 19th December. (Matrus 10-2 of 22ad1; 10-57 of 23rd; 9-50 and 15-25 of 24th;

An additional weather signal for the approaches to the port of Calcutta and for the port itself, called the cautionary signal, has been introduced amongst the existing weather signals by a notification issued on the 29th June 1889.

During last year the Madras Port authorities represented to Government the desirability of receiving daily information as to the weather passing over the Bay, and in consequence the duty has been entrusted to the Calcutta Meteorological Office. With a view to give the fullest information regarding the whole Bay, Mr. Pedler devised a special meteorological telegraphic code, a manuscript copy of which was sent to the Presidency Port Officer, Madras, on the 28th March 1890, and the first telegram giving such information commenced from the 4th April 1890.

Weather reports.

The regular reports which are issued by this Department are—

1st.—Monthly reports of the meteorology of Bengal and Assam which are also illustrated in a few cases with maps drawn by hand representing the actual rainfall, the variation from the normal, and the rainfall expressed as a percentage of the normal fall. Copies of these maps were also regularly supplied to the Sanitary Commissioner, Bengal.

2nd.—Weekly reports of the meteorology of Bengal and Assam, and particularly of the rainfall of Bengal.

Both the monthly and weekly reports have been published regularly throughout the year in the Calcutta Gazette. The date of publishing of the monthly reports has been in almost every case that of the second Gazette after the close of the month in question, while each Gazette has dealt with the weather statistics of the week up to and including the Friday previous to its issue.

Two other general reports of the meteorology of Bengal are also prepared—the first is the meteorological summary for the whole year prepared and submitted to Government in July for incorporation in the Bengal Administration Report. It was illustrated by maps showing the actual rainfall of the year, and its percentage variation from the normal. The second general report deals with the meteorology of the monsoon season only. This was prepared as usual, and it appeared in the Calcutta Gazette of 18th December 1889. A few copies of maps representing the actual monsoon rainfall, its variation from the normal, and the percentage of the actual rainfall as compared with that of normal years, were also prepared for submission with this report.

The Daily Bengal Report, which is published during the monsoon season, was issued regularly from the 27th of April to the 2nd of November. It dealt with the observations of 42 stations, and it was issued to 101 Government officers and to 15 private subscribers.

The Bay of Bengal Daily Weather Report of the Storm Signal Service was issued regularly throughout the year. The usual time at which the report is printed and ready for distribution is between 10-30 and 11 a.m., and it contains the observations made at 8 a.m. at 25 stations in India and Burma, and at two stations (Galle and Trincomallee) in Ceylon. In the latter case the observations are taken at 9-30 a m., and they consequently cannot be included in the report for the same day, but appear in that of the day following. The report is prepared and issued mainly to give information as to the state of the weather in the Bay of Bengal and over the surrounding coast areas, and to enable the Storm Signal Service to be worked effectively by the Reporter.

This report was supplied free to 43 Government officers and 23 subscribers, paying at the rate of Rs. 2 a month. The receipts from subscribers during the year have covered the cost of printing the reports in this office and of distributing them. There was a small balance at the end of the year 1889-90. This amount was kept in hand to meet urgent demands for repairs to the litho-

graphic presses, &c.

1 160

Previous to 1st January 1890 during the monsoon months, May to November, a daily chart was prepared showing the meteorological conditions obtaining over Bengal as communicated to the Calcutta office from the various observatories by telegram. But since the 1st January 1890 five separate charts graphically showing the various meteorological data are being prepared, and this work will be continuous for the whole year in future. These charts are drawn by hand and filed in the office for reference.

Special work.—A special report was prepared by Mr. Pedler giving a full account of the cyclonic storm in the Bay of Bengal of 21st to 28th August 1888. It was submitted to the Meteorological Reporter to the Government of India on 3rd August 1889, and published by the department as "Cyclone Memoir,

Part II," in March 1890.

There has been no change in the office establishment during the past year.

Under the very efficient superintendence of Babu
F. M. Basu work has gone on smoothly, and the opinion I have formed during the few months the office has been under my charge enables me fully to endorse the very favourable expressions which Mr. Pedler has recorded in previous reports.

METEOROLOGICAL OFFICE,

Calcutta, the 27th June 1890.

C. LITTLE,

Offg. Met.orological Reporter to the Government of Bengal.

#### Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 2nd August, 1890.

mean pressure, temperature, &c., are deduc	od for 24 ye	BELLE, OCr.	B Omce		35.75

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph. The maximum and minimum temperatures are obtained from self-registering thermometers. All the rmometers are verified, and the readings have been corrected to a standard constructed and verified at the w Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet ove the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV. and V of the official tables computed in Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

<sup>0,</sup> overcast; g, gloomy; d, drizzling rain; t, thunder; p, passing temporary showers.

N.B.— In the weekly report from 6th to 12th July 1890 road 82.2 for 82.8 as the mean temporature of the 7th July 1890.

In the weekly report from 13th to 19th July 1390 road 9.6 for 9.9 as the range of the 18th, and also road 80.6 for 83.6 as mean we:

CALCUTTA, the 5th August 1890.

SUMMARY OF THE METEUROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 1sr OF AUGUST 1890.

The important features of the weather of the past week have been the very heavy continuous rain in the northern districts, moderate general rain in the south of the province with the exception of Orissa, and the very cool weather for the season which has prevailed in all districts. At the commencement of the week gradients were steep over the Bay with a strong monsoon blowing, and ships arriving in port reported fresh to strong breezes with heavy rain squalls. The current from the Bay was confined to the eastern districts, as for several days a steady westerly wind was blowing over the western half of the province. The interaction of these two currents evidently caused the phenomenal rainfall which has been reported from Behor and North Bengal throughout the week, as amounts began to diminish when easterly winds recommenced and the Bay current was allowed to take its normal course up the Gangetic plain. Pressure has been generally above the normal, and changes have rarely exceeded a twentieth of an inch. At first there was a general small defect above a twentieth of an inch in Bohar only, and then the ordinary wind circulation provailed, except that directions were south or south-west in North Bengal and over the whole of South Behar, but the usual easterly winds continued at the western stations of North Behar. A brisk rise of pressure on the 27th over the western districts displaced the area of lowest pressure towards the east, and the inrush of westerly winds boome general, very heavy rain being received in East and North Bengal and Behar. Pressure continued rising on the 28th, but a general slow fall on the 29th, increasing in amount towards the north-west, gave a more normal distribution, and easterly winds set in over North Bengal and North Behar; the rainfall at the same time, though still heavy, beginning to diminish in quantity, except in the west of North Behar. On the 30th pressure fell briskly in Orissa and slowly over the rest of the province, a very uniform distribution resulting over the western half of the province, but in the Bay and East Bengal gradients were still steeper than usual. Winds had an easterly tendency except in Chutin Nagpur and Orissa where slow indravable was taking release towards the next waste corner of the and Orissa, where slow indraught was taking place towards the north-west corner of the Bay. Rainfall was very light except in the Darjeeling Hills and the west of North Behar; but even there amounts were only moderate. From the 30th till the end of the week a steady increase of pressure continued, normal monsoon winds were blowing in all districts, and temperature, though generally below the normal, was rising; while rainfall had ceased in Lower Bengal and was light, though general, elsewhere.

Pressure—Has never differed much from the normal, and has been more frequently above than below. The weekly means are hence above the normal at all stations, the difference being largest in South-West and East Bengal and Assam, where it is from two to threehundredths of an inch. In the other districts it is generally between one and two-hundredths of an inch. The only occasions of changes greater than, a twentieth of an inch were on the 27th, when it rose about '07 inch in the western districts; on the 28th at a few stations in the east of the province; on the 30th in Orissa, where pressure fell '06 inch; and on the

31st, when there was a rise of '06 inch in Assam.

Temperature—Fell steadily during the first three days, rose on the 29th, again fell on the 30th, and then rose till the end of the week. Changes have generally been moderate and fairly regular, and the distribution has been everywhere largely below the normal. The mean defect for the week in Behar is 3.6°, in Assam 3.3°, in North Bengal and Chutia Nag-

pur 2.4°, in East Bengal 1.8°, and in Orissa and South-West Bengal 1.6°.

Rainfail—As compared with the normal, has been very heavy in North Bengal and Behar, moderately heavy in East Bengal and South Behar, about normal in South-West Bengal and Chutia Nagpur, and considerably below the normal in Orissa. The fall in North Bengal is exactly double the normal, and in North Behar nearly two and a half times the normal; while in East Bengal, though the average fall is as heavy as in North Bengal, excess is only 1.5 inches. Rhinfall in the south-west corner of the province, and especially in Orissa, has been rather scattered, but elsewhere rain has fallen at almost every station on every day of the week, as shown by the average number of rainy days being 6.5 in all districts except Orissa and South-West Bengal. In Orissa the heaviest fall was 3.6 inches at Cuttack; in South-West Bengal a few stations received from 5 to 8 inches, but generally falls were between 2 and 5 inches, the heaviest being Berhampore 11.4 and Jhenidah 9.5 inches. In Furreedpore and Dacca falls were under 5 inches, but elsewhere in East Bengal they were generally between 5 and 10 inches. Chittagong received 22 and Cox's Bazar 15.4 inches. In North Bengal falls were between 5 and 10 inches, except in Julpigoreo, Cooch Behar, and the Darjeeling Hills. Siligoree and Darjeeling received about 22, Bhagatpore and Kurseong 16.5, Buxa 15, and Dinhatta 14 inches. The falls in North Behar were nearly always between 6 and 8 inches, Bagaha and Burhurwa, in the Chumparun district, receiving more than 12 inches. In Shahabad and Gya falls were generally under 5 inches, and in the other districts of South Behar between 5 and 7 inches; while in Chutia Nagpur amounts were more irregular, ranging from 2 to 8 inches. more irregular, ranging from 2 to 8 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 1st August 1890:—

J. H. GILLILAND,

For Meteorological Reporter to the Goot, of India.

METEOROLOGICAL OFFICE, INDIA;
The 4th August 1890.

#### MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal municipalities of Bengal for the week ending with Saturday, the 19th July 1890.

#### BIRTHS.

The births registered during the week ending with Saturday, the 19th July 1890, in twenty-seven principal towns of Bengal, correspond to an annual rate of 19·1 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 1·4 lower than the average rate of the corresponding week of the past five years, and is also lower than the rate of the corresponding week of any of the past five years except 1887—vide the figures below:—

	1885.	1886.	1687.	1888.	1889.	Weekly average of five years 1885-89.	1690,
Ratio of births per 1,000 of the population per unnum	22.8	21'4	10.6	19.3	22.2	20.2	19:1

The births registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population:—

	WEEKS	ENDING-		V	VERKS ENDIN	a <del>-</del>
Towns.	28th June 1890. 5th July 1890.	12th July 1820.	Towns.	28th June 1890.	5th July 1890. 12th July 1890.	19th July 1890.
Burdwan Midnapore Hughh and Chinsurah serampore Utterpara Howrah Bah Kishnagar Ranaghat Santipore Jasaore Jasaore Jasaore Jasaore Banjiling Ducca	19:8 16:8 20:1 17:0 18:1 26:3 27:5 25:5 9:4 87:7 13:2 21:2 14:0 10:5 17:6 18:0 17:6 6:1 34:2 34:5 14:9 9:7 11:0	25°2 29°4 18°1 32°8 18°7 51°4 28°3 17°2 14°3 28°1 35°5 17°0 25°1 18°0 12°0 10°5 19°3 6°1 18°4 18°4 23°6 37°0 22°2	Naraingauj Chittarong Chittarong Connillah Patus Gya Arrah Mozufferpore Durbhanga Chipra Bingulpore Wonklyr Purneah Poori	12:4 21:1 38:5 11:4 21:9 10:8 15:8 28:3 8:0 21:7 24:4 8:5 14:7	4·1 20°7 42·3 28°7 34·7 3°1 10·1 11·1 14·8 29° 14·4 23°1 13·4 18°5 17·0 12° 20°9 14·5 38° 17·3 3° 23°1 14°	7 7 7 7 15 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1

It will be seen that last week the highest birth-rate was returned from Monghyr (33.4), and the lowest from Bali (3.5).

#### DEATHS.

The deaths registered during the week under review correspond to an annual rate of 22 per 1,000 of the population. The rate of the week is 6.4 below the average rate of the corresponding week of the past five years, and also below the rate of the corresponding week of any of the past five years except 1888—ride the figures below:—

	1885.	1886.	1897.	1888.	1889.	Weekly average of five years 1885—89.	1800.
						·	' - ·
Ratio of deaths per 1,000 of the population per annum	89'7	24.8	27.2	20.1	30.1 -	28.4	22.0

The deaths registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population:—

It will be seen that last week the highest mortality occurred in the town of Utterpara (56.6), and the lowest in Kishnagar (3.8).

Measured by last week's mortality, the highest annual death-rates from the following registered death-causes were as follows:—

Chol	era.		Fever.		Bowel-com	p <b>lain/s.</b>	Other cas	1868.	
	Ratio per mille.			atio per mille.		Ratio per mille.			atio per mille.
Scrampore Arrah A Mozufferpore Midnapore Clupra Durbhanga Patna City	118 107 97 62 40 31 23	Jessoro		42.8	Midnapore	10-8	Serampore Poori Midnapore Gya	•••	19 6 18 9 17 0 15 7

The total mortality from the several registered death-causes in the twenty-seven principal towns amounted to 2.5 from cholera, against 3.7 per 1,000 in the preceding week; 4 from small-pox, against 5; 8 6 from fever, against the same ratio; 3.1 from bowel-complaints, against 2.1; 8 from injury, against 5; and 6.6 from other causes, against 6 in the preceding week.

The mortality of last week according to Ser, Class and Age was as follows:-

According to Sex.

According to Class.

According to Age.

	Ratio per mille.	Ratio per mille.		Ratio per mille.	r
Males Females Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population	29.5 Hindus Mahomedans		Under 1 year 1 and under 5 years 5 , 10 ,, 10 ,, 15 ,, 16 ,, 20 ,, 20 ,, 30 ,, 30 ,, 40 ,, 40 ,, 50 ,, 50 ,, 60 ,, 60 years and upwards	159 8 34 1 16 9 12 4 14 8 1 8 16 8 22 8 46 7	

Detailed information regarding the vital statistics of the twenty-seven towns dealt with in the above review will be found in the statement appended.

W. H. GREGG, Dip. Publ. Health, Camb.,

## REVISION OF APPENDIX A OF THE ACCOUNT RULES UNDER THE BENGAL MUNICIPAL ACT. 1884.

THE following is published for general information.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

The 12th August 1890.

Secretary to the Govt. of Bengal.

MUNICIPAL DEPARTMENT-MUNICIPAL-No. M 2R 8.

Dated Calcutta, the 4th August 1890.

From—H. J. S. Corron, Esq., Secretary to the Government of Bengal, To—All Commissioners of Divisions.

I am directed to forward to you, for communication to all municipalities in your Division, a copy of a letter from the Accountant-General, Bengal, No. LA dated 9th July 1890, together with its enclosure.

2. That enclosure is a revision of Appendix A to the Account Rules for municipalities issued under section 82 of the Act, and prescribes a revised procedure with suitable forms for adoption by municipalities in collecting taxes and rates. The revision of the Account Rules under section 82 is in progress, but it is not thought desirable to sanction any revised rules during the current

In the meantime, however, the revision in regard to procedure is complete, and the accompanying Appendix A, with the letter from the Accountante uing the changes made, is now circulated for the information and intinicipalities. Wherever possible, the new procedure should be ace, and it is the desire of Government that it should be everywith effect from the 1st April 1891.

receiver, the tax collector's daily register, and the progress register, providing for the transactions of two years only. The Lieutenant-Governor entirely concurs with the Accountant-General that it is necessary to enforce greater punctuality in dealing with municipal taxation. In many municipalities the accounts are now four or five years in arrear without any excuse or justification. It commonly happens that the executive is in arrear with taxation, and that the outstandings cannot be clearly ascertained and proved from the registers, and the audit therefore for practical purposes breaks down, a certified list of outstandings being obtained and accepted as the basis of audit. This unsatisfactory state of things is due principally to laxity in management, but also in some measure to certain imperfections which experience has detected in the taxation accounts. The object of the revised forms and procedure is to remedy these defects.

4. In the Lieutenant Governor's opinion not more than one complete year of arrears should ever be allowed. Taxes should always be collected or remitted with far greater promptitude than is now done. Municipalities which, like Ranchi and Kurseong, work in a business-like manner, never have more than two quarters' arrears, and very often not more than one; and if municipalities generally avail themselves of the means provided in sections 120 to 129 of the Act, there is no reason why taxation should ever be allowed to fall into arrear

for a long period.
5. The revision of assessments in municipalities is also a very important duty which the Lieutenant-Governor desires to take this opportunity of impressing on Municipal Commissioners. In some municipalities this duty is properly discharged, but in too many it is entirely neglected. Mr. Atkinson rightly points out that the new rules and forms should be accompanied by a revision of assessments, and the Lieutenant-Governor trusts that the immediate attention of Municipal Commissioners may be turned to this question, so that the revised assessment and new forms may be introduced together without delay.

#### APPENDIX A.

Procedure to be adopted by Municipalities in Bengal for the collection of taxes upon occupiers of holdings, rates upon the annual value of holdings, latrine rates, lighting rates and water rates.

GENERAL OUTLINE OF THE TAXATION ACCOUNTS.

1. The municipality is divided into taxation circles, and these are sub-divided into mohallas, streets, roads, &c., according to convenience.

A complete and separate set of registers is maintained for each circle, and from the circle

registers the results are compiled for the whole municipality.

Circle Accounts.—The Demand Registers show the demand to be made against each rate-payer. The totals are brought on to Abstracts. Subsequent remissions in respect of the next demand are entered in the Remission Registers, whence the details pass into the Demand Registers, and the totals into the Abstracts in correction of the demand previously shown therein.

Additions to the demand are similarly treated through the Enhancement Registers. therein. Additions to the demand are similarly treated through the Enhancement Registers.

Bills made out are registered and are satisfied by payment or remission in whole or in part, payments being posted into the Bill Registers from the sircar's daily collection accounts,

and remissions from the Remission Registers.

Compilation of the municipal accounts.—The total municipal demand is compiled from the circle abstracts into an abstract for the whole municipality, and passes into the tax-darogali's daily register for the quarter concerned. There will be as many of these tax-darogali's daily registers in use as there are quarters in respect of which there are bills outstanding. rulo 47.

Against each quarter's demand are writton up daily (a) the payments in respect of that demand taken from the soveral sirear's collection accounts; (b) the remissions from the Remis-

sion Registers; and (c) the outstandings.

Lastly, the daily rogisters are abstracted and a monthly progress statement is worked out for each sirear, so that the outstandings for each quarter can be checked and compared with the undelivored receipts in the hands of the collecting agency, and all arrears can be promptly

dealt with either by enforcing payment or romitting the amounts.

N.B.—It will be observed that the Remission Registors, the sircar's daily registers, and the monthly progress statements provide for transactions relating to the current and previous year only. Except under very special and unusual circumstances, taxation should never be allowed to fall into arrears extending over more than one complete year, and municipalities which deal promptly with taxation seldom have more than two quarters' arrears or three at most.

Rules 51 to 56 below prescribe the procedure to be adopted by the Municipal Commissioners in watching the taxation accounts, in reporting upon arrears and in olearing the

registers.

Division of the Municipal area into Circles.

2. The municipality shall be divided into collecting circles by a calculation based on the area of ground to be traversed and the number of bills to be delivered. Each circle shall be numbered, and to each circle shall be appointed a sirear. The collecting circles should be as compact as possible, and so arranged as to distribute the work of tax collecting evenly among No collecting circle shall contain more houses than can be visited by one sircar during the working days of a month.

3. The circles having been determined, and the assessment list, or the valuation and rating list prescribed by section 112 of the Act having been published, the registers of the

municipal rates and taxes shall be opened.

4. Whenever a municipality levies a house-rate upon owners, and also a rate or rates upon occupiers for water, latrines or lighting, a double set of registers shall be opened, i.e., one set for owners and the other for occupiers.

5. The procedure of opening and maintaining both of these sets of registers is alike. For the sake of brevity therefore the procedure as regards owner's house-rate only is described in the following rules. But the rules apply equally to the house tax and to rates leviable from

occupiers.

6. Similarly, to avoid duplication the specimen forms annexed have been drawn out and headed as for owner's house-rate only, but with slight and obvious verbal modifications they are equally adapted to the house tax, and to the water, latrine, and lighting-rates which are leviable from occupiers, and the necessary additional columns must of course be introduced when more than one tax or rate is levied from occupiers.

7. The following is a list of the forms and registers which shall be kept:—
Demand Registers by circlos.

Demand Abstracts by circles.

Demand abstract for the whole municipality.

Bill forms.

Bill Registers by circles.

Sirear's Collection Registers by oircles. Tax-darogah's Daily Registers by quarters.

Abstracts of Tax-darogah's Daily Registers, by quarters. Progress Statements by circles.

Petition Register. [This may also, if convenient, be kept by circles.] Remission Rogisters by circles.

Enhancement Registers by circles.

#### THE DEMAND REGISTERS.

#### The Demand Registers shall be in Form A.

FORM A. CIRCLE No.

										1	1	

a separate volume shall be assigned to each collecting circle, and a sub-division of the volume to each mobulla, road or street as may be most convenient: a sufficient space being left below each sub-division for subsequent entries of new holdings.

N. B.—The same sub-divisions in the same order shall be followed in posting the Bill,

the Remission and the Enhancement Registers.

9. Columns 1 to 5 shall be filled up from the rating list; and a space of 21 or 3 inches

shall be left between each name in order to provide room for posting revisions.

10. As petitions against the rating list come in [see rules 19 and 20 below], their numbers and date shall be noted in column 13, "Remarks," in order to keep the entries to be made in columns 6 and 7 open to the latest convenient date.

11. Columns 6 and 7 shall be filled up as follows:—

First.—In respect of those names against which there is no reference to petitions in column 13, by entering the same amounts as are shown in columns 4 and 5 respectively.

Secondly.—In respect of those names against which the receipt of a petition has been noted, by entering the amounts shown in the orders passed by the Commissioners of Appeal, or, if no orders have been passed in time, the amounts shown in columns 4 and 5 respectively.

12. Columns 6 and 7 shall be totalled by sub-divisions. The Vice-Chairman, the Secre-

tary, or a Commissioner appointed for the purpose, shall then carefully compare the entries in columns 1 to 7 with the rating list, and with the orders of the Commissioners of Appeal, and shall sign his name below oach sub-divisional total in token of having made this comparison. Each sub-divisional total shown in column 7 shall then be posted into the quarterly demand abstract of the circle in Form B, which shall be prepared on the opening pages of each Demand Register.

13. Columns 8 to 11 shall be filled up from columns 3, 25, and 26 of the Remission

Register, or from columns 2, 8, and 9 of the Enhancement Register, as the case may be.

14. The Vice-Chairman shall take care that the Demand Registers are free from erasures, and no alteration shall be made in them except under the initials of the Vice-Chairman or other officer empowerd to sign for him.

Abstract of Demand for each Circle.

15. The abstract shall be prepared in the opening pages of each Demand Register. It shall be in Form B.

FOLM B.

CIRCLE No.

Quarterly Abstract of the demand on account of Owner's House-rate during the currency of the Valuation published in the year.....

22. Remissions are of two kinds, viz.—

Those in respect of bills made out, whether actually served or not.

(b) Those in respect of the demand next to be made.

Two separate sets of columns are therefore provided, viz., Columns 9 to 24 for bills drawn, and columns 25 and 26 for future rate. The remissions shown in columns 9 to 24 shall be posted into the Bill Registers in detail, and the daily total of these remissions shall be posted into the tax-darogah's Daily Registers, Form J, for the circles and quarters concerned.

The amounts in columns 25 and 26 shall be posted in detail into the Demand Register,

Form A.

The quarterly total of column 28 shall be posted into the Circle Demand Abstract,

Form B.

Whenever a remission is granted in respect of a bill made out, the counterfoil of the 23. bill and also its red receipt shall be placed, together with the Remission Register, before the Vice-Chairman.

If the demand has been entirely remitted, both the counterfoil of the bill and the red recoipt shall be stamped "Cancelled" in large type, and the fact of cancellation attested by the initials of the Vice-Chairman.

If the demand has been reduced, the necessary correction shall be made in the counterfoil of the bill and in the red receipt, and attested by the initials of the Vice-Chairman.

#### ENHANCEMENT REGISTER.

24. All new assessments made after the publication of the list under section 112, and all enhancements of the original assessments, shall be posted in the Enhancement Register, Form F, under the initials of the Vice-Chairman or Secretary.

28. An estimate shall be made of the number of forms likely to be required for a year's consumption, and arrangements shall be made with the Superintendent of Government Printing at Calcutta to supply the bill forms printed in English, or in the vernacular, or both, the complete year's supply being consecutively numbered, and stitched in books of convenient size (say each containing 100 forms).

The full year's supply need not of course be obtained at once, but by means of two or more

indents, so as to ensure the year's supply agreeing very closely with the actual requirements.

29. The surplus forms, which will be very few in number if proper care be taken in making the estimate and indents, shall be destroyed by the Vice-Chairman at the end of each year.

On receipt of the forms from the press, they shall be counted under the supervision of the Vice-Chairman or Secretary. On the fly leaf or cover of each book shall be noted the

number of forms it contains attested by the initials of the person who counted them.

31. The Vice-Chairman shall keep the bill forms in his personal custody and under look He shall draw up written instructions prescribing in minute detail the procedure to be adopted in registering the receipt and issue of the forms, in supervising the issue of forms

to the bill writers, and in proving that they deliver back every bill form which they have been entrusted to fill up, and in proving the issue of the completed bills to the sircars.

32. The Vice-Chairman shall be especially and primarily responsible for preventing the preparation of fraudulent bills, as well as for closely and constantly watching and enforcing the prompt realisation or obtaining the speedy remission of all bills which bear his signature.

33. The bill forms shall be filled up from the Demand Registers, and the Vice-Chairman shall issue written instructions regarding the comparison of the Bills with the Demand Register before they are brought to be signed.

34. The bills shall be signed or stamped with a fac simile signature by the Chairman, Vice-Chairman Secretary, or the Commissioner for the ward to which the bills belong and the

Vice-Chairman, Secretary, or the Commissioner for the ward to which the bills belong, and the signing officer shall satisfy himself that the comparison of the bills with the Demand Register has been carefully made.

35. If a fac simile stamp be used, it shall always be kept in the personal custody of the officer whose signature it represents, and shall never be used except in his presence and actually

#### BILL REGISTER.

36. The signed bills shall be entered in the Bill Registers, Form H. The form requires no explanation, but it should be noted that in the case of bills paid in full a tick mark may be entered instead of the amount in columns 6, 12, 18 and 24.

As-stated in rule 8, the sub-divisions of each Bill Register will be identical with

those of the corresponding Demand Register.

38. Each sub-division shall be totalled every quarter under the initials of the Vice-Chairman or Scoretary, and shall be compared and agreed with the figure in the Circle Demand Abstract, Form B, which shall be signed by the Vice-Chairman in token of agreement.

Service or Bills.

39. The bills having been made over to the collecting sircars in accordance with the procedure prescribed by the Vice-Chairman under rule 31, each sircar shall commence the service

of the bills on the first day of the quarter.

40. If the tax be paid upon presentation of the bill, the sireer shall sign the red receipt, shall hand the bill together with the receipt to the tax-payer, and shall note the date of payment in the counterfoil of the bill, and he shall also enter the transaction in his Daily Register of collections, Form I.

This note book may conveniently be of foolscap size divided lengthways, the left hand page being assigned for columns 1 and 2, and the right hand page for columns 3 to 7.

42. If the tax be not paid upon presentation of the bill, the sircar shall separate the bill from the receipt and serve the bill in the manner prescribed in section 356 of the Act. He shall at the same time, whenever possible, inform the assessee on what date he will again demand payment.

demand payment.
43. The sirear shall return to the Municipal Office either every day, or, if so permitted by the Vice-Chairman, every alternate day, and shall deliver to the tax-darogah all the money he has collected, together with his daily register duly written up in Form I, and the bill books relating thereto.

44. The tax-darogah shall then check the sirear's account by comparing the amounts shown in the register with the bill book counterfoils from which the red receipts are missing.

He shall then total the register and see that it corresponds with the money delivered to him by the sirear. If all is in order, he shall initial the register in token of having received the money.

the money.

45. If the sircar takes his daily register with him on his rounds, he shall be provided with two copies, which he shall use alternately, and he shall leave one copy in the office to enable the tax-darogah to post his books.

46. The entries in the Sircars' Daily Registers shall then be posted into the Bill Registers, and the tax-darogah shall post the total amount received from each sircar into his cash-book as provided in Part I of the Account Rules.

47. The tax-darogah shall then post his Daily Registers of Collections, Remissions and Outstandings in Form J.

N. B.—There will be one of these registers in use for each quarter, the demand for which has not been wholly cleared.

Salance outstanding for each quarter					}				
	1		1	.1	l	1	J	1	

51. The progress statements for each circle shall be verified by the Vice-Chairman or Secretary and the Accountant, and shall be laid before the Commissioners each month at their ordinary monthly meeting held under section 38 of the Act.

52. It will be unnecessary to compile the circle progress statements into a combined statement for the whole municipality every month, but it shall be done at least twice a year,

and as often as the Commissioners may require it.

53. The progress statement of each circle shall be carefully scrutinised by the Commissioners at their monthly meeting. Whenever any progress statement shows outstandings extending over three complete quarters, the Commissioners shall cause a detailed list to be prepared of the bills outstanding for more than a complete half-year.

54. This list shall be prepared, circle by circle, from the Bill Registers by a clerk unconnected with the taxation department, if possible, and shall be verified by comparison with the undelivered receipts by the Secretary or other officer nominated to the duty. If the circle totals do not agree with those shown in the progress statements, a Committee shall be appointed to audit the taxation accounts and to reconcile the difference. If this difference be not reconciled within fifteen days, the Municipal Commissioners shall submit to the Magistrate a report stating the amount of the difference, the causes to which it is attributed, and the steps taken to reconcile it.

55. The Commissioners shall proceed to deal with the outstandings either by collecting or remitting the amounts. Every year, in the month of June, the Commissioners shall submit a taxation report through the Magistrate to the Commissioner of the Division in the form of a combined progress statement for the whole municipality, and if there are outstandings extending further back than the first quarter of the previous year, full explanation shall be given as to why these taxes have neither been collected nor remitted, and the Commissioner of the Division shall forward these explanations to Government with his

remarks.

The outstandings mentioned in rule 55 will be dealt with as a separate arrear account and worked entirely from the lists. i.e., in the month of June, in preparing this list of old outstandings from the Bill Registers, the letter A in blue pencil shall be entered in the Bill Registers against each bill transferred to the arrear list, and the total amount transferred shall

be noted at the foot of the circle progress statement concerned.

All subsequent realisations or remissions of the bills so transferred shall be entered in the list only, and not in the Bill Registers or Remission Registers, which provide for the current and last year's transactions only. The sircars shall set apart separate pages in their collection register or note-book for the entry of these arrear collections. The general registers will thus be wholly cleared, and shall not be used for the record of what have become practically dead accounts.

SECOND SERVICE OF BILLS, NOTICES OF DEMAND AND DISTRESS WARRANTS.

On the first day of the second month of the quarter, the sirear shall again take round the undelivered receipts, together with notices of demand, which shall in the interval have been attached to the receipts by the tax-darogah. If the demand is then not paid, the notices of demand shall be left with the assessees, and the undelivered receipts shall be returned to the tax-darogah for the preparation of distress warrants with a note of the date on which the notices of demand were served. When fifteen days shall have elapsed after the delivery of a notice of demand, the sircar shall proceed with a warrant of distress, and if the demand as well as the fee prescribed by law for the warrant expenses be not then satisfied, he shall make an attachment of the defaulter's property, preparing an inventory of all goods and chattels so attached, and proclaiming a notice of sale by beat of drum.

BILLS PAID AT OFFICE. 58. In the event of any unpaid bill, of which the counterfoil and red receipt are in the oustody of the tax-darogah being brought to the Municipal Office and there satisfied, the tax-darogah shall deal with the transaction precisely as the collecting sircar does in ordinary course, entering the amount in the Sircar's Daily Register, and noting the fact that the bill has been paid at office in the remark column as provided in the form.

COLLECTION OF TAXES AT THE MUNICIPAL OFFICE.

59. An alternative procedure is suggested, the distinctive feature of which consists in the refusal to permit the sircars to collect any money. Their duty will be strictly limited to serving the bills and notices of demand upon the assessees in the manner prescribed in the preceding rules. But each bill will contain a caution against the payment of any money to the server of the bill, and a direction to the rate-payer to proceed to the Municipal Office and pay the amount of the bill there.

60. At the end of each week the serving peons will bring back the bill-books and receipts to the Municipal Office with a certificate that every bill missing from the book has been

properly served upon the assessee.

61. The tax-darogah, assisted by a sufficient number of clerks, should remain in the Municipal Office at a counter during certain fixed hours of each day, and upon presentation of a bill by a tax-payer he should receive the amount and hand to the tax-payer the corresponding

The amount so received should be entered in a Daily Receipt Register, Form I, one such register being used for each kind of rate or tax. A separate register or set of

registers should of course be supplied to each receiving clerk.

### No. 198Mne., dated Calcutta, the 4th August 1890.

The following report of the 13th quarterly inspection of the Dock Works at Kidderpore, which are being carried out by the Commissioners of the Port of Calcutta, is published for general information.

J. M. McNEILE, Col., R.E., Secretary to the Government of Bengal.

### QUARTERLY INSPECTION OF THE KIDDERPORE DOOK WORKS.

Dated Calcutta, the 31st July 1890.

From—Major A. D. McArthur, R.E., and W. Connan, Esq., To—The Secretary to the Government of Bengal, Public Works Department.

Adverting to the orders of the Government of Bengal, communicated with your letter No. 1874M. of the 19th instant, we have the honour to report that the 13th quarterly inspection of the Dock Works was made on the 26th instant.

13th quarterly inspection of the Dock Works was made on the 26th instant.

2. The usual tabular statement and the index plan showing the work done during the quarter, ending 30th June last, and the total amount executed from the commencement which have been prepared by the Superintending Engineer of the Dock Works, are already with Government. The present state of the various works under construction is reported in the following paragraphs:—

Sixty feet Lock.—This work is completed with the exception of the riverside revetments; about 13.7 per cent. of excavation and 2.6 per cent. of masonry work still remains to be done. The hanging of the riverside gates is

almost completed.

Eighty feet Entrance.—The hanging of the gates is finished, and, with the exception of the riverside revetments, the work is almost completed. About 21.0 per cent. of excavation remains to be done.

Double entrance to Dock No. 1.—The work is almost completed, the gates being hung, and the completion of the erection of the swing bridge only

remaining.

Tidal Basin.—The quay wall foundation has now been completed, and only a small quantity of the superstructure remains to be done; about 7.4 per cent. of masonry still remains.

Graving Dock.—All foundations are in; earthwork completed and only 4.3 per cent. of masonry remains to be done. The foundations of the engine-house and chimney shaft are also in.

Government Graving Dock.—Earthwork completed, foundations all in and

two-thirds of the masonry done.

Dock No. 1.—The quay wall foundations and masonry all completed, with the exception of coping; 3,771,383 c.ft. of excavation is completed, and about 14.0 per cent. remains to be done. Considering the state of the work, it is expected that the earthwork will be completed during the current quarter.

Boat Canal.—During the quarter the excavation of this work was proceeded with, and about 1,978,618 c.ft. of earthwork executed, thus leaving only 25·1 per cent. of excavation to be done. The lift-lock is finished with the exception of gate erection. Main pumping station is well in hand. The bridges are practically complete with the exception of the approaches. The foundation of the Chetla Hât lock is in a forward state.

of the Chetla Hat lock is in a forward state.

Subsidiary Works.—The chimney, shaft and engine-houses are complete, and the engine erected. The accumulator tower is bordering on completion and the erection of the accumulator almost complete. The jetty heads to the entrance are well in hand, and good progress has been made with the foundations of six cargo sheds.

Expenditure.—The total expenditure up to end of the quarter under review is reported to be Rs. 1,85,97,963, of which Rs. 1,59,95,278 represent outlay on works and Rs. 26,02,685 on account of land

works and Rs. 26,02,685 on account of land.

Sanitary.—The health of the workpeople was not so satisfactory as in the previous quarter. The average number of coolies employed was 7,579, among whom there were 19.0 deaths, thus showing a death-rate of 29.30 per annum.

whom there were 19.0 deaths, thus showing a death-rate of 29.30 per annum.

General Remarks.—We are of opinion that fair progress has been made with the works, and that so far as we have been able to judge from a quarterly inspection the character of the work was satisfactory, and the quantity of the work done was all that could be desired, promising completion at an early date.

	18	Dacca	Aug	. <b>v</b> ,	90	4-62	Weather—mostly cloudy with gleams of sunshine at intervals. Jute and assepaddy being harvested. Aus has suffered to some extent owing to flood.
DAGGA DIVN.	19	Furreedpur	23	9,	<b>'9</b> 0	1.00	Amus paddy thriving. Price of common rice 13 to 15 seers per ruppe.  Weather—seasonable. River has risen higher than the last year's highest flood level, and has submerged the growing crops in the thams of Kotwali, Ainpore, and Bhangs. River is now going down slowly to the great relief of the people. Aus had been harvested for the most part before the waters rose, and the damage done to it will not probably be more than four annas. Jute crop has been good, but its price is low, about Rs. 2-4 per maund. Amus has not been so damaged as it was anticipated at first. The crops in Madaripur are fair, and such is also nearly the case in Goalunda. Want of fodder is severely felt. Price of rice stationary.
	20	Backergunge	"	9,	<b>19</b> 0	2·17	Weathor—seasonable. State of standing crops generally good, but some damage has been done to amun seedlings by floods. Common rice selling at about 134 seers por rupee.
(	91	Mymensingh	,,	9,	<b>'9</b> 0	2·14	Usual monsoon weather with slight rainfall. In the Tangall subdivision the crops are being damaged by high flood. In other parts of the district prospects continue favourable on the whoie. Common rice sells at 13 seers 9 chittacks per rupee.
E.	22	Chittagong	,,	9,	'90	2.36	Weather—seasonable. Prospect of aus fair. Lands are still being prepared for amus. Rice selling at 16 seers per rupee.
Сигтаволе Ватя	28	Noakholly	,,	9,	<b>'9</b> 0	3·12	Weather—seasonable. Aus crop is being reaped and harvested. Transplantation of amus going on. Price of amus rice 13 seers and of aus rice 16 seers per rupee at Feny subdivision.
CHILL	24	Tipperala	,,	9,	'90	2.54	Weather—seasonable. Aus paddy is being cut. Prospects of amun paddy good.  Jute cutting and steeping going on. The flood is high at Brahmanheriah.  No injury to paddy crop has been yet caused.
1	25	Chittagong Hill Tracts.	**	8,	'90	7.04	Weather—cloudy and rainy throughout the week, except on the 2nd. Early jum paddy ripening. Cetten progressing. Transplanting on low lands commenced. Common rice being sold at 12 seers 5 chittacks por rupee.
		Hill Tipperah				<b>.</b>	Report not received.

PATMA DIVE.	26 27	Patna Barh Behar Gya	31 31	9, 9,	  90	2·16 3·47	Weather—hot. Transplantation of paddy continues. Prospects of bhadoi crops not favourable owing to excessive rain. Much injury reported to have been done to them in the Barh subdivision. Prices of food-grains stationary. Weather—hot and cloudy. Transplantation of paddy going on. Bhadoi injured by excessive rain. Sugarcane doing well. Prices of food-grains
	28	Shahabad Buxar Sasseram	1)	9,	'90 	5·92 4·32 1·41	almost stationary.  Weather—cool and stuffy alternately; some sunstanc. Bhados is almost all gone in the Sudder and Buxar subdivisions, and partially damaged in the Sasseram and Bhabuah subdivisions. Prospects of paddy good. Prices stationary.
	29	Bhabuah Durbhungs Madhubani	,,	9,	'90 	1·84 4·05 4·11	Bright sunshine in the latter part of the week. Prospects of the <i>bhadoi</i> and aghani crops continue favourable except where damage has been done by floods. A break in the rains for a few days would do good to the crops. Indigo manufacture still going on. Prices romain stationary.
P.	80	Mosufferpur Hajipur	,,	9,	'90 	5·64 3·13	A good deal of rain has fallen during the week, but there have been two clear, dry days, which have effected some improvement in the prospects of the crops. The Bur Gundak which has overflowed its banks, and submerged a considerable area of crops, is now falling. The same of done by floods in all parts of the district is less serious than in the part year.
	31	Sarun	,,	9.	<b>'9</b> 0	2.88	Weather—finer with some sun. Bhadoi crops almost all gone for want of sun and from excessive rain. Heavy floods have scriously damaged the rice and indigo crops. Extent of damage cannot at present be stated.
(	82	Chumparun Betliah	"	9,	'90 	2·22 3·58	Weather—cloudy off and on; hot with east wind. Sunshine after heavy and continuous rainfall has been beneficial to the <i>bhadoi</i> crops, some of which have been damaged to some extent. Transplantation of paddy nearly completed. Indigo manufacture of first cutting finished.
ſ	33	Monghyr	,,	9,	<b>'9</b> 0	0·75 2·00	Easterly winds, less rain and more sun. Floods have damaged the bhadoi crops, especially along the Ganges. Indian-corn promises well.
	84	Beguserai Bhaguipur	**	9,	<b>'9</b> 0	1.21	Weather-clear. Slight rain. Previous heavy rain and rising of the river
DIVN.		Hanka Mudhopura Soopool			 	3·08 2·52 2·11	have done some damage to marka and makai. Prospects of paddy good, and there has been sunshine for the last 3 or 4 days.
BRAGULFORR DIVE.	35	Purneab Kishengunge Arrareah	**	9,	'90	1·12 7·24 4·92	Weather—sunny with breezos. Bhadoi harvest commencing with favourable prospects. Jute harvest also commencing, but some damage done by excessive rain. Transplanting of winter rice continues. Some injury done by floods in the north-east and centre of the district.
Вв	86	Maldah Shihgunge Gajole	,,	9,		2·30 2·33 3·43	Weather—hot and cloudy with occasional showers. Bladot is being harvested. A great deal has been damaged by immediation. Transplantation of winter-rice going on. This crop also has suffered to some extent from inundation. Jute is being cut. Common rice selling at from 11 to 17 seers perfrupec.
	87	Sonthal Perghs. Dooghur Godda Jamtara Pakour Rajmehal	**	9,	'90 	6·56 2·30 2·73 1·12 5·25 4·75	Ordinary monsoon weather. Paddy transplantation almost linished; prospects excellent. Makai somewhat damaged by excessive rain, and a good deal by early rise of the river in Rajmehal.

No.	District <b>e</b> n retur		of	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects
RISSA	•				
\$8	Cuttaok	Aug.	9, '9	1.89	Rainfall during they week quite insufficient. Transplanting of sarad paddy i many places interfered with for want of sufficient rainfall. In Binjharpu Chakla of the Jajpur subdivision, sarad paddy has been attacked by insects.
89	Pooree Khoorda Banpur	>>	7, <b>'9</b> (	1·29 0·79 8·34	Weather—reasonable. Puddling, weeding, and 'transplanting of sarad rice orongoing on. Beals' or early rice in ear. Miscellaneous crops doing well Prices of common rice vary from 18 seers 6 chittacks to 21 seers per rupe in the Sudder subdivision.
` 40 [OTA	Balasore NAGPORE.	"	9, *90	2.65	Weather—more seasonable than in previous week. Crops suffered from was of rain in the latter part of July. Prospects somewhat better now. Number of coolies on reliaf-works 38.
Sout	h.West Frontier	Agenc	y.		· ·
<b>41</b>	Hazaribagh	Aug.	9, ′,90	2.62	Weather—seasonable; fair at intervals. Moderate rainfall. Transplantation of paddy progressing vizorously. All crops doings, well except Indian-corwhich has been damaged by excessive rain. Prices a bout stationary.
42	Lohardugga Palamuw (up	to 4th	9, '9( Aug.)	2·80 2·55	Weather—seasonable. Transplantation of winter rice is being carried on active ly overywhere. Prospect of bhados crop continue s good. No materichange in prices.
48	Singbhoom	Aug.	9, '90	0.78	Rain holding off too long. Heavy rain urgently needed. Rice crop suffering for want of sufficient rain. Bhodo: crops are, however, in very satisfacto condition. Rice selling at from 16 to 24 seers per rupee except at Manharpur in Sarandha, where it has risen to 12 seers per rupee.
4	Maubhoom Govindpore	22	9, '90	0·69 0·70	Weather—seasonable. Slight rain fell during the week, but it able to the crops. Transplantation about three-fourths finin, thed. Prospec of crops good. Ordinary rice selling at from 15 to 20 seers per rupee.

### SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOBOLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JULY 1890.

THE chief peculiarities in the weather of July have been-

1. The uniformly low pressure which obtained during the greater part of the month, the only occasion when excess continued for any considerable time being during the last week, when there was excess of from two to four hundredths of an inch in the southern districts, and of less than two hundredths in North Bengal, Behar and Chutia Nagpur. The mean defect for the month was generally between '01 inch and '02 inch in Lower Bengal, and between '02 inch and '05 inch in the northern districts.

2. Low temperature has prevailed. The month commenced with almost normal temperature, but after the first week there was always a considerable deficiency, especially in the northern half of the province, where unusually heavy rain has been falling. Defect increased towards the end of the month, and during the last week varied from 1.6° in Orissa to 3.6° in North Behar. The mean defect for the menth is therefore considerable, being between '6' and 1' in Lower Bengal and about 1.5' in the northern half.

3. Ordinary monsoen weather has prevailed with practically no intervals of disturbed weather. Rain has fallen in Orissa and South West Bengal on about the normal number of days, but in Behar and North Bengal the number is from four to six above the average, while the amount of rain received has been very largely above the normal in the Northern districts, especially over the Himalayas, and considerably above in the other districts, except Orissa and South-West Bengal.

4. The absence of the small cyclonic storms which usually form during the rainy season has been very marked, one depression occurring at the beginning of the month and

another very unimportant whirl about the middle.

Cyclonic storm from June, 28th, to July, 2nd.—The depression began to form on June, 28th, and then appeared as a local shallow low pressure area over Orissa and Scuth-West Bengal, the lowest pressure within it being 29.585 inches at Balasore. Westerly winds were blowing at Cuttack and False Point, and the easterly element in directions had become more pronunced in Scuth-West Bengal, while rainfall was only light and local in Lower Bengal. On the following day pressure fell briskly everywhere; the cyclonic circulation became more distinct and the centre was still over the land between Balasore and Calcutta. After this a somewhat rapid deepening set in to the south-east of the depression, the largest changes being in Arakan, and a trough of low pressure extended from the Bay in a northerly direction. The centre was to the east of False Point and south of Sauger Island, and stormy weather, with heavy rain squalls, prevailed over the northern half of the Bay, but ever the greater part of Bengal rainfall had almost ceased. On the 1st of July the storm had developed, the greatest difference of pressure from the south-east to north-west of the Bay being nearly half an inch Gradients were therefore steeper, and a slow westerly motion was taking the depression towards the Orissa coast, so as to pass near False Point. The storm area crossed the coast during the evening of this day, and after the passage of the centre, when pressure at False Point fell to 29 09 inches, a southerly gale blew at all the coast stations. A very arrid rise of pressure followed immediately afterwards not only in the north-west of the rapid rise of pressure followed immediately afterwards, not only in the north-west of the Bay, but over the whole of Bengal, and from being largely below the normal an excess of about two-tenths of an inch accumulated in 28 hours. From about 9 r.m. on the 1st, when the storm centre was near False Point, to 8 A.M. on the 2nd, pressure rose about half an inch, and in the eastern districts of Bengal the rise amounted to nearly two tenths of an inch. These rapid changes of pressure seem to have had an important influence in preventing the in-rush of moist southerly winds, which usually follows depressions of even less intensity than this ever the western districts of Bengal, as a westerly current commenced and shortly became general ever the whole province, comparatively fine weather prevailing from the 3rd to the 5th.

After the rapid rise of pressure, which continued till the 4th, a slow steady fall set in After the rapid rise of pressure, which continued till the 4th, a slow steady fall set in over the whole province, and lowest pressure being in North Bengal and gradients rather steep, strong south-westerly winds blew at the head of the Bay and in Lower Bengal. Westerly winds blew for a day or two in the northern districts, but by the 7th easterly directions again prevailed, in consequence of the displacement of the area of lowest pressure towards the west. From this date till the 18th ordinary monsoon weather was unbroken, and is noteworthy only because of the weak mossoon which blew in the west of the Bay, while in East and North Bengal and Behar very heavy rain fell almost without interruption. Falls were usually heavy in the Darieeling Hills and adjacent plains without interruption. Falls were usually heavy in the Darjeeling Hills and adjacent plains from the 14th to the 18th, with the exception of the 16th. The absence of rain in the western districts was probably due to the comparatively dry westerly current which had been blowing from entral India, generally extending as far east as the centre of South West Bengal, and on the 17th as far as Rungpore and Dhubri.

From the 19th till nearly the end of the month conditions were influenced by the shallow depression which, commencing to form in the north-west corner of the Bay on that day, moved towards the mouth of the Hocghly, and thence in a north-westerly direction over Chutia Nagpur. On the 20th the centre was close to Saugor Island, and pressure was under 29.4 inches; on the 21st the area of lewest pressure lay to the west of Burdwan and was almost unchanged in intensity from the previous day; while by 8 A.M. on the following day it had passed out of the province and lay well to the west of Hazaribagh and Gya. It remained in the North-Western Provinces till the 24th when it filled up, the trough of low pressure at the same time closing up towards the Himalayas, and a steady south-westerly current blew over the whole province, giving heavy rain in all districts. On the 28th pressure fell briskly, and the distribution becoming more normal and uniform, easterly winds

again set in and continued till the end of the month.

Strength of the monsoon.—The strength of the monsoon current blowing from the Bay over Bengal from year to year can only be judged by the wind velocities at the coast stations. In the table below are given the means of the actual daily wind velocities for July 1889 and 1890, compared with the normal values for the same month at representative stations on or near the coast line from Akyab to Gopalpore, at which wind observations have been taken for a sufficient length of time to give reliable averages. It will be seen that the only stations where velocity is under the average are Chittagong and Calcutta, and that the difference for these two is small while at all the others, except Akyab, there has been a large excess, amounting at Gopalpore to 110 miles per day and at Saugor Island to 96 miles. The strength of the monsoon current during this year has so far, therefore, been considerably above that of average years.

STATIONS.	Actual average wind velocity for July 1889.	Actual average wind velocity for July 189".	Normal wind velocity in July.	Variation of wind velocity for July 1890 from the normal.
Akyab Chittagong Dacca Calcutta Saugor Island False Point Gopalpur	Miles per day. 120 132 135 91 408 303 348	Miles per day. 120 149 202 102 502 324 410	Miles per day. 105 162 145 130 4 6 280 800	+ 15 13 + 57 28 + 96 + 44 +110

Pressure.—Changes were very large at the beginning of the month, and on the 1st a defect of nearly a quarter of an inch had accumulated in the neighbourhood of the depression. On the 2nd a very rapid rise was general in all districts except South Behar, exceeding 2 inch in parts of Assam and East Bengal and 15 inch in Orissa, South-West Bengal, and North Bengal. On the 3rd the rise was still more rapid in Orissa and Chutia Nagpur, and varied from ·22 inch to ·28 inch, but in the other districts it was much smaller and practically zero in North Bengal and Assam. On the 4th a very rapid fall prevailed, the resulting distribution being almost normal. As these rapid changes counterbalanced each other, the mean pressure during these days did not differ much from the normal, and as ordinary small oscillations followed till the middle of the month, large differences from the normal did not again occur. A rapid fall occurred on the 17th, followed by a slow steady rise for some days. after which small upward and downward changes rarely exceeding a twentieth of an inch, alternated till the end of the month. The means for the month are very nearly normal in East Bengal, and below the normal in the other districts by amounts varying from one to four hundredths of an inch.

Temperature—During the first five days was two or three degrees above the normal over the greater part of the province, but after that it has been almost without a break, considerably below in the northern districts, and slightly below in Lower Bengal except in Orisea and the adjacent part of South-West Bengal where, owing to the more scattered rainfall, temperature was at times slightly in excess. Defect in North Bengal and North Behar was very large at times, and during the last week the day temperatures were unusually low. the difference from the normal maximum temperature being at times very little under 10°, while defect in mean temperature was from 4° to 6°. On the 28th maximum temperature at Purneah was 10° below the normal, at Patus 9.8°, Arrah 9.1°, Rungpore 8.9°, and Chupra 8.6°; on the 29th at Arrah 9.1°, Buxar 8.7° and Chupra 8.5°; on the 30th at Durbhunga. Motihari, Patna, and Buxar defeet was 8° or more. The monthly means, in consequence of these steady low temperatures, are largely below the normal in all districts except in Orissa and South-West Bengal, where defect is, however, over half a degree. Defect in South Behar is 1.6°, in North Behar, Chutia Nagpur, and Assam 1.4°, and in East and North Bengal '9°

Rainfall—Has been unusually heavy in all the northern districts, and moderately lifewy in Chutia Nagpur and East Bengal, but in Orissa and South-West Bengal the falls have been very nearly normal, defect being nearly half an inch in the former and excess only 2 inch in the latter, with an average fall of about 12 inches. The average falls in the other districts are very uniform, North Behar receiving 21 45, East Bengal 19 87, North Bengal 18, South Behar 16 28, and Chutia Nagpur 15 1 inches. Excess is largest in North Behar. amounting there to 9:1 inches, and in the other districts it varies from 4:26 inches in South Behar to 12 inches in Chutia Nagpur. The districts where the amounts reported from the various stations show the greatest diversity are North Bengal and East Bengal, falls at the hill stations in the former rising to more than 70 inches, while in the plains one or two stations report about 10 inches. In East Bengal the range is from 10 inches to a little

over 50 inches.

The comparison of the actual rainfall of the seven meteorological divisions of the province is most accurately shown in the form of a percentage. The figures representing the rainfall for the month calculated in this way are included in the table below under the heading of July. This table gives a condensed summary of the rainfall statistics of the present year up to date for each division, the first seven columns giving the actual rainfall in each month expressed as a percentage of the normal, while the eighth column shows the actual rainfall for the first seven months expressed as a percentage of the normal for the same period. It will be seen that, with the exception of East Bengal in June and Orissa in July, the rainfall during the mousoon season has been considerably in excess, and that, notwithstanding the very deficient rainfall during the early part of the year, the average amount from the beginning of the year has been exceeded in all districts by 2 to 4 per cent. in Lower Bengal, 9 per cent. in Chutia Nagpur, 17 per cent. in North Bengal, and 40 per cent. in Behar.

Metrorological Divisions.	January.	February.	March.	A pril.	May.	June.	July.	Actual rainfall of first seven months of 1890, expressed as a percentage of the normal fall for the period.
Orissa	24	5	216	20	99	124	97	103
South-West Bengal	98	Nil	39	75	87	141	102	104
East Bengal	181	4	70	122	102	89	120	102
North Bengal	98	Nil	26	155	81	132	129	117
North Behar	38	2	25	40	95	140	174	141
South Behar	Nil	5	63	80	95	183	136	138
Chutia Nagpur	Nil	Nil	120	1	6 <b>5</b>	132	116	109

With the exception of the south of Orissa and the south-cast corner of East Bengal, actual falls have generally increased from the south towards the north. Over a band of country, including the south of Chutia Nagpur, Balasore, the greater part of Midnapur and the 24-Pergunnahs, Howrah, Hooghly, and Jessore, falls have been under 10 inches, and in the other parts of these districts between 10 and 20 inches, frequently about 15 inches. In Chittagong amounts vary from 33.8 at Satkanya to 51.28 inches, at Chittagong station, in Chittagong Hill Tracts and Noakholly from 20 to 25 inches, but Hurrishpur reports 46.2 inches. Elsewhere in East Bengal falls are generally between 15 and 20 inches, increasing in the Mymensingh district where the heaviest fall is 29.9 inches at Durgapur. In Pubna, Bogra, Rajshahye, Maldah, Dinagepur, and Rungpur falls are between 10 and 15 inches, but in Julpigoree, Cooch Behar, and the Darjeeling Hills rainfall has been unusually heavy, Kurseong receiving 71.4, Silliguri 69.6, Buxa 60, Darjeeling, Bhagatpur and Kalimpong between 50 and 60, Julpigoree, Fallacatta, and Matabhanga more than 40 inches. In North Behar amounts have been very uniform, very rarely under 20 inches, and ever 25 at Kaliaganj, Soopool, and Bagaha only. In South Behar falls are generally between 12 and 18 inches, the stations receiving more than 20 inches being Arrah 28, Gya 21.6, Bickram 22.5, Jamui 21.5, Gogri and Bongaon 28 and Kolgong 21 inches.

Rainfall has been deficient over a very small portion of the country, and as in those districts where these relatively light falls have been recorded, others considerably above the normal have occurred, the means are below the normal in Orissa only. The districts where there is either a small excess or deficient rainfall are Orissa (defect large in Balasore); Midnapur, 24-Pergunnahs, Howrah, the greater part of Burdwan, Nuddea, Khoolna and Jessore in South-West Bengal; Backergunge, Furreedpore, and Dacca in East Bengal; Bogra and Rungpore in North Bengal; Singbhoom and Manbhoom in Chutia Nagpur. On the other hand, excess is more than 5 inches at scattered stations in Lower Bengal and South Bohar, from 5 to 10 inches at almost all stations in North Behar, 12.87 inches at Buxa, 15.4 at Julpigoree, 18.9 at Matabhanga, 25.29 at Kalimpong, 28.27 at Darjeeling, and

36.78 at Silliguri.

The following table gives full data for the comparison of the actual and normal rainfall for July in all districts. The first column gives the normal rainfall, the second the actual district rainfall as determined from the weighted rainfalls of the month, the third expresses

the percentage of actual to normal rainfall, and the fourth the excess or defect per cent. of normal:---

CALCUTTA, the 12th August 1890.

SUMMARY OF THE METROROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 8TH OF AUGUST 1890.

THE features of interest in the meteorology of the past week are-

1. The high pressure which has prevailed throughout, giving an average excess of nearly a tenth of an inch in the east and north of the province, of a little over a twentieth in part of South-West Bengal and Chutia Nagpur, and about four-hundredths in Orissa.

2 The general low temperature, which, however, was more pronounced at the beginning and end of the week, a rise taking place during the partial break of the rains which

spread over the province.

3. The scattered rainfall in Lower Bengal during the first few days and later in the northern districts.

4. A shallow depression, which, notwithstanding the prevailing high pressure, remained for some days, without causing any unsettled weather, in the neighbourhood of the Orissa

At the commencement of the week pressure was rising, and rainfall had almost ceased in Orissa, Chutia Nagpur, and South-West and East Bengal with the exception of Nuddea, Dacca, and Mymensingh, but in North Bengal and Behar very heavy rain continued to fall. With the steadily rising pressure which continued without the manufacture of the manufacture with the metallic of the manufacture with the metallic of the manufacture with the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of the metallic of a break till the middle of the week, the monsoon current grew weaker in the northern districts, and rainfall rapidly diminished in amount, while wind velocity was generally below the average. The shallow depression in the north-east corner of the Bay first appeared on the 2nd to the south of Gopalpore, where a northerly wind was blowing, and apparently without deepening it kept that position till the 4th, the cyclonic circulation including the winds in its vicinity only. Pressure remained over 29.6 inches, but on the 6th a slow fall was general in the west of the Bay, when pressure, still lowest at Gopalpore was slightly under that amount. On the 7th the depression had passed away, but a small whirl still appeared in the north-west corner. This moved over the north of Orissa, rain becoming general in the southern districts, but it was still very scattered in Behar and North Bengal. Though there was a partial break in the rains, temperature remained low except about the 5th, when a slight excess obtained except in Behar. After rainfall again set in towards the end of the week, temparature again fell, and on Friday was below the normal by small amounts in all districts.

Pressure—Rose steadily during the early half of the week, but on the 5th a brisk fall occurred in Assam, East Bengal and North Bengal, and a slow to moderate fall elsewhere, after which slow downward changes continued in the western districts and a slow rise elsewhere till the 8th, when a brisk rise in the north-west corner of the Bay gave a more normal distribution there; the small depression which had existed for some days completely disappearing. The largest excess was on the 4th, when it varied from 1 inch to 15 inch over nearly the whole of Bengal, but was less than 1 inch in Chutia Nagpur, Orissa, and

Temperature—Though not so low as in previous weeks, has on an average been largely below the normal in Behar, slightly below in Chutia Nagpur, North Bengal, and Assam, and almost normal in East Bengal, South-West Bengal, and Orissa. During the break in the rains in the early part of the week, there was an upward tendency in Lower Bengal, resulting in a small excess there, but as heavy general rain continued to fall in Behar, there was still defect of more than 5°. Mean defect for the week in North Behar is 2·1°, in South Behar 1·8°, in North Bengal and Assam ·6°, Chutia Nagpur ·4°, and in the other districts temperature has

been practically normal.

Rainfall—As stated above, had become very light and scattered in Lower Bengal at the beginning of the week, but heavy falls were still being received in Behar. The break, however, gradually spread over the province, and by the middle of the week general light rain was falling in the lower districts, and scattered showers in North Bengal and Behar. Scattered rain continued to fall in Orissa, South-West Bengal, Chutia Nagpur, and East Bongal, from the 2nd to the 5th, after which general light rain fell till the end of the week. In the northern districts general rain fell from the 2nd to the 4th, and then the break commencing, scattered showers were received till the 8th with the exception of the 7th, when fairly general rain fell. The mean amounts for the week are all below the normal except in North Behar, where there is excess of 1.3 inches Defect is about 1.3 inches in Orissa, East Bengal, and Chutia Nagpur, 9 inch in South-West Bengal, 7 inch in North Bengal, and about half an inch in South Behar.

## 1714 SUPPLEMENT TO THE CALCUTTA GAZETTE, AUGUST 18, 1890.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 8th of August 1890:—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 8 feet higher at Alipore, and, other things being equal, reads therefore 008 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.6 higher; and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

J. H. GILLILAND,

$\mathbf{T}\mathbf{h}$	average fall of the corresponding per	iod for 24 y	ears, SG.'	s Office	4 * *	38.44
e me	in pressure, temperature, &c., ere dedu	sed from th	e traces of	the Barogra	bna do	Thermo

and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly

at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, INDIA;
The 11th August 1890.

#### MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 26th July 1890.

#### BIRTHS

The births registered during the week ending with Saturday, the 26th July 1890, in twenty-seven principal towns of Bengal, correspond to an annual rate of 18.2 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 2.7 lower than the average rate of the corresponding week of the past five years, and is also lower than the rate of the corresponding week of any of the past five years except 1887—vide the figures below:—

•	1885.	1886.	1887.	1888.	1889.	Weekly average of five years 1885—89.	1890.
Ratio of births per 1,000 of the population per annum	<b>5</b> 6.6	20*7	18.9	19:8	21.2	30.8	18'\$

The births registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population:—

	Wrees ex	DING-		WEEKS E	nding-
Towns.	6th July 1890. 12th July 1890.	19th July 1890. 26th July 1890.	Towns.	5th July 1890. 12th July 1890.	19th July 1890. 26th July 1890.
Burdwan Midnapore Hughil and Chinsurah Rarampore Utterpara Howrah Bati Kishnagar Eanaghat Santipore Jessore Jessore Jessore Jessore Beampore Beaulesh Darjiling Dacca	16.8 13.7 170 23.2 26.3 18.1 25.5 18.7 3.7 7 11.2 17.9 17.0 18.0 18.0 12.3 10.5 0.1 2.3 10.5 0.1 18.4 14.8 \$7.0 11.0 9.7	30'5 12'2 20'4 77 32'8 23'0 31'4 23'1 28'3 16'9 14'3 15'5 3'5 14'0 15'1 11'4 12'0 19'3 10'5 18'4 6'1 23'0 18'4 22'2 22'2 18'6'6 9'7	Narainganj Chittarong Contillah Patna City (sya Arrah Mozuferpore Durbbanga Chupra Binaculpore Wonghyr Purneah Poori Total	411 2007 423 2822 347 378 1001 114 143 284 144 339 134 182 154 228 700 121 209 189 145 385 231 147	10.6 29.0 4.7 14.1 7.7 15.4 11.4 12.7 20.0 33.5 17.9 19.1 15.8 13.4 16.9 37.5 20.1 11.1 25.3 18.1 33.4 41.6 6.9 20.8 10.6 18.9

It will be seen that last week the highest birth-rate was returned from Monghyr (41.6), and the lowest from Jessore (6.1).

## DEATHS.

The deaths registered during the week under review correspond to an annual rate of 23:1 per 1,000 of the population. The rate of the week is 6:1 below the average rate of the corresponding week of the past five years, and also below the rate of the corresponding week of any of the past five years except 1888—vide the figures below:—

	1885.	1896.	1887.	1888.	1889.	Weekly average of five years 1885—89.	1890.
Ratio of deaths per 1,000 of the population per annum	88'5	28.9	28'6	19'2	26.5	29.5	53-j

The deaths registered in each of the last four weeks in each of the twenty-seven towns correspond to the following rates per 1,000 of the population:—

			WEEKS :	HADING-		Webes ending-					<b>-</b>
Towns,	5th July 1890.	1£th Jaly 1890.	19th July 1890.	26th Jaly 1896.	Towns.	<b>4.</b>	5th July 1890.	12th July 1890.	19th July 1890,	26th July 1890.	
Burdwan Midnapore Hughi and Chinsursh Serampore Utterpars Howrah Rali Kishnagar Ranaghat Sanispore Jossore Bampore Beaulesh Darjiling Dacon		16'8 21'7' 29'4 9'4 8'6 34'0 13'2 6'0 14'0 15'8 51'9 21'4	22:9 26:23 20:4 16:9 11:5 7:8 18:0 8:8 50:6 10:5 22:2 16:6	19°8 35°6 19°7 45°1 56°0 10°0 7°0 5°8 94°0 17°5 42'8 5°2 97°0 23°4	27.5 17.0 24.6 39.3 47.2 13.7 21.1 11.4 12.0 16.8 12.3 25.8 25.1	Narainganj Chittagong Comillah Patna City Gya Arrah Mosufferpore Durbhanga Chupra Hosunforpore Hosunforpore Bhagulpore Honghyr Purneah Poori	**** **** **** **** *** *** *** *** **	8'8 87'8 46'8 15'8 26'0 81'1 81'8 8'0 10'4 86'9	24'8 30'9 26'9 16'9 23'1 85'9 81'1 15'4 25'8 18'9 65'0	16'8 15'8 26'9 14'6 28'1 25'9 29'8 16'1 10'0 26'8 10'4 44'1	16.6 18.8 88.5 18.8 37.6 89.5 89.5 89.5 16.1 28.6 95.3 10.4 36.7

It will be seen that last week the highest mortality occurred in the town of Utterpara (47.2), and the lowest in Purneah (10.4).

Measured by last week's mortality, the highest annual death-rates from the following registered death-causes were as follows:-

C	Cholera.			Fever.		Bowel-con	Bowel-complaints.			Other causes.		
		tio per nille.		E	latio per mille.			atio per mille.		Ra	tio per nille.	
Arrah Chupra Midnapore Serampore Mozufferpore Durbhanga Patna City Gya	T	11·1 9·3 7·8 6·0 5·5 3·9	Comillah Rampore leah	Beau-	84·7 21·0	Utterpara Poori	•••	37·7 21·0	Gya Mozufferpore Serampore Hughli and Ch surah Monghyr Burdwan	•••	18.0 18.4 11.8 11.5 10.8 10.7	

The total mortality from the several registered death-causes in the twenty-seven principal towns amounted to 3.3 from cholera, against 2.5 per 1,000 in the preceding week; '1 from small-pox, against '4; 10.2 from fever, against 8.6; 2.4 from bowel-complaints, against 3.1; '9 from injury, against 8; and 6.2 from other causes, against 6.6 in the preceding week. The mortality of last week according to Sex, Class and Age was as follows:—

According to Sex.

According to Class.

According to Age.

	Ratio per mille.			Ratio per mille.		R	atio per mille.
Males Females Ratio of mule deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population	108	Christians Hindus Mahomedans	•••	14.9 23.3 23.1	Under 1 year  1 and under 5 years  5 , 10 ,,  10 ,, 15 ,,  15 ,, 20 ,,  20 ,, 30 ,,  30 ,, 40 ,,  50 ,, 60 ,.  60 years and upwards		211·0 28·5 15·5 16·7 9·6 11·8 14·5 17·4 28·5 54·6

Detailed information regarding the vital statistics of the twenty-seven towns dealt with in the above review will be found in the statement appended.

W. H. GREGG, Dip. Publ. Health, Camb.,

The 11th August 1890.

Sanitary Commissioner for Bengal.
